

**THIRTEENTH AMENDMENT
To
INTERLOCAL AGREEMENT**

THE INTERLOCAL AGREEMENT (the “Agreement”), dated July 1, 2011, entered into between the Western Regional Water Commission, a political subdivision of the State of Nevada (the “Commission”), and the City of Reno (“Reno”), collectively the “Parties”, is hereby amended as follows:

ARTICLE 2 - RECITALS

Sub-paragraph 2.16 is amended as follows:

The Commission, at a meeting held March 20, 2024, approved additional funding in an amount not to exceed \$262,500 from the Regional Water Management Fund (“RWMF”) to fund continuing additional work on the Project for the 2024/2025 fiscal year. The continuing work will be performed pursuant to and consistent with the Scope of Work attached hereto as Exhibit “A (13)”.

ARTICLE 3 – RIGHTS & DUTIES

Sub-paragraph 3.1.1 is hereby amended to provide as follows:

Work on the Project will progress and be completed by June 30, 2025.

Sub-paragraph 3.2.5 is hereby amended to provide as follows:

The total amount of invoices paid pursuant to this Agreement for the 2024/2025 fiscal year shall not exceed the sum of \$262,500 from the RWMF.

The Agreement as amended to include the revisions set forth above is incorporated herein by reference, and all other terms and conditions of the Agreement shall remain in full force and effect.

This Amendment is effective July 1, 2024, regardless of the respective dates of execution by the Parties (“Effective Date”).

Scope of Work

WESTERN REGIONAL WATER COMMISSION SUPPORTING TRUCKEE MEADOWS STORMWATER QUALITY MANAGEMENT 2024-25

1. Stormwater Quality

\$204,500

The SWPCC continues to implement the stormwater quality monitoring program to meet current requirements of the NPDES Stormwater MS4 permit issued May 29, 2010. The committee implements the 2021 Sampling and Analysis Plan (Balance Hydrologics). Item 1A includes a contract with a consultant for implementation of stormwater sampling during storm events for Fiscal Year 2024-25 (FY24/25), ambient monitoring activities and the Fiscal Year 2023-24 (FY23/24) Stormwater Monitoring Annual Report. Hiring consultants to assist with various activities that may occur throughout the fiscal year is included in this task along with the continued maintenance of a stream gage on the North Truckee Drain at Big Fish Drive. Task totals identified below include anticipated cost sharing with the Nevada Department of Transportation (NDOT), whereby the NDOT pays 25% of the contract for activities of which NDOT contributes and benefits from.

1A. Water Quality Monitoring:

Consulting technical services for Stormwater Quality Monitoring. Services include storm event sampling and automation at tributary sites and outfalls to the Truckee River and writing the FY23/24 Truckee Meadows Stormwater Monitoring Annual Report. Water quality sampling for FY24/25 will begin in FY24/25 and tasks will span the fiscal year.

Item 1.A: \$165,000

1B. Miscellaneous Stormwater Quality Management Consultant Services:

This item covers the various tasks that may be required throughout the fiscal year, providing a mechanism to hire a consultant to support items such as review of a new permit and comparison to existing Stormwater Management Program (SWMP), loading model evaluations, facilitation of watershed management activities and collaboration, including but not limited to Watershed Assessments of Tributaries to the Truckee River.

Item 1.B: \$25,000

1C. North Truckee Drain Stream Gage Maintenance:

The SWPCC renewed a Joint Funding Agreement with the United States Geological Survey (USGS) for stream gage maintenance and service on the North Truckee Drain (NTD) near Big Fish Drive. Three locations along the NTD are monitored annually as part of the stormwater monitoring effort.

Item 1.C: \$10,500

1D. Field supplies/equipment/miscellaneous monitoring:

The SWPCC has aging field equipment that requires periodic repair and replacement. Additionally, as new sampling locations are added, additional monitoring equipment is required. This task is a placeholder for new equipment and unanticipated replacement needs for the monitoring program. This item also includes staff time for miscellaneous sampling, and analytical fees.

Item 1.D: \$4,000

2. Public Outreach and Technical Guidance	\$3,000
--	----------------

The SWPCC continues to implement its public outreach and education requirements related to the Truckee Meadows MS4 permit. Activities include outreach to community groups such as the Truckee Meadows Park Foundation, Keep Truckee Meadows Beautiful and One Truckee River, providing education and training to municipal operations and construction inspection staff, SWPPP training to contractors, HOAs, and providing educational materials and other aspects of the Stormwater Program Communications Plan.

3. Interlocal Coordination and Permitting Support	\$55,000
--	-----------------

The City of Reno will continue to provide coordination and administrative services, managing various consultant contracts to implement the program for the three partner agencies.

Total for WRWC Interlocal Agreement *	\$262,500
--	------------------

* Proposed funding amounts allocated to various tasks are estimates. The City of Reno reserves the right to move funds between tasks as necessary to accomplish the goals outlined in this scope of work.
