I am writing to support Agenda item B9. This is a good investment in the ancillary services needed to fully develop planned geothermal use at the Moana Aquatic Center. Renewable energies are vital to keep pollution down from fossil fuel (gas) power plants.

Keep up the good work, Reno City Council!

| <b>Your Comment (if you are speaking, it is not necessary to complete this field)</b>   | I support agenda item B9: Acceptance of a subaward from The Envirolution, Inc. (Envirolution) for a geothermal education program at the Moana Springs Community Aquatics & Fitness Center in the amount of \$5,000. I am concerned about climate change and the ever-increasing number of climate disasters. The more education about alternative energies and sustainability, the sooner man/womankind will divorce him/herselves from dirty fossill fuels that cause climate change. With education of our young people, we can leave the earth in better hands than those of their parents' and grandparents'. |
