If no, enter comments below:

Hello! My name is Alex and I am a 5th generation Renoite. I love our city and I'm always proud to call it home. However, I think there is always room for improvement. We are growing at a quick pace and I think it is time to raise the ante on what the city offers. The new arena is a wonderful opportunity to revamp our entertainment industry. I'm not saying we don't already have good entertainment but this will take it to the next level and beyond. More often than not, I'm leaving town for concerts and I know I'm not the only one. This could change that! I'm also a big Wolf Pack fan that attends every game and I think an arena like this would only elevate the program and the overall brand of the university. In conclusion, word got out that Reno rocks and people want to be here. It is time to truly invest the big

bucks and define a new age for the biggest little city.

If no, enter comments below:

This project will do wonders for the city. By providing a world-class venue for events, the new arena will not only benefit the GSR, but every other property in the city as well. The detractors of this project are all failing to realize that they themselves stand to benefit the most from a new arena, all without spending a dime of their own money. The only added expense they will have is paying for the operating expenses that come with higher occupancy.

ACKNOWLEDGEMENTS:

Reno GSR ARENA.

Position:

In Favor

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

This arena will be transformational for the entire athletic department at Nevada and is a no brainer. We are at a do or die moment for Nevada athletics and in the new NIL era of college athletics our university needs this to compete. We have an investor that wants to pump ONE BILLION \$ into our economy from Arizona, in what logic is it reasonable to not welcome that? Even with the 9% TIF which is less than every other stadium in Nevada, including the Aces park which was a much worse deal than this one. Do the right thing for Northern Nevada and our University. Approve the build!

No, I am submitting a written comment only.

If no, enter comments below:
Arena project will bring Reno up as a tourist destination, and not just for gambling. Other casinos oppose to it, as they think that it would take their business to GSR, yet they are not jumping off their seats to invest anything into development of the city. Arena will benefit the whole region, not just one casino.

It'd be great to have an entertainment venue that is managed the same as the GSR Theatre, in bringing top acts aggressively to Reno. With all of the Tribally owned Casinos creating entertainment venues in CA, we (Reno) needs to stay relevant!

Section:

B Items - Consent Agenda Items

Item:

Redevelopment Agency Board Item B.1.

Position:

In opposition

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

I urge the board to NOT give tax increment financing to the GSR Arena project. This privately-owned project should not receive this funding because it will not provide the substantial public benefit required for receiving such funds, and may result in a negative financial impact to the city. The casino owners have used the UNR basketball program as a sop to qualify for public funding of the private expansion. The proposal to move the team to the casino property will result in a negative economic impact to the businesses that border the university and serve the fans who attend the games. Further, students will no longer be able to walk to games on campus, and the proposal to provide transportation to games will result in more traffic and increase the city and university's carbon

footprint. Parking will not be as convenient for patrons and the added surcharge to finance the arena will raise ticket prices, and may result in fewer fans renewing their season tickets, another negative economic impact. Finally, the cost of construction for the proposed arena may balloon in the coming months due to increased tariffs on building materials, and make this project prohibitively expensive for the city to help finance. Our city tax dollars would be better spent on improvements to city infrastructure and programs that actually help citizens. We don't need to finance a private casino's expansion. Thank you.

Please vote to support the initiative to let GSR build the proposed Arena project. A rising tide lifts all boats - this project will help so many people and businesses in the community that it would be madness to oppose it. And I'd very much like to see Wolf Pack basketball have a better home and to enjoy seeing other sports and bigger acts come to Reno. Go Wolf Pack!

GSR Reno Arena.

Position:

In Favor

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

Our city needs the Reno Arena at the GSR. It won't cost taxpayers anything. The only opposition are the long-standing downtown casinos who have done nothing to improve the quality of the Reno experience. The GSR is trying to make Reno a better place and destination.

This is regarding the Staff Report on the Grand Sierra Resort during the Redevelopment Agency Board Meeting. Reno City Council Reno City Hall 1 E. First Street Reno, NV 89501 Dear Honorable Members of the Reno City Council, On behalf of Swire Coca-Cola Reno, I am writing to express our support for the Grand Sierra Resort's proposed \$1 billion expansion, which includes the development of a state-of-the-art sports and concert arena. This visionary project represents a significant opportunity to enhance Reno's economic vitality, bolster tourism, and foster community engagement. As a major employer and community partner in Northern Nevada, Swire Coca-Cola recognizes the transformative potential of this development. The proposed arena, with a seating capacity exceeding 10,000, is poised to

attract a diverse array of events—from concerts to sporting competitions, positioning Reno as a premier destination for entertainment and cultural experiences. This influx of visitors is expected to generate substantial economic benefits, including increased demand for hospitality services, retail, and dining, thereby supporting local businesses and creating job opportunities. In conclusion, Swire Coca-Cola fully supports the Grand Sierra Resort’s expansion plan and encourages the Reno City Council to consider the long-term benefits this project will bring to our community. We are confident that this initiative will serve as a catalyst for continued growth and prosperity in Northern Nevada. Thank you for your consideration. Sincerely, Bret Decair Food Service on Premise Manager Swire Coca-Cola

I believe this project will not only bring more fun events for families around northern Nevada and California, but this will also incredibly benefit the Reno economy. Proving countless jobs, better living situations for low-income families, and giving Reno potential for growing into a bigger and better city. Not only this, but Reno citizens will get to enjoy all of it at no expense from their personal taxes! Nothing but good can come from this project and hopefully inspire other large scale projects to continue developing beautiful Reno.

Building an arena in RENO will not just bring stops to a city that desperately needs it, it will lead to other company looking at this location as a viable option for growth. Flights into Reno will increase, schools, fire departments, police departments will benefit from the generated taxes. We are blessed that Merello wants to invest in our city, and need to support this project.

Dear Redevelopment Agency Chair and Board Members, As an invested member of the University of Nevada community and a supporter of Northern Nevada, I respectfully urge you to vote YES on the Grand Sierra Resort Arena project at your upcoming May 7 meeting. This project creates thousands of jobs, generates over \$224 million in new tax revenue, and elevates the standing of our university and community — without placing any burden on taxpayers. The Arena is more than a venue; it is an investment in the future strength, vitality, and growth of Reno and Northern Nevada. It supports students, families, businesses, and the regional economy. Please vote in favor of this transformational opportunity for our community. Thank you for your leadership and service

I have been born and raised in Reno Nevada and I have seen all the growth it has experienced over the years. Reno needs this arena to take the next step forward. This arena will make Reno a primer west coast destination for all different kinds of entertainment that will pour money into the city and create numerous job opportunities. Nevada Men's Basketball is also a primer basketball program, and the addition of this new arena would draw in better talent and only help improve our program. It is necessary to build this arena and all the GSR expansions.

Mayor Schieve and members of the Council, I'm here as a proud resident of Reno and a firm believer in the power of smart, community-focused development. The Grand Sierra Resort Arena project is not just about a building — it's about momentum. It's about jobs. It's about revenue. It's about creating the kind of regional identity and opportunity Northern Nevada has long deserved. This project brings over \$224 million in new tax revenue, more than 2,100 new jobs, and a state-of-the-art venue that opens the door to concerts, tournaments, and events we simply cannot host today. There are no new taxes. No city financial risk. And undeniable public benefit. This is a matter of doing what's right for our community. I understand there are a few voices in opposition. And while they may be loud, the truth

is: those voices are not representing the greater good. That's their right. But it's your responsibility to look beyond that. Your job is not to preserve the status quo for a few — it's to build a better future for all. The facts are clear. The opportunity is real. And the time is now. Please vote in favor of the Grand Sierra Resort Arena project — because that's what Northern Nevada needs, and what our community deserves. Thank you.

If no, enter comments below:

My name is Chuck Jeannes, and I write in strong support of the Meruelo Group’s proposal to invest in the GSR Arena project—an initiative that promises tremendous benefits for the University of Nevada and the entire Reno-Sparks community. As a native Nevadan, 1980 graduate of the University of Nevada, retired corporate executive, owner of several Reno businesses, and a long-time supporter of the University and its athletic programs, I bring both personal and professional perspective to this important decision. I view the GSR Arena project through two critical lenses: Will it benefit the University and its athletic programs? And will it benefit the broader Reno-Sparks community? After closely following the discussion, I believe the answer to both questions is a resounding YES. A modern,

state-of-the-art arena for Nevada basketball is essential to keeping pace with the rapidly evolving landscape of college athletics. It will significantly enhance the student and alumni game-day experience, drive vital athletic department revenue, and strengthen our ability to compete at a national level. As both Athletic Director Stephanie Rempé and Coach Steve Alford have clearly stated, this project is a game-changer for Wolf Pack athletics. But the impact goes far beyond campus. This is a billion-dollar private investment that will generate hundreds of construction and long-term jobs, improve local infrastructure, increase tourism, and boost tax revenues. At a time when our region urgently needs bold development—not just more apartments and strip malls—the GSR Arena offers a chance to bring lasting vitality and economic growth. Critics argue this is a “publicly funded” sports facility. That simply isn’t true. Unlike the \$750 million in taxpayer money used for Allegiant Stadium in Las Vegas, this project requires no upfront public financing. What Mr. Meruelo is asking for is a share of future incremental property taxes—revenues that wouldn’t exist without his private investment. There is zero risk to taxpayer and all upside: if the project fails, no public funds are lost. If (and when) it succeeds, the City gains jobs, growth, and tax revenue it otherwise wouldn’t have. The choice is simple: do we want significant private investment and economic opportunity—or nothing at all? Some have raised the issue of whether the GSR site qualifies as a redevelopment area. But this is a settled matter. The area was formally designated years ago—ironically, at the urging of Caesars, which now opposes the project. I’ve also heard concerns that Alex Meruelo is a “newcomer” who can’t be trusted with a project of this scale. I disagree strongly. I’ve met Alex and discussed this proposal in depth. I believe in his commitment to our community and to the University of Nevada. More importantly, he’s already proven himself here. He rescued the Grand Sierra Resort from bankruptcy over a decade ago and transformed it into a thriving enterprise through vision, hard work, and substantial financial investment. There is no reason to doubt that same commitment will extend to this project. In closing, the GSR Arena project is a rare opportunity—one that supports our beloved University, drives meaningful economic development, and reflects the kind of visionary leadership Reno-Sparks deserves. I urge you to support it. Thank you for considering these comments.

If no, enter comments below:

Dear Redevelopment Agency Chair and Board Members, As an invested member of the University of Nevada community and a supporter of Northern Nevada, I respectfully urge you to vote YES on the Grand Sierra Resort Arena project at your upcoming May 7 meeting. This project creates thousands of jobs, generates over \$224 million in new tax revenue, and elevates the standing of our university and community — without placing any burden on taxpayers. The Arena is more than a venue; it is an investment in the future strength, vitality, and growth of Reno and Northern Nevada. It supports students, families, businesses, and the regional economy. Please vote in favor of this transformational opportunity for our community. Thank you for your leadership and service

Item:

B 1 of Redevelopment agenda.

Position:

In opposition

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

This request by the GSR for tax payer support comes after the Council was assured that NO public support was needed. Now it is! The area to be developed is not blighted as required according to TIF rules. If your project is projected to go over your budget, you scale back your project. You don't ask for a handout from the City. At least that's how the rest of us manage our lives, GSR should too

The community will prosper greatly if we expand the property as all of our competitors will benefit from the overflow business we will generate. Reno needs to reinvent itself to keep up with Las Vegas markets which can provide a new and refreshed image for future tourists.

Yes

Outlook

Abolish boards and commissions**From** David Colborne <david@colbornemmx.com>**Date** Sun 5/4/2025 9:35 AM**To** Public Comment - CC <PublicComment@reno.gov>**Cc** Hillary Schieve <SchieveH@reno.gov>; Kathleen Taylor <TaylorK@reno.gov>; Naomi Duerr <DuerrN@reno.gov>; Miguel Martinez <MartinezMi@reno.gov>; Meghan Ebert <EbertM@reno.gov>; Devon Reese <reeseed@reno.gov>; Brandi Anderson <AndersonB@reno.gov>

This email is being sent to Public Comment for the next City Council meeting and is also being sent directly to all individual members of the Reno City Council.

I am reaching out to you and the community at large in support of the city manager's recent action to place a halt on staff support for Reno citizen boards and commissions — and to call for something much more radical than what's been done so far. Though I recognize the city's dozens of boards and commissions have their fans, I only recall electing city councilors and mayors. I don't recall electing dozens of board members — and I certainly don't recall electing members of advisory boards, such as the Redevelopment Agency Advisory Board, that advise and provide recommendations to other boards, such as the Redevelopment Agency Board.

Consequently, I am taking this moment to call for the categorical abolition of all boards and commissions which are not directly required by county code, state statute, or federal law. Where the city code requires a specific board or commission to exist, I request that this city council begins the process of amending the code to abolish those requirements. Doing so will maximize transparency of our city government by placing responsibility for policy deliberation and decision making where it appropriately belongs — with the publicly elected city council, not an inscrutable mass of poorly advertised public bodies.

I recognize my view, at least among those who provide public comment or who might be inclined to contact city councilors, is likely in the minority. I will note, however, that if as many as 2,000 Reno residents participate or otherwise follow these boards — I doubt the number is that high — that is less than 0.1 percent of the city's population. Even off-year municipal elections had over 100 times more participants than that.

Thank you for your time and consideration on this matter.

- David Colborne, Skyline Blvd, 89509

From Diane Rockafellow <woofs9@everyactioncustom.com>

Date Wed 4/30/2025 1:02 PM

To Public Comment - CC <PublicComment@reno.gov>

Dear City Council,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals

to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,
Ms. Diane Rockafellow

My interest in this project is simply a matter of alumni pride as a graduate of our town's own University of Nevada. This facility will not only bring anywhere between \$400 million and \$1.8 billion in revenue to the city over the next 30 years (more than paying for any tax-increment funding costs borne by the local taxpayers), but will also provide a new home for Wolf Pack basketball in an era where money and facility quality matter more than ever to a program's success. It is for this reason that I strongly endorse the project's funding approval, and hope to see this vision brought to reality and bearing dividends as soon as possible. Thank you.

May 7, 2025 Redevelopment Agency Board Meeting B Department Items B.1.

Position:

In Favor

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

The Nevada Wolf Pack is the pride of Reno and all of Northern Nevada. It represents more than just the UNR, it represents a strong community that even when things are tough doesn't back down. The Wolf Pack had faced alot of hardship and struggle over the past few years, but the GSR Arena project can change that. It's no mystery that collegiate athletes value state of the art facilities and a strong coaching staff. The Wolf Pack has a strong coaching staff, but not state of the art facilities. A new arena could make Nevada the next west coast powerhouse basketball school. This would greatly benefit Reno economically and culturally as cities benefit greatly from winning sports teams. I have full faith in this project and will support it all the way, and I hope the community supports it as well.

If no, enter comments below:

Hello, My name is Erica Bradley, and I am a constituent in Ward 5. I am writing to express my deep concern about the planned 90-day (or longer) halt on staff support to more than a dozen City of Reno citizen Boards and Commissions, including ALL Neighborhood Advisory Boards (NABs). I think that sufficient staff positions to maintain in-person meetings should be a priority in next year's budget, rather than a whopping \$112 million to Reno City Police. As the City of Reno shared in a January 2 social media post, the NAB meetings are a critical way to "stay connected, learn about local projects, and tackle community issues alongside your neighbors." Please reconsider the pause on these important meetings, and please ensure sustained funding for these services in FY 2026. Thank you for

your time and consideration, Erica Bradley

GSR Arena.

Position:

In opposition

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

UNR Basketball should remain on campus at Lawlor. We do not fill Lawlor as is. Ticket prices will raise significantly and families will not be able to attend. It will not be easy for students to walk to and attend the games. Theo is unnecessary. Vegas is failing and people are loosing jobs there now. This is not the time to be expanding. If the owner of the GSR wants to build let him, but leave the citizens of Reno out of it. Alumna speaking. I am disappointed in the over spending and nonchalant attitude.

Are they speaking in person?
No, I am submitting a written comment only.

If no, enter comments below:
Building this area will be a great economic boon for the community as well as the state of Nevada. In addition, it will help promote a growing Nevada sport by giving access to a proper ice arena in Reno. This will allow more youth to participate and live the dream of becoming an ice hockey player for youth leagues as well as potentially professional teams.

If no, enter comments below:

The new arena at GSR is a waste of time, resources, and money. It is a wasteful attempt to take away from UNR's mission of serving its students and providing a high quality education and instead get in the pocket of Big Business. There is no athletic benefit as Lawlor is a perfectly good basketball arena and recruits nowadays are motivated more by NIL money than facilities. It will also detract from the fan experience since students will have many more hurdles to attending the game, and they are the ones that create the atmosphere that other, older fans enjoy so much.

I am writing in support of the proposed Reno arena development. This project represents a significant opportunity to create jobs for our community and stimulate economic growth. In addition, it will help elevate the profile of Northern Nevada as a vibrant destination for entertainment, sports, and tourism. I believe this investment will have a lasting positive impact on the region.

Having an off-campus stadium at a CASINO with students who are under 21 is not the UNR I am an alumna of. Keeping the campus close together is the main reason UNR is great. Students can walk to games and class. A casino shouldn't be partnering with a school. We should focus on funding education, not building a basketball stadium off-site where gambling occurs. I'm anti this development.

Yes

Outlook

I am writing to you as a concerned citizen and advocate for the welfare of our community.

From Howard Cohen <howard@everyactioncustom.com>

Date Wed 4/30/2025 1:07 PM

To Public Comment - CC <PublicComment@reno.gov>

Dear City Council,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests at most one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals

to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience. They also disorient wildlife and disrupt natural patterns.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,
Dr. Howard Cohen

To: City Clerk <CityClerk@reno.gov>
Subject: I am writing to you as a concerned citizen and advocate for the welfare of our community.

Dear City Clerk Mikki Huntsman,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests at most one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience. They also disorient wildlife and disrupt natural patterns.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,

Dr. Howard Cohen

I strongly oppose the Arena Project at the Grand Sierra Resort due to the involvement of Alex Meruelo. His track record as a community partner—particularly his mismanagement of the Arizona Coyotes and the failed arena proposal in Tempe—raises serious concerns. Meruelo left a trail of broken promises and community distrust in Arizona, and we should not invite that kind of instability into our region. Reno deserves transparent, responsible development—not a repeat of Meruelo’s mistakes.

This is a no brainer (Yes) vote. Why would any part of the Reno Community stand in the way of this. The expansion is an expansion for the entire Reno community. All other Hospitality in Reno will benefit from bring an influx visitor to Reno because of this expansion. Particularly the depressed downtown area.

To: City Clerk <CityClerk@reno.gov>
Subject: I am writing to you as a concerned citizen and advocate for the welfare of our community.

Dear City Clerk Mikki Huntsman,

Are you crazy to even propose these signs? With all due respect, the residents of Reno are against any more signs at all, much less one or two signs per public or private school! All residential areas should be free of this visual pollution. Where is the need? What is the purpose? The end result will be horrendous. I oppose all new signs!! I am writing to oppose the draft regulations to the city's sign code which would allow digital school signs in our neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,

Mrs. Janice Flanagan

This is a game changer for Reno. Not only for Nevada athletics but for youth sports and hockey in the area. Reno has 1 ice rink, that is constantly full. Having 2 additional rinks would give kids more ice time, more opportunities for youth travel teams and potential to have youth tournaments in Reno with 3 sheets of ice.

The approval of the GSR arena is the single most important project in the history of northern Nevada. If an approval is not achieved, the region will forever lack investment into projects that help the city of Reno.

Please support the GSR Arena Project! It would be highly disappointing to miss out on such a great opportunity for the City of Reno, the University of Nevada, Reno, and all of Northern Nevada. I have no issue with the use of tax-increment financing for such a project - if it is not built, the City will be missing out on a lot of added benefit and tax revenue that would not materialize without such a project. Please think ahead, not backwards.

If no, enter comments below:
I'm against as this project is not good for our community, we are already having traffic issues this will bring more traffic , we locals have to deal with that, this is not good for the community, this is only good for rich people why is the arena not build in Vegas at their other property , enough of this companies business ruin our peace inflation is a thing for the regular folks , this businesses don't care about our beautiful city they care about the money they can make this will not help Reno

I am an alum of UNR (BA, MA, PHD), a former resident of Reno, and a current resident of Sparks. I own a business in Reno (Sage Collective, Inc.). I am in favor of this proposal as it it's likely to do good in the region and for the university, with very low risk to the city.

Position:

In Favor

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

I'm writing to express my strong support for the Grand Sierra Resort redevelopment project. This \$1 billion private investment represents a transformative opportunity for our city—not just in terms of entertainment, but through the addition of workforce housing, public infrastructure improvements, and long-term job creation. The use of tax increment financing (TIF) ensures that the project pays for itself through new property value, without impacting the city's general fund. This is a forward-thinking investment in Reno's future, and I urge you to support it.

Dear Madames Mayor and council woman

My name is Jerry Jones M.D.

As a 3 X grad and enthusiastic UNR and Reno fan, I am writing to express my endorsement for the proposed basketball arena at the Grand Sierra resort.

Thank you for your service and consideration of this very important project!

Sincerely

Jerry L. Jones M. D.

From Justin Truong <justintruong56@everyactioncustom.com>

Date Wed 4/30/2025 11:44 PM

To Public Comment - CC <PublicComment@reno.gov>

Dear City Council,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals

to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,

Mr. Justin Truong

While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals

to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,
Mrs. Kathryn Lemoine

RE: Review of the City of Reno's Community Engagement Process

I have several ideas for consideration during the City of Reno's hiatus from public meetings which are not required by statute. Please share my thoughts in the public record regarding your work to review the City's community engagement process due to staffing limitations and overall budget shortfalls.

Eliminate or reduce meetings to quarterly which is the schedule I believe was followed prior to the Covid hiatus. The time and effort involved in monthly NAB meetings from your customer service staff is extensive and could be reduced significantly by a less frequent schedule. This would free up a great deal of time to focus on assisting staff and the Council with other projects, presentations, and public outreach efforts.

Many presentations currently included on each of the agendas of the NABs are of City-wide interest and these topics could be better addressed with greater public attendance by hosting a single meeting covering the topic of interest after doing the usual outreach through newsletters, social media, etc. Depending on the topic, an ad hoc committee could be appointed as necessary without the restrictions of a regularly appointed committee. Using the topic as the "headline" and purpose of the meeting would likely increase transparency and community engagement.

Development project presentations for proposed development adjacent to residential or mixed zoning should also be topic focused ad-hoc meetings led by the project planner. An alternative option would be to develop a requirement for the developer to hold a community meeting explaining the project to interested members of the public. I understand Washoe County has this requirement currently. For these meetings, I would recommend that a member of the development services department be in attendance to respond to and document questions and concerns from the public.

The overarching benefit of the NABs has been the cultivation of an engaged panel who each have their own expertise and familiarity with their surrounding neighborhoods. I have enjoyed working with staff to transcribe many of the NAB meetings and appreciate their professionalism and the work being accomplished by the City Manager's Office and the City Council.

Marianne Potts

Subject: I am writing to you as a concerned citizen and advocate for the welfare of our community.

Dear City Clerk Mikki Huntsman,

I am writing to oppose the draft regulations to the city's sign code which would allow digital school signs in our neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes

this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)

3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.

4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,

Ms. Meryl Pinque

Subject: I am writing to you as a concerned citizen and advocate for the welfare of our community.

Dear City Clerk Mikki Huntsman,

I am writing to oppose the draft regulations to the city's sign code which would allow digital school signs in our neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes

this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)

3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.

4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Dear City Council,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

Dear City Council,

I am writing in opposition to any type or form of digital signs in front of schools. Why do they need to be flashing that today is 'May 5, 2025' so don't be late. Also sporting events need not be flashing their announcement, I believe that everyone that wants to attend a school sport is already well informed about where, when and who is playing. This is just another assault on the peace and solitude of any neighborhood. I pity the homeowners across the street from these signs flashing in their windows night and day. This is a stupid idea and should not be passed. I am writing to oppose the draft regulations to the city's sign code which would allow digital school signs in our neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals

to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,
Mrs. Sherida Rapp

Dear City Clerk Mikki Huntsman,

The city staff is moving forward with proposed changes to Reno's sign code to allow all public and private schools to replace their signs with digital versions.

City staff intends to submit a set of digital sign regulations for approval to the Reno Planning Commission on May 8. While the staff's final draft won't be released until at least April 25, the current draft shows regulations, that if approved, I believe would forever change the character of our residential neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)
3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.
4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Dear City Clerk Mikki Huntsman,

I am writing to oppose the draft regulations to the city's sign code which would allow digital school signs in our neighborhoods.

The most egregious includes rotating messages every eight seconds and operating digital signs until 10 p.m., long after schools close for the day; 365 days a year whether schools are in session or not.

I urge you to consider implementing Scenic Nevada's suggestions below instead to protect the quality of life for neighborhood residents, like me.

1. The city is proposing an eight-second sign rotation. Scenic Nevada opposes this and supports a fifteen-minute sign rotation.
2. The city is proposing operating hours from 6 a.m. to 10 p.m., 365 days a year. Scenic Nevada opposes

this and supports operating hours from 6 a.m. to 6 p.m., or until the last school event ends; active only during school sessions (sign inactive on weekends, holidays, and school breaks)

3. The city is proposing that schools with two street frontages can have two digital signs in some areas. Scenic Nevada opposes this and suggests one digital sign per school.

4. The city is proposing height, sign style, and square footage based on zoning district; digital portion limited to 32 square feet. Scenic Nevada opposes this and suggests monument style signs only, 6-foot maximum height, 32 square feet total sign area.

The reasons I object to digital signs are:

Commercialization of Our Residential Neighborhoods – Our tax-supported public schools are not convenience stores needing a constant street presence to compete for consumer dollars. School signs only need to serve as reminders about school events when school is in session, as the static signs do today.

Disruption of Peace and Quiet - These lights can be highly distracting, making it difficult for individuals to relax, unwind, and enjoy their evenings. Bright lights from digital signs can disrupt sleep patterns negatively affecting overall health and well-being.

Public Safety – Constantly flipping messages on digital signs are a source of distraction. Parents should concentrate on driving, parking and watching for children, not checking messages on a sign, especially during drop-off and pick-up of young children who could dart out unexpectedly.

Visual Pollution - Digital signs with bright, blinking lights detract from the aesthetic appeal of residential neighborhoods. Residents take pride in the beauty and tranquility of their surroundings, and intrusive signage diminishes this experience.

Energy Consumption - Operating digital signs until late at night consumes a significant amount of energy, leading to unnecessary electricity usage and increased utility costs for schools.

In light of these concerns, I strongly advocate for the approval of restrictive regulations governing digital signs at public and private schools such as those requested by Scenic Nevada, which would safeguard the quality of life for residents, promote environmental sustainability, respect the tranquility of our neighborhoods, and still allow school personnel to change the messages electronically on a frequent basis.

Thank you for considering this critical issue. I hope that you will take the necessary steps to protect our community and ensure that school digital signs do not become a source of disturbance, diminishing the enjoyment and pride in our neighborhoods, not to mention our property values.

Sincerely,

Ms. Victoria Shih

The Biggest Little Rainbow Bridge of Reno

Who are we?

We are a handful of Junior Girl Scouts (4th and 5th graders) from Troop 508 at Our Lady of the Snows School. We have set our sites on earning the Girl Scout Bronze Award, the highest award for Juniors, by completing a project to help our community in a meaningful way.

Our Lady of the Snows Girl Scouts - Troop 508 Juniors

Kamryn ~ Jordan ~ Ava ~ Drew ~ Charlotte ~ Mara ~ Reese ~ Kaia

Mischelle Leach 775-771-0755

olsGirlScouts508@gmail.com

What does this mean?

We have been learning the process for solving a problem and practicing the leadership skills needed to make a difference. We formed a team of eight interested, motivated Girl Scouts, discussed several mutual concerns, identified a significant issue in our community, investigated and researched, and formulated a plan to ***take action***.

What is the problem?

The issue we agreed to focus on is Pet Grief. People consider their pets as cherished family members, best friends, and true sources of love and comfort. We did a literature search, surveyed our school (kindergarten through 8th grade), questioned parents and neighbors, and interviewed a veterinarian and her staff, as well as the staff of a pet euthanasia company (these are individuals who suffer right along with their clients). The results showed that there is a significant need for additional coping support for people experiencing pet loss. The pain and sadness following the death of a beloved pet is severe (often 10 on a 10 scale) and can last for months or years and even lead to depression.

Our Journey...

As we looked for ways to help our community members through the suffering that follows the death of a pet, we found some wonderful books, as well as commemorative objects that can be personalized (jewelry, garden stones, photo items, ornaments, and such), and some grief therapy groups. We were especially drawn to the popular poem "The Rainbow Bridge", written 65 years ago in Scotland. Now many people worldwide refer to the Rainbow Bridge, a place their pets "cross to" where their health and youth is restored, the treats and toys are plentiful, and where they'll wait until they are eventually reunited with their earthly owners. You can find a copy of the poem on the next page.

How can we help?

The Rainbow Bridge poem is a loving reminder of the bond humans share with their pets. We want to offer our community *the first ever actual Rainbow Bridge*, a physical place where people experiencing this devastating loss can go to spend time with their memories and, perhaps, feel the spiritual presence of their loved one. Originally, we planned to build a bridge, but it became evident that the locations in need of a bridge already have one. So, another option is to identify an existing bridge (with the help from our community leaders), adopt it, and designate it as ***The Biggest Little Rainbow Bridge of Reno***. We would like to make any needed improvements, such as railing or replacement of worn boards, and paint it as a rainbow with signage to lift the hearts of all visitors. Our goal is to give Reno's citizens a new way to heal from the loss of a beloved friend.

Suggested Locations (existing bridges):

- ~ Betsy Caughlin Donnelly Park
- ~ Manzanita Park (2 bridges within walking trail system to the south)
- ~ Horseman's Park (near Reno Fire Dept #7 and Mary Gojack Park)
- ~ Chrissie Caughlin Park (bridge over Alum Creek)
- ~ Dorostkar Park (several bridges connect bike trails)
- ~ North side of Rancho San Rafael (beyond softball fields, Evans Creek/Keystone trailhead)

The Rainbow Bridge

by Edna Clyne-Rekhy

Rainbow Bridge

Just this side of Heaven is a place
called The Rainbow Bridge.

When an animal passes away that has been
especially close to someone here,
that pet goes to The Rainbow Bridge.
There are meadows and hills for all of
our special friends so they can run and play together.

There is plenty of food, water, and sunshine,
and our friends are warm and comfortable.

All the animals who had been ill and old
are restored to health and vigor;
those who were hurt or maimed are made whole and
strong again, just as we remember them in our
dreams of days and times gone by.

The animals are happy and content, except for one small
thing: they miss someone very special to them,
who had to be left behind.

They all run and play together, but the day
comes when one suddenly stops and
looks into the distance. Bright eyes are intent;
the eager body quivers.

Suddenly the animal begins to run from the group,
flying over the green grass, legs
carrying the pet faster and faster.

You have been spotted, and when you and your special friend
finally meet, you cling together in joyous reunion, never to be
parted again. The happy kisses rain upon your face;
your hands again caress the beloved head,
and you look once more into the trusting
eyes of your pet, so long gone from your life but
never absent from your heart.

Then you cross The Rainbow Bridge together.

The

BRIDGE

RENO ART IN THE PARKS

Requirements for Qualification as a First Amendment Protected Fine Artist

You are invited to display and perform your self created Fine Artwork in the public parks, along the River Walk and in front of the Reno Art and Cultural Center all summer long. You may also sell your artwork without a license or paying a fee. However it is important for you to fully understand the rules.

You are allowed to sell your Fine Art in the Parks if you are a Fine Artist working in the mediums of Painting, Drawing, Photography, Printed self-expression, non-functional Sculpture, non-functional Engraving, non-functional Stained Glass, Music, Dance and the Performing Arts

AND

Just as your spoken words have No other purpose than to be expressive, your Artistic Self-Expression must meet that same standard of having No other purpose than to be expressive. In other words, meant only to look at or listen to.

The City wants to encourage all forms of creativity and Artistic Self-Expression. It is important for those who are presently working as an Artisan Crafts Person, creating commercial items with a dual purpose both aesthetic and functional, to understand that you too can create “Fine Art” and sell it in the public parks. No one is holding you back. However, if you wish to sell Craft items or merchandise that does not meet the standard to qualify as “Fine Art”, you will need to procure a license from the City for commercial vending.

There will always be Gray areas.
Examples;

Macrame pot hangers, hanging tables, lamps, would be considered as commercial merchandise. Whereas Macrame wall hangings with no purpose than to look at, would qualify as Fine Art.

Pottery mugs, saucers, dinner ware, butter holders would be considered as commercial. Where as a sculptural bowl or vase with a hole in the bottom, shows the intent of the Artist for the pottery to have no functional or useful purpose or to contain anything and qualifies as sculptural fine art. Also, if

Steven White A3

the pottery has glazes not suitable for a useful purpose, the pottery would be considered as Fine Art.

Jewelry by its nature is both aesthetic and made to be worn and therefore has a dual purpose and considered commercial when sold by it's creator or another.

Leather work in the creation of hats, vests, shoes, boots, saddles, and other useful / functional items is considered as commercial. However 3 dimensional mask as wall hangings, tooling in leather meant to hang on the wall, dream catchers and leather items meant only to look at are considered as Fine Art.

Stain Glass as a functional window or drinking glass or pitcher or glass work made to have a functional or useful purpose is considered as commercial merchandise. However Stained Glass done as "Art for Art's sake", having no other purpose than to look at is considered Fine Art.

Metal Work that has a functional or useful purpose such as coat hangers, horse shoe hat racks, lamps or furniture would be considered as commercial. However sculptural works of Art having No purpose other than to look at would be considered as Fine Art.

Tie Die T-shirts, scarfs, dresses or other forms of Tie Die apparel are considered as commercial having a dual purpose both aesthetic and functional. However a Tie Die wall hanging or framed work would be considered as Fine Art, so long as it has a single purpose, to be expressive.

Engraving / Etching on functional glass ware, dinner ware or window glass would be considered as commercial merchandise. However an etching or engraving on a sheet of glass or metal that has been framed or demonstrated by the original Artist that it is meant only to be looked at, is considered as Fine Art..

Woodwork such as chairs, tables, benches, stools, jewelry boxes, coat musical instruments, carving boards and hat hangers would be considered as commercial. However sculptural wood work, such as carving of birds, faces in pine knots, or animals and having no purpose than to look would be considered as Fine Art.

Food is considered a commercial, both aesthetic and meant to be eaten.

RE: Accessory Dwelling Unit (ADU) Additional Comments

I have spoken several times in favor of this ordinance and appreciate Mayor Shieve's recent comments on initiating Short Term Rentals ("STRs") Ordinance.

Sadly because of my support of ADUs I and many of my neighbors have been targeted by one of the wealthy outspoken opponents of ADUs. I would refer to this opponent as the "Not In My Back Yard" (NIMBY) citizen even though they live 3 miles away from my neighborhood. This person drove up and down the streets of my neighborhood and reported every zoning violation they could find to the City of Reno's Code Enforcement Department. I spoke with many neighbors and found that at least 10 were in receipt of the violations. I, like many of my neighbors, were not aware that we had been doing anything wrong.

Your Code Enforcement Officer, Russell Keyes, was very kind and professional. I wasn't aware or understood that I had been doing anything wrong. Mr. Keyes was kind enough to come out and walk the property and explain what needed to be corrected. With an extension I was able to correct the violations with temporary solutions and are working for more permanent solutions that would be more attractive. One violation was parking a truck on the empty lot as shown in the attached picture. Six vehicles have been totaled on Casazza because of the traffic problems. Three of them were our parked vehicles, and numerous windshields and side glass have been maliciously broken. The city turned down my request for any traffic control devices. A privacy fence is not an option as this is a corner lot. I have added the parking restriction to the table on the attached picture which shows my lack of solutions for this property. You may recall that table was also on the March 9th letter I sent to the Council asking for a 6,000 sq. ft. lot size be available for an ADU.

Mr. Keyes did not share any confidential information concerning the person who filed these complaints, but it was clear by my earlier conversations at ADU meetings who it was. When I confronted this person at the next meeting, they were very proud to take credit for their actions.

Fixing and understanding the code violations is not why I'm upset. However, having no other options for this property in the middle of Reno where housing is desperately needed is a problem. I'm telling you this because I hope you will no longer let the city suffer because of a few wealthy influential landowners but instead do what's needed to improve Reno.

Regards,
Connie Silveira 775 848-7961

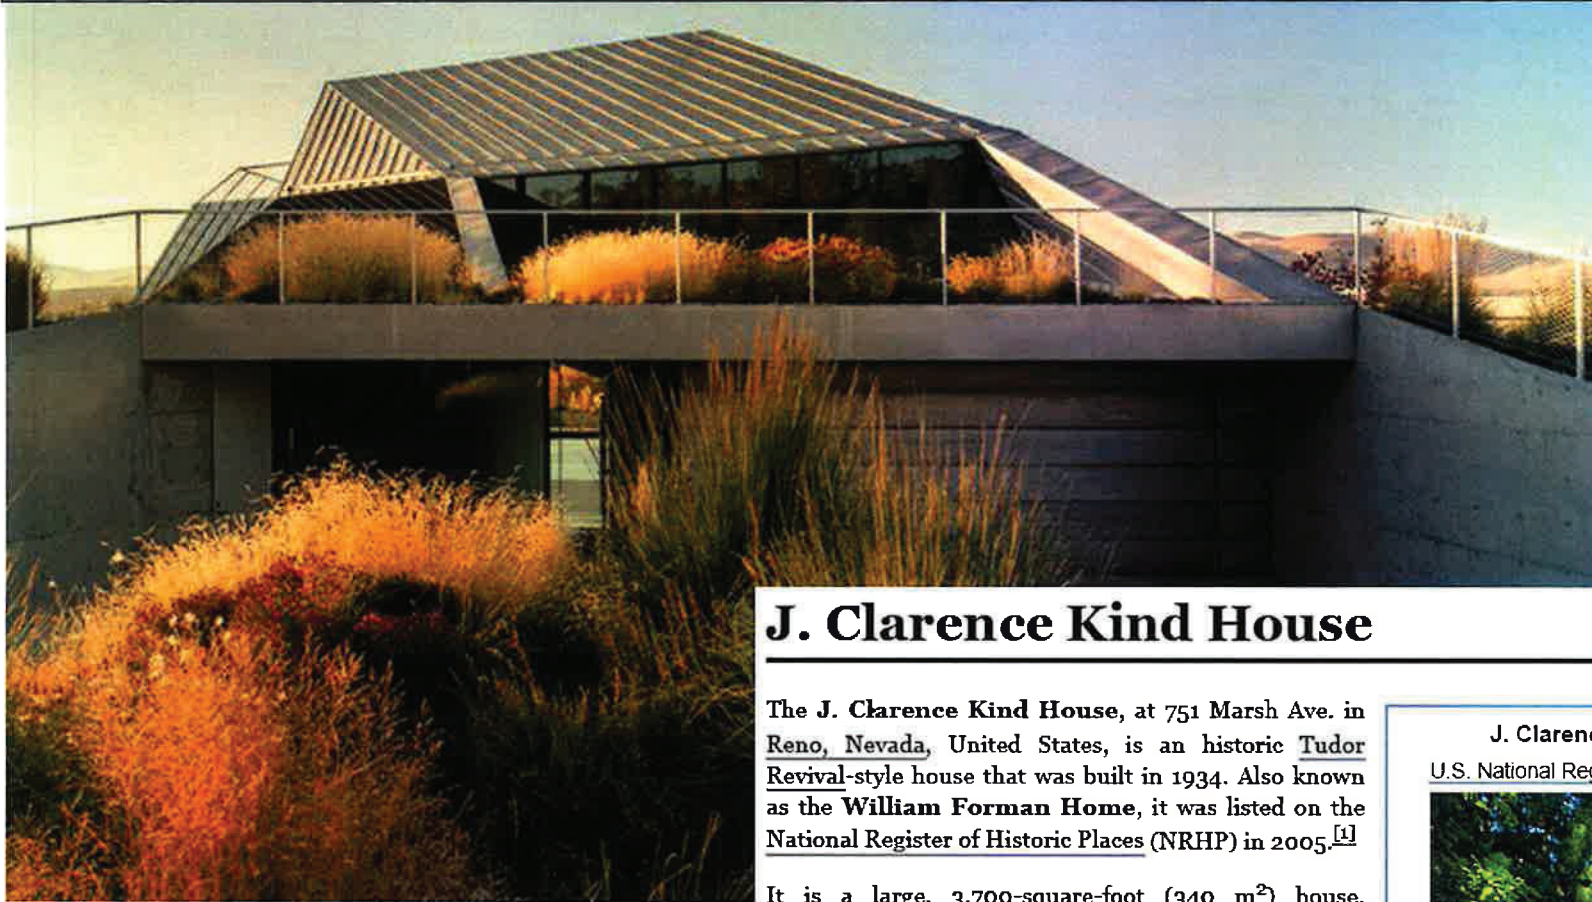

Options	RENO	Reasons
SF 8 Zoning	NO	Can't build a second structure
Attached Garage	NO	Current layout of existing structure does not allow a way this would be viable.
Detached Garage	NO	Could only be 50% the size of house making it a 299 sq. ft. Garage?
ADU	NO	I have a 6,000 sq. ft. lot not the proposed 9,000 sq. ft. lot
Cottage	Maybe	Reno Planner of the day thinks MAYBE (?) could build the primary in front of existing and use existing as cottage if stove is removed. A lot of Maybes on a \$200K investment.
Parking Truck	NO	Code Violation

Current 597 sq. ft. house built in the 1930s on a 6,000 sq. ft. lot

Proposed Additional Unit 962 sq. ft. Combined structures would total 26% of 6,000 lot size.

This house on Marsh Ave. is just a few doors south of the J. Clarence Kind House which is on the U.S. National Register of Historic Places in the Newlands area. A reminder that architecture changes and evolves over time. ADUs should not be held to vague higher architectural standard than the rest of Reno..

J. Clarence Kind House

The **J. Clarence Kind House**, at 751 Marsh Ave. in Reno, Nevada, United States, is an historic Tudor Revival-style house that was built in 1934. Also known as the **William Forman Home**, it was listed on the National Register of Historic Places (NRHP) in 2005.^[1]

It is a large, 3,700-square-foot (340 m²) house. According to its NRHP nomination, it was deemed significant "for its role in Reno's community planning and development history" and "as an excellent local example of the Tudor/Cotswold Cottage style of architecture, within the broader category of Period Revival, and as representing the work of two local master architects, Russell Mills and Edward Parsons."^[2]

J. Clarence Kind House

U.S. National Register of Historic Places

A good example of changing architecture coexisting with older styles. I had the opportunity to tour the container homes and they were extremely nice and well built. Setbacks, heights, safety, building codes should be the main concerns. Not lot size, design features and personal taste in crafting the ADU ordinance.

This is a 6,704 lot with a 1,200 sq. ft. house. The house is only 18% of the lot. This is typical of many older areas of Reno.

6,534 Square Feet Lot 4,068 sq. ft. house built in 2022 The structure covers 62% of the lot.

THANK YOU FOR YOUR COOPERATION AND PARTICIPATION

RENO ART IN THE PARKS

Requirements for Qualification as a First Amendment Protected Fine Artist

You are invited to display and perform your self created Fine Artwork in the public parks, along the River Walk and in front of the Reno Art and Cultural Center all summer long. You may also sell your artwork without a license or paying a fee. However it is important for you to fully understand the rules.

You are allowed to sell your Fine Art in the Parks if you are a Fine Artist working in the mediums of Painting, Drawing, Photography, Printed self-expression, non-functional Sculpture, non-functional Engraving, non-functional Stained Glass, Music, Dance and the Performing Arts
AND

Just as your spoken words have No other purpose than to be expressive, your Artistic Self-Expression must meet that same standard of having No other purpose than to be expressive. In other words, meant only to look at or listen to.

The City wants to encourage all forms of creativity and Artistic Self-Expression. It is important for those who are presently working as an Artisan Crafts Person, creating commercial items with a dual purpose both aesthetic and functional, to understand that you too can create “Fine Art” and sell it in the public parks. No one is holding you back. However, if you wish to sell Craft items or merchandise that does not meet the standard to qualify as “Fine Art”, you will need to procure a license from the City for commercial vending.

There will always be Gray areas.
Examples;

Macrame pot hangers, hanging tables, lamps, would be considered as commercial merchandise. Whereas **Macrame** wall hangings with no purpose than to look at, would qualify as Fine Art.

Pottery mugs, saucers, dinner ware, butter holders would be considered as commercial. Where as a sculptural bowl or vase with a hole in the bottom, shows the intent of the Artist for the pottery to have no functional or useful purpose or to contain anything and qualifies as sculptural fine art. Also, if

the pottery has glazes not suitable for a useful purpose, the pottery would be considered as Fine Art.

Jewelry by its nature is both aesthetic and made to be worn and therefore has a dual purpose and considered commercial when sold by it's creator or another.

Leather work in the creation of hats, vests, shoes, boots, saddles, and other useful / functional items is considered as commercial. However 3 dimensional mask as wall hangings, tooling in leather meant to hang on the wall, dream catchers and leather items meant only to look at are considered as Fine Art.

Stain Glass as a functional window or drinking glass or pitcher or glass work made to have a functional or useful purpose is considered as commercial merchandise. However Stained Glass done as "Art for Art's sake", having no other purpose than to look at is considered Fine Art.

Metal Work that has a functional or useful purpose such as coat hangers, horse shoe hat racks, lamps or furniture would be considered as commercial. However sculptural works of Art having No purpose other than to look at would be considered as Fine Art.

Tie Die T-shirts, scarfs, dresses or other forms of Tie Die apparel are considered as commercial having a dual purpose both aesthetic and functional. However a Tie Die wall hanging or framed work would be considered as Fine Art, so long as it has a single purpose, to be expressive.

Engraving / Etching on functional glass ware, dinner ware or window glass would be considered as commercial merchandise. However an etching or engraving on a sheet of glass or metal that has been framed or demonstrated by the original Artist that it is meant only to be looked at, is considered as Fine Art..

Woodwork such as chairs, tables, benches, stools, jewelry boxes, coat musical instruments, carving boards and hat hangers would be considered as commercial. However sculptural wood work, such as carving of birds, faces in pine knots, or animals and having no purpose than to look would be considered as Fine Art.

Food is considered a commercial, both aesthetic and meant to be eaten.

The Biggest Little Rainbow Bridge of Reno

Who are we?

We are a handful of Junior Girl Scouts (4th and 5th graders) from Troop 508 at Our Lady of the Snows School. We have set our sites on earning the Girl Scout Bronze Award, the highest award for Juniors, by completing a project to help our community in a meaningful way.

Our Lady of the Snows Girl Scouts - Troop 508 Juniors

Kamryn ~ Jordan ~ Ava ~ Drew ~ Charlotte ~ Mara ~ Reese ~ Kaia

Mischelle Leach 775-771-0755

olsGirlScouts508@gmail.com

What does this mean?

We have been learning the process for solving a problem and practicing the leadership skills needed to make a difference. We formed a team of eight interested, motivated Girl Scouts, discussed several mutual concerns, identified a significant issue in our community, investigated and researched, and formulated a plan to **take action**.

What is the problem?

The issue we agreed to focus on is Pet Grief. People consider their pets as cherished family members, best friends, and true sources of love and comfort. We did a literature search, surveyed our school (kindergarten through 8th grade), questioned parents and neighbors, and interviewed a veterinarian and her staff, as well as the staff of a pet euthanasia company (these are individuals who suffer right along with their clients). The results showed that there is a significant need for additional coping support for people experiencing pet loss. The pain and sadness following the death of a beloved pet is severe (often 10 on a 10 scale) and can last for months or years and even lead to depression.

Our Journey...

As we looked for ways to help our community members through the suffering that follows the death of a pet, we found some wonderful books, as well as commemorative objects that can be personalized (jewelry, garden stones, photo items, ornaments, and such), and some grief therapy groups. We were especially drawn to the popular poem "The Rainbow Bridge", written 65 years ago in Scotland. Now many people worldwide refer to the Rainbow Bridge, a place their pets "cross to" where their health and youth is restored, the treats and toys are plentiful, and where they'll wait until they are eventually reunited with their earthly owners. You can find a copy of the poem on the next page.

How can we help?

The Rainbow Bridge poem is a loving reminder of the bond humans share with their pets. We want to offer our community *the first ever actual Rainbow Bridge*, a physical place where people experiencing this devastating loss can go to spend time with their memories and, perhaps, feel the spiritual presence of their loved one. Originally, we planned to build a bridge, but it became evident that the locations in need of a bridge already have one. So, another option is to identify an existing bridge (with the help from our community leaders), adopt it, and designate it as ***The Biggest Little Rainbow Bridge of Reno***. We would like to make any needed improvements, such as railing or replacement of worn boards, and paint it as a rainbow with signage to lift the hearts of all visitors. Our goal is to give Reno's citizens a new way to heal from the loss of a beloved friend.

Suggested Locations (existing bridges):

- ~ Betsy Caughlin Donnelly Park
- ~ Manzanita Park (2 bridges within walking trail system to the south)
- ~ Horseman's Park (near Reno Fire Dept #7 and Mary Gojack Park)
- ~ Chrissie Caughlin Park (bridge over Alum Creek)
- ~ Dorostkar Park (several bridges connect bike trails)
- ~ North side of Rancho San Rafael (beyond softball fields, Evans Creek/Keystone trailhead)

The Rainbow Bridge

by Edna Clyne-Rekhy

Rainbow Bridge

Just this side of Heaven is a place
called The Rainbow Bridge.

When an animal passes away that has been
especially close to someone here,
that pet goes to The Rainbow Bridge.
There are meadows and hills for all of
our special friends so they can run and play together.

There is plenty of food, water, and sunshine,
and our friends are warm and comfortable.

All the animals who had been ill and old
are restored to health and vigor;
those who were hurt or maimed are made whole and
strong again, just as we remember them in our
dreams of days and times gone by.

The animals are happy and content, except for one small
thing: they miss someone very special to them,
who had to be left behind.

They all run and play together, but the day
comes when one suddenly stops and
looks into the distance. Bright eyes are intent;
the eager body quivers.

Suddenly the animal begins to run from the group,
flying over the green grass, legs
carrying the pet faster and faster.

You have been spotted, and when you and your special friend
finally meet, you cling together in joyous reunion, never to be
parted again. The happy kisses rain upon your face;
your hands again caress the beloved head,
and you look once more into the trusting
eyes of your pet, so long gone from your life but
never absent from your heart.

Then you cross The Rainbow Bridge together.

The

BRIDGE

By: Jordan Winchell

DREW, CHARLOTTE, AVA – intro and the problem

DREW: Good morning, Mayor Schieve, Reno City Council members, and guests.

We are Girl Scout Juniors from Troop 508 at Our Lady of the Snows School. We decided to work toward earning the Junior Bronze Award, which is the highest award a Junior Girl Scout can achieve. We have been learning about the process for planning, leading, and carrying out a project to help our community. We have followed the steps to develop a team, discovering the skills needed to be effective leaders, exploring our community, finding common ground regarding a topic we all feel passionate about, and brainstorming to formulate a solution.

CHARLOTTE: The problem we identified and decided to focus on is **Pet Grief and Loss**.

The meaning of grieving is going through a difficult time following the loss of someone you loved. Pets are special family members, best friends, companions, and the ones who are always there for us no matter what. They are a source of joy, comfort, fun, and, for some, service or therapy. "Man's best friend" has usually been considered to be a dog, but we form special bonds with many animals...cats, bunnies, horses, birds, even lizards and snakes.

DREW: We have all experienced the extreme and lasting sadness following the death of a cherished pet and we have shared sadness along with grieving family and friends. It is an intense and heartbreakingly painful feeling. It even affects animal workers, such as

veterinarians, caregivers, and euthanasia providers who experience loss right along with their clients. Our research shows that the process of pet bereavement can last for years and there are very few ways to help. It can also lead to depression and other mental illness.

CHARLOTTE: We found a few available methods to heal...paying tribute to a pet brings comfort and happy memories. There are companies who create personalized memory items, such as jewelry, ornaments, garden stones, pet ash containers, photo blankets, and such. Also, there are many wonderful books for readers of all ages and groups that focus on grief therapy. But the reality is, there are very few ways to comfort those who've experienced the death of a pet.

KAMRYN, JORDAN, KAIA – data, the bridge and conclusion

JORDAN: We created a survey titled "Understanding Pet Loss" and had a local school take it. We received 230 responses from students, kindergarten through 8th grade. 82.5% of those that took the survey said that they had been significantly affected by pet loss before. We asked a question about how much the death of a pet impacted them on a scale from 1 to 10 and 73.2% of the answers were above a level 5, showing that the situation seriously affected them. 76.7% of those polled were between the ages of 8-12 and one of this age group's most common mental health issues is depression. The death of a family member or friend, or in this case, a pet, can contribute to depression. Lastly, 66.8% of the people who

took the survey said that it would have helped to have had a special place to mourn, to be alone with their feelings and memories as they grieved. This shows our community has a need that we feel we can help with.

KAMRYN. Searching the literature related to our topic, led us to a popular poem, The Rainbow Bridge, which was written by a Scottish woman 65 years ago. The poem and its message of hope are well-known worldwide. Many people are familiar with the concept of pets “crossing the Rainbow Bridge” to a beautiful place where they are young and healthy again and they will see their owners again someday. Our goal is to support our friends and neighbors by creating Reno’s Rainbow Bridge, or, as we like to say, **The Biggest Little**

Rainbow Bridge of Reno. Creating this unique place of healing would be uplifting and inspiring to our community and show we care. Originally, we were looking for a location to build a bridge, but we found that our community already seemed to have bridges where they were needed. The idea occurred to us that an existing bridge could be used. As we continued to explore our area’s parks and public spaces, the idea grew and flourished. We saw many beautiful and suitable bridges that could be “adopted” and designated for this purpose. Our Bronze Project Team would like help with choosing a location, a bridge with railings or where railings could be installed. Our plan is to do any needed repairs, sand and prime the bridge, and paint it as a rainbow. We have listed a few possibilities on the handout provided which include bridge structures at Betsy Donnelly Caughlin Park, Manzanita Park, Chrissie Caughlin Park, and others, but we are open to all suggestions.

KAIA: Besides painting the bridge, our team has other ideas which include the installation of a special sign with The Rainbow Bridge poem and dedication of the bridge to commemorate all our beloved pets, past, present, and future. It is possible that, depending on the location chosen, we could add a bench where our citizens could sit to enjoy the memories they made with their pets and the many ways their pets enriched their lives. We would also like to publish a pamphlet with helpful links - or at least a QR code - to allow people easy access to some of the comforting books and other resources we have found. A weatherproof brochure holder could easily be posted to keep these materials available.

JORDAN: Our final idea is the hope that it will be approved to allow people to leave their pet's collar on the bridge railing. Besides commemorating their deceased pet, this would demonstrate to other visitors that they are not alone in their grief. Our team is committed to checking on the bridge regularly to ensure everything is tidy and secure and it does not become an eyesore or a source of litter. We have been considering many Troop fundraising ideas to cover the cost of our supplies and any additional costs, for example, a "Rainbow Lemonade & Snack Stand" at our school on Fridays.

KAMRYN: The Rainbow Bridge project is very important to us. Pet Grief is a problem we are passionate about. We strongly feel that providing a place where our community's individuals and families can honor their pets' lives will benefit us all. We envision this space will be quiet, calm, and comforting, and everyone is welcome. We have shown how difficult it is to cope with pet loss and hope that you can see how helpful it would be to have a

special place to go to be with your thoughts, emotions, and memories or to talk and share experiences with other people. We want you to understand how meaningful this project is to our troop and, with your approval and assistance, to our whole community. If you care about animals or have pets who are near and dear to you, please consider our proposal as a step in a wonderful, healing direction.

Thank you so much for your time this morning. Please let us know if you have any questions.

Parking Truck	NO	Code Violation

Current 597 sq. ft. house built in the 1930s on a 6,000 sq. ft. lot

Proposed Additional Unit 962 sq. ft. Combined structures would total 26% of 6,000 lot size.

This house on Marsh Ave. is just a few doors south of the J. Clarence Kind House which is on the U.S. National Register of Historic Places in the Newlands area. A reminder that architecture changes and evolves over time. ADUs should not be held to vague higher architectural standard than the rest of Reno..

J. Clarence Kind House

The **J. Clarence Kind House**, at 751 Marsh Ave. in Reno, Nevada, United States, is an historic Tudor Revival-style house that was built in 1934. Also known as the **William Forman Home**, it was listed on the National Register of Historic Places (NRHP) in 2005.^[1]

It is a large, 3,700-square-foot (340 m²) house. According to its NRHP nomination, it was deemed significant "for its role in Reno's community planning and development history" and "as an excellent local example of the Tudor/Cotswold Cottage style of architecture, within the broader category of Period Revival, and as representing the work of two local master architects, Russell Mills and Edward Parsons."^[2]

J. Clarence Kind House

U.S. National Register of Historic Places

A good example of changing architecture coexisting with older styles. I had the opportunity to tour the container homes and they were extremely nice and well built. Setbacks, heights, safety, building codes should be the main concerns. Not lot size, design features and personal taste in crafting the ADU ordinance.

This is a 6,704 lot with a 1,200 sq. ft. house. The house is only 18% of the lot. This is typical of many older areas of Reno.

6,534 Square Feet Lot 4,068 sq. ft. house built in 2022 The structure covers 62% of the lot.
