Dear Madam Clerk - As I mentioned at the meeting, please reference this article (link below, not required to be printed out):

<https://www.propublica.org/article/he-tore-down-motels-where-poor-residents-lived-during-a-housing-crisis-city-leaders-did-nothing>

and the attached PDF (please print out the pages) as illustration to points made about the City abdicating the planning for Downtown's Northwest Quadrant to Jacob's Entertainment. This was in order that the company's private interest for the area advance at the cost of envisioned community collaborative planning effort.

Please add this into the record should the item be rescheduled at a future date.
