Bid Alternate Route Mowing – Exhibit 3:

This addendum is to correct the pricing of the Bid Alternate route mowing for the City of Reno proposal that was submitted by Reno Green for the 2024 mowing season. The acreage used was incorrect as we included all areas for the Bid Alternate Route instead of just the athletic fields. This addendum is to correct the original price of \$147,783.00 for the season. The new total for the season to mow just the athletic fields as noted on the Bid Alternate Route per Exhibit 3 will be \$93,648.00. Please let me know if further clarification is needed.
