RE: Scope of Work for 2023 Watershed Assessments

Dear Mrs. Jones,

NCE appreciates the opportunity to provide this scope of work to conduct the 2023 Watershed Assessments. This scope focuses on reaches in Alum Creek, Somerset Creek, Galena Creek, Thomas Creek, and Whites Creek.

Scope of Work

Task 1 Conduct Watershed Assessments

NCE will conduct an assessment on the following creek reaches:

- Alum Creek
 - Lower Reach (S McCarren Blvd to Truckee River, ~3,000 Linear Feet)
 - Middle Reach (Caughlin Pkwy to S McCarren Blvd, ~9,500 Linear Feet)
- Somerset Creek
 - Middle Reach (Del Webb Pkwy to Mogul Mountain, ~7,700 Linear Feet)
- Galena Creek
 - Middle Reach (Callahan Ranch Rd to I-580, ~11,900 Linear Feet)
 - Upper Reach (Mt. Rose Hwy to Callahan Ranch Rd, ~12,900 Linear Feet)
- Thomas Creek
 - Lower Reach (Ventana Pkwy to South Virginia, ~9,800 Linear Feet)
 - Middle Reach (Timberline Dr to Ventana Pkwy, ~20,300 Linear Feet)

NCE will use the existing pre-determined reaches that were used in the 2015-2017 field assessments for the 2023 field assessments.

The drainages will be assessed using the Proper Functioning Condition according to methodology presented in the U.S. Department of the Interior Bureau of Land Management document titled *Riparian Area Management, A User Guide to Assessing Proper Functioning Condition and the Supporting Science for Lotic Areas* (BLM, 1998). In addition, representative

photographs will be taken, and observation points will be recorded with a GPS unit. The data collected will include problem areas such as noxious weeds and drainage erosion and/or deposition locations. The noxious weeds will be identified, the coverage will be estimated, and the extent will be mapped.

Task 2 Watershed Assessments Report

Using the data collected in **Task 1**, NCE will prepare a 2023 watershed assessment report. The report will include a description of the drainage and the reach surveyed using the existing descriptions from the 2017 watershed assessment report. The report will also include a summary of the field data collected, specific problem areas identified in the field, recommendations, photographs, and a set of maps. The maps will include an overview map, and a map of the surveyed reach with the observation points, the location of noxious weed colonies, and the GPS points of erosion and/or degradation.

A GIS geodatabase will be created and provided to the City of Reno. The GIS database will include photo points, field observation points, points of erosion and/or deposition, extents of invasive/noxious weeds, and the PFC ratings.

The draft 2023 watershed assessment report will be provided to the City of Reno for review and comment. The City of Reno will solicit comments from the City of Sparks, and Washoe County, and provide a summary of comments to NCE.

Task 3 Conduct Additional Watershed Assessments and Reporting

NCE will conduct an assessment on the following additional creek reaches:

- Whites Creek
 - Upper Reach (Mountain Ranch Road to Whites Creek Park, ~8,400 Linear Feet)
 - Middle Reach - North (White Creek Park to S Virginia St, ~12,800 Linear Feet)

NCE will use the approach and assumptions outlined in **Task 1** to complete the additional assessment of the creek reaches listed above. Data collected from the additional creek reaches will be incorporated into **Task 2** Watershed Assessments Report. **Task 3** will be conducted in addition to **Task 1** and **2**. Task 3 will be paid for through a different funding source than Tasks 1 and 2; Task 3 funding source is SWPCC/NDOT.

Deliverables:

- Draft and Final 2023 Watershed Assessment Report (electronic copy: Word and PDF; GIS data with Final submittal)

Assumptions:

- Field work will be completed by two NCE scientists within five 10-hour days for all of the reaches
- If required, access to private property will be secured by the City

ESTIMATED FEE

NCE proposes the above-described scope of work on a time and materials basis in accordance with our attached Schedule of Charges 2023. NCE proposes to perform the scope of work for Tasks 1 and 2, as described above not to exceed the amount of **\$65,000**. Task 3 will be completed in addition Task 1 and 2 as described above not to exceed the amount of **\$13,500**. Completion of all tasks (1 – 3) will not exceed the amount of **\$78,500**.

We appreciate the opportunity to provide these services to the City of Reno and look forward to working with you and your team on this project. If you have any questions or additional needs, please call our office at (775) 329-4955.

Sincerely,

NCE
