Bird scooters should not be allowed in Reno. They are extremely faulty and they don't work half the time. Reno should invite another company that would provide a more stable platform.

Bird has provided me with the ability to make a living in Which I have been able to support 4 people. I talk to people all the time that tell me they love bird because it makes getting around so much easier having them available all the time. Students use them to get from the parking area to. Class and then back. It helps to cut down on fuel.costs plus they are fun to ride. So please vote to keep Bird alive in Reno so I may keep my job and the public can keep on getting to and from there destinations. Thank you.
