Hello, Reno city council. I would just like to leave this message for you and say I'm confused at why you are putting bird scooters near high schools or schools. I'm wondering if it's because you're trying to. Attempt kids to break the law. It sounds. or it looks like, That's what's happening. Like you guys are drug dealers and you're putting your drugs around kids. Um no 1 under 18 is allowed to ride those bird scooters. They should not be within a certain amount of Seats of a school building since. Anyone under 18. is not a student there, so I'm just confused at why I keep seeing bird scooters all around schools. and the only conclusion, I can come to is that the City of Reno Is dead set on tempting kids to break the law. Maybe it's to. So you can get some more money for fines or I don't know what you're doing, but it's disgusting and you should be ashamed of yourselves for treating children this way. Over this capitalistic business deal, you have because you're so hard up for money that You have a dumb business deal with a business called bird scooter. I can't even believe it. The officials I've ever seen operate in the history of my life so great job for being the worst. But I guess that's okay. Because Nevada is the worst at a lot, huh? You're just trying to stay in style, I guess. I hope you play this at the public comment section so that everybody knows that you're tempting children to to break the law and ride bird scooters. Now you can all resign to so that we can bring people in that actually care about kids and the progress of this city and not nicking and dying. It All right. Well, good luck with your Nicks and your dime City Council of Reno.

I witnessed a city Parks & Rec employee removing a campaign sign from the wide, full-of-weeds, median on Robb Dr. She told me to put the signs in my yard and I replied that I don't have a yard because I live at Manzanita Apartments. She told me to put the signs at Manzanita and I told her that Manzanita doesn't allow campaign signs. She replied, "Well, don't bother me about it!" I've called the city to find out where they allow campaign signs and they don't answer and don't return my calls after I leave a polite message. This is the tenth sign that has been removed. The city should return the signs to the Washoe GOP immediately and inform us where they allow our signs. Some of the signs have been thrown in the bushes and the metal racks destroyed. I found another one in the trash at the park. This behavior from city employees doesn't impress the people who pay their salaries with their tax money. Furthermore, I believe it is election interference when an apartment complex owner seems to collude with the City to prevent renters from campaigning in an election. Manzanita Gate Apartments don't allow signs on their property, even though they have many rock-filled areas where a sign couldn't possibly interfere with vegetation, and the City of Reno doesn't allow signs on the street

adjacent to Manzanita apartments. On top of that, the City won't inform us where it is legal to place signs. Some might say this is either fascism or incompetence on the part of the City of Reno.

Hi! I was unable to attend the City council meeting but would like to throw my input into the ring

My daughter Just started playing soccer this year (at 5yo.) and LOVES it! I am also participating as assistant coach

I want to support the new swim facility and flat fields -- kids need a place to be active, let's get them moving on some beautiful fields-- with all the new home & apartment building, Reno needs to make sure there is the balance to support Sports-

I can be reached at 954.684.2308 if anything else is needed

General Opening Session Comment (unassociated to an agenda item)

Item:

A.3.

Position:

No position stated - Concerned or Neutral

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

Hello Mayor Schieve and Reno City council. My name is Samantha Strasser, I'm a Reno resident living in Ward 4 in golden valley. I'm coming to you today with a concern about traffic in the north valleys. In the last week US 395 southbound has been shut down twice due to accidents near Golden valley. When this happens an incredible surge of traffic hits our side streets in the valleys, and I'm extremely concerned about this. Heavy traffic poses an increased safety risk for our kids going to and from school, especially kids that walk and wait for buses (of which we have a large number here in the valleys). First responders attempting to get to emergencies anywhere in the valleys not related to the accident are snarled in traffic. And with the recent Davis Fire, the speed and ferocity with which it spread initially, I can't help but feel that we are completely screwed if, really when, a fire like that were to break out up here. This isn't just because of construction pains, 395 has been shut down many times before, and it seems to be increasing in frequency due to weather and accidents. And widening the highway will only serve to make this problem worse. The Induced Demand effect means that more lanes encourages more cars, so a wider highway being shut down means even more traffic will divert

to side streets. The infrastructure in the north valleys has not kept pace with the rate of housing being built up here, so residents are increasingly forced to drive into the city proper for access to various services and employment. And our routes to do so are being choked off more and more frequently. Better non-highway through routes are critical for accessibility in the north valleys not only in the coming years and decades, but also right now. Construction may be temporary, although when projects have multiple phases and go on for years at a time, it certainly isn't temporary for the hundreds of thousands of people who live with it daily during those years. Climate change means our winters will get harder and we've already seen an expansion in fire season, with some of my neighbors this year reporting that they've been dropped from their home insurance policies due to wildfire risk. This problem isn't going away and some serious planning for the future needs to be happening now. I'll confess I don't know if this is the "proper" channel for this concern, but as a city resident I thought city council seemed an appropriate place to start. Within the first year of living in this city it already began to feel like home to me. Now 6 years in, my family and I have really put down roots and it's hard to imagine living anywhere else. I want to have faith that my elected leaders love this city as much as I do, and upon learning that one region is being impacted in this way that they would know where to direct that concern.

Re: Virginia Lake - I am again deeply disappointed - not using my suggestion to keep Virginia Lake healthy (if true)

Andy Flagg <andrewflagg@yahoo.com>

Tue 9/17/2024 5:32 PM

To:Public Comment - CC <PublicComment@reno.gov>

You are most welcome. Please add to my public comment the following if you can.

"Its all about circulation, heavy and consistent circulation. I do hope someone or group of leaders and staff look at Virginia Lake and find a long term viable solution. In the old days, we would drain it and dredge it, and of course, find a way to get rid of the bad carp and massive amounts of bird poop from stagnating the lake, and prevent warm water algae blooms."

Take care.
Andy

Subject: Virginia Lake - I am again deeply disappointed - not using my suggestion to keep Virginia Lake healthy (if true)

Good morning,

We received this email over the weekend through ServiceNow and believe it is best suited for Public Comment. Can we log this, please?

On Saturday 14, September 10:48:45 AM PDT, 'Andy Flagg <andrewflagg@yahoo.com>' wrote:

Dear City of Reno,

Regarding Virginia Lake - let me re-iterate - if the City of Reno Parks Department cannot keep Virginia Lake healthy and clean, and with the help of Keep Truckee Meadows Beautiful (KTMB), then I say outsource the Parks Department care and support regarding this lake's health to a contract and contractor. Let Washoe-Storey Conservation District look into it. I was on the board there for a few years and we did great things.

The history of Virginia Lake is long - I am again deeply disappointed with the parks department not using my suggestion to keep Virginia Lake healthy; keep the water flowing steadily from the Truckee to the Lake all year long - period. It's not that hard. I am a farmer from Oregon. The irrigation ditch like the Orr Ditch needs to be dried out for cleaning, yet flowing to keep things healthy and alive too.

In review about Downtown Streets - I gave RenoDirect feedback about the downtown streets being dirty and smelling like urine a few years back because I walked those areas daily, and you did something about it because I asked your leadership to get your employees to do the work or we outsource the task and get rid of the city employees related to not doing the work. Thank you. The downtown streets for the past few years have been really nice. I would love to volunteer and help keep the sidewalks from Liberty to 6th street always clean; on a monthly basis - a deep clean and audit by city council might help bring the downtown back to good graces.

Thank you,
Andy Flagg

Planning Commission Meeting Date	2024-09-11
Agenda Item or Case Number	Reno Council
Position	In Favor
Comments	I was wondering why we do not have walls around the city/houses/communities to protect them from fires and possibly floods? You can use fire resistance material and you can do research on the wind which causes the fire to spread? Like having holes in the material? You can see thru the material but the fire won't come thru but the wind will, also you can measure how far the fire will reach thru the holes to know how big the holes should be and know how far to build the restructure. This can also be used for houses on hills surrounded by trees. Also if you want, you can put cement on the bottom for floods. You can also get the funding for it from FEMA

Hello, my concerns regarding traffic have been accumulating over the past years, however, 9/16/24 AM was marked by a fatal accident which caused profound traffic congestion; not only in north valleys area. I am a teacher and a mom of two children. There were no options to exit north valleys and it took 2 hours to get out of Stead area and drop kids off at school. The weather was not a concern. Yet. If this has not been brought yet to your attention, I believe this matter to be of high importance, negatively affecting driver safety and worsening etiquette/habits, infrastructure and overall social-emotional health. There has to be a proactive plan or methods discussed to successfully resolve commute issues related to this matter. I appreciate your time and efforts to help our community. Thank you in advance, Irena Poskute-Rodriguez

Subject: Noise Ordinance

I would like to make my comment on the stated subject line. I live in Arlington Towers on Arlington Ave near the River. The bar below our building, I believe is called "the Arlington Bar" has constant revving of motorcycle(s) during business hours and then when leaving the establishment. I'm not sure if it is the owner or a worker there but when the weather is nice, their bikes are parked in front of the location. It's a nuisance and rather annoying, especially since I have to get up in the early morning to work.

On another note, I do appreciate how you have removed many of the vagrants that were in this area. I lived here a few years ago and within that time, have seen a lot of good things and fun events in our downtown locations. Hopefully we will continue to bring in more businesses.

Thank you for all of your time and energy you've put into making this a great place to live!!

Hi Folks, I am extremely upset and angry about the new membership schedule and prices. I am a senior. I am not rich; nor will i pay \$600/yr just to use the pool twice/week at Evelyn Mount, which I do all winter! You have just ruined a lot of Senior's lives-literally. Many of us only swim or do aquacise. You don't even offer an option for pool only. We don't care about the weight room, many have a gym already. Please LISTEN TO US and offer a pool only, Senior pricing. No, your 20% discount off of \$600 does me no good. I am not speaking only for myself, and I will get a petition from Evelyn Mount alone to show you how many Seniors this affects. thank you

This comment is about election interference by city employees. I just watched as a city parks and wreck employee removed, a campaign sign from the wide Median on Robb Drive. It's full of weeds. I followed her into the park nearby and she sat there and waited and watched for people who let their dogs off leash in the park, so she could give them tickets. And she's given tickets to several people who I know including an 85 year old woman with a 13 year old dog that can hardly walk. This is early in the morning when the park is empty, and these people always pick up their pet waste and they're not bothering anybody. Meanwhile, the park has weeds everywhere that she just ignores. So apparently her job is just to harass the residents I called the city to find out where they allow campaign signs and they don't answer and they don't return, my calls, the Parks and Rec Department, doesn't they don't return my calls. After I leave a polite message, this is the 10th sign that has been removed. The city needs to return these signs to the Marshall County GOP and and tell us where the signs are allowed. I found some of the signs thrown in the bushes and the wire frames were badly. Mangled, I found 1 sign in the trash that belonged to Sam Brown. Who's an Afghan war veteran, who was burned badly and is now running for Senate in Nevada, this behavior from city employees, doesn't Press. All of us voters who pay their salaries. Thank you.

Yes, I live at 2350 Paradise Park and the Volunteers of America. 8, Storey building, I call Reno direct just about every day to complain about the homeless people. On a tree long. I'm right across from tegler Park. Also, in the park and are on the sidewalk, they are all over. I'm tired of calling. I'm sick and tired of it. I'm not a bleeding heart. I'm sick and tired of seeing these people and I have seen them poop and pee right on the lawn. So I would really like to council to consider doing something about it. I don't care what it is. As long as these people can no longer be here, we're all tired of it and it's not fair to the seniors who live here, who have worked all their lives and try to establish a good home life. And then they have Just to put up with, I won't even walk in the park anymore.

Hello, city council. I wanted to call and leave you a little message about these bird scooters because, you know, there's class action lawsuits happening in other cities because these bird scooters are blocking sidewalks and uh, blocking handicap ramps. So I would just like you to know, who, who are protected in town by the Americans with That. Their rights are being violated. By these East scooter companies like the 1 in Reno called bird. Um, because the city and the company bird has neglected to keep the city sidewalks clear of these scooters. and I would like to make that people who are visually impaired or in wheelchairs or Walkers or have other circumstances where they can't get danger and could be injured and probably have been injured by these scooters. I can say, I have been injured by these scooters trying to move them off of sidewalks. I only have a left hand. Those scooters aren't very easy to move, they're bulky and heavy and the wheel. They're not on or something, but they're not really easy to move. Just wanted to I was wondering is the city council. Are you guys trying to set yourselves up for it? Because we've been reporting to. How these scooters are blocking. Every day and I don't know if you know this but you're not allowed to violate the rights of the people who are disabled for 1 second, let alone for 24 hours while you block sidewalks all day. Um, so maybe if you didn't know that now you do and you can fix your behavior wonderful. So um, yeah what are we going to do? My people, are we going to start to regulate these scooters? So they don't block sidewalks and block handicap ramps or is the City of Reno going to continue making money off of this crime because you make money off of the bird scooters. Thanks for your time, goodbye.

Hi. I'm calling about basically all of North valley's and the traffic and the building and it's getting a little out of control and we need something, done about it either. No more building or something like this is getting totally out of control. It's impacting everyone getting the work. Getting their kids to school. It's it's ridiculous. Thank you. Have a good day.

Hello Reno direct. I am calling today. because, I wanted to let you all know. About an amazing. Class action, lawsuit. That's happening against escooter companies. In other states and it will be coming to the state of Nevada, very soon if I have any say in it. The plaintiff in these lawsuits. Are working with nonprofit groups who fight for the rights of people with disabilities. And they are claiming its members rights. Are we're protected by the Americans with Disability Act and our rights have been violated by these scooter. Companies neglecting to keep the city's sidewalks. Clear of dockless rental scooters and off of handicap ramps. Those that are visually impaired or use, Wheelchairs, and Walkers are at a greater risk of harm and injury by these scooters than others due to their disabilities. They're asking for the courts to come up with a solution that will work for everyone in light of their Ada protected rights. You see the City of Reno acts like they can

pretend they're doing something about it or say they have someone who's doing it or moving scooters when they are blocking. But here's the thing you can't. You can't block a sidewalk for 1 second. And if someone with, uh, who's blind or in a walker or a wheelchair, were to be trying to get up a handicap ramp that is blocked by a scooter. And they're injured. You are 100% liable and to make matters, worse City of Reno. You are making a profit off of these bird scooters, so you are now complicit in the injury. You have injured that citizen due to your direct neglect, and lack of action because you wanted to make some money. That's disgusting. Um, but it doesn't surprise me since we are, unfortunately. Having a disgusting human being be our mayor right now and the disgusting human being being our vice mayor right now. And um, I hope that they can get all the money that they're after and they can just go far away from us as soon as they can get it all because we don't need that type of behavior here. and, What I have seen in the last 2 years of trying to deal with this scooter problem and Reporting the problem to the City of Reno to you and R to the state of Nevada and to the doj is that you all are building a case against yourselves through your neglect. So class action law. And we're looking into it. I hope you guys can get off your lazy butts and start to protect people in the city, the elderly, and people with disabilities and stop nicking and dying dumb, little business deals like bird scooters. There's much greater ways to make money out there. You don't need to Nick and dime things like that. Think, bigger, think better. Um, bird scooters are also not helping our city because they can only a certain population rides them. That population of people are of a certain age and a certain echo echo. Um, status those bird scooters are expensive and you have to be a certain age to ride them, not that you guys make sure that that is followed because we see children riding them around town all the time and you allow them to be parked near schools where underage kids are coming out so you can entice them to break the law and injure themselves. It's pretty disgusting. You guys discussed me. Please stop being so disgusting. We don't like being around you when you're that disgusting. We want to see ethical Behavior. so, Start caring about people's right? Especially the disability Community. I know that's a long shot for you, neaten, since you do the least in the nation. But maybe you could change that. Hey, maybe you could be the leaders. Who pays the way to a brighter future and do more and invest more. And well, it seems like uh your tape machine is out of tape. Maybe you guys need to invest in a digital recorder that can record infinitely Maybe that's too techy for you. Give me a call any time 77753546867. My name's Lucas. I am a disability advocate in Reno.

My name is Maria and I live in the North Valleys. Um, I live off of Stead Boulevard. I'm calling to comment on the housing and the infrastructure of the North Valleys area as everybody is, well aware. Um, the City of Reno continues to Annex for more housing out here. However, we have limited space in and out of the North Valleys, for example, today, I on my way into work, which I work downtown and I take old 395 all the way down to the downtown area. It should take about 15 to 20 minutes. I was in traffic for 3 hours. Just this morning in turn my daughter. Who lives, less than 5 miles away from her High School North Valleys was in traffic for the same amount of time trying to get to school because there was an accident on 395. The problem is that there's no other way. Around it. The only way to get into town is to try to wait the highway or old 395. There is no alternative route that cars can be taken while there's construction or if there's an accident or in the weather conditions, I speak for a lot of people. Not just myself, who've lived out here for some time and can tell you that the City of Reno needs to pay attention to what's going on in the North Valleys. God forbid, the whole entire North Valleys has to evacuate at 1 point. We would all be stuck in traffic. There is not enough ways in and out of the North Valleys and when the City of Reno continues to Annex for homes out here, being built in apartment complexes that are just adding more population to the area without looking at any infrastructure or taking any note of the commute times that we have. From here to our jobs, it's getting completely ridiculous. I think the City of Reno needs to think about either a not putting any more homes out here and not letting any more Builders build in this area. In turn and with also preparing and making sure that there is an alternative route. Not just the highway and not just old 395 in. And out of the North, Valleys not just around Sun Valley because if you come from said and you try to go to Sun Valley, that's the place that's all clogged up. Silver Lake Boulevard instead Boulevard the old 395 395 itself. Um, all of these areas are clogged up, and we cannot get through and we're in gridlocks bumper, to bumper traffic for hours, on end, trying to make it into work. Um, and when the winter time comes, it's even more horrendous top time. During the time I've been on the road trying to get to work. And I've left early, And I want to drive safe is 4 and a half, almost 5 there just needs to be alternative routes in and out of the North Valley's area. There does not need to continue to be more housing built without infrastructure in mind.
