If no, enter comments below:

Hello Reno City Councilmembers, I am writing today to express gratitude from The Holland Project to the City of Reno and City of Reno Arts & Culture Commission for supporting some very special youth-focused and youth-led programs in 2024 including our after-school program, Work in Progress, and bi-annual under 21 artist exhibitions, Young Blood. Funding and partnership from the City of Reno have not only made these projects possible but even more successful and far-reaching. Work in Progress (or WIP) is an afterschool arts program for teens with an interest in becoming artists and/or cultural workers. Weekly workshops that begin every October and run through February explore new skills with local and national professional artists in addition to discussions with experts in the fields of

galleries, museums, and the humanities. City of Reno grant funding helps support 20-25 students to attend the program free of charge. Every February, the participants curate an exhibition of their work as their culminating project and celebration for completing WIP. We invite you to the upcoming WIP exhibition on view in the HP Gallery from February 19 - March 1, 2025. The artist reception will be held on Saturday, February 22 from 12-3pm. Please join us if you can! Beyond WIP, participants can take part in leading two Young Blood exhibitions which showcase the work of local artists under 21. Young Blood is a longtime tradition at Holland, and it exhibits the art of hundreds of young, talented artists every year. Receptions are well attended with 200-300 people and include hands-on activities by Holland and our community partners including Washoe County Library, G.I.R.L.S. Rock Reno, Washoe County 4-H, UNR Gender, Race, and Identity Department, Laika Press, and KWNK Community Radio, among others. It's super fun opportunity for artists to show their work for the first time. Our next one is May 10th and the party will be "Horse Girl" themed. Get ready! We've included some links below to photo albums for the events and programs. We hope you can check these out and see the product of our efforts. Thank you for your time and please continue to support creative, grass-roots-driven arts and culture in our community. It's these types of efforts that make our city healthier, happier, and more inclusive. Please reach out with any questions to me directly at alana@hollandreno.org.

Support Moratorium on Data Centers

From Annie Evans <amevans1992@gmail.com>

Date Wed 2/5/2025 5:58 PM

To Public Comment - CC <PublicComment@reno.gov>

Good afternoon,

My name is Anne Evans, Ward 6 Constituent (89521).

I am writing in support of a moratorium on data centers in Reno until more information is available to the public and the city council.

Data centers in town don't bring in many good-paying jobs for Nevadans--but they do use up a ton of our electric grid and water. In a hot, dry climate like Reno, the city's embrace of more data centers means more, bigger, extreme fires--and the firefighters will have less water to fight those fires. After how hard they have worked this year, and how many of us packed evacuation bags and feared for our homes, breathing in the smoke, now is not the time to tell firefighters and first responders you're about to make their job harder because you didn't think through the consequences of data centers.

Please take the time to thoroughly dig into the many harmful impacts any data center proposal will have on the home we love.

Thank you.

Anne Evans

If no, enter comments below:

On behalf of Nevada Humanities, Nevada's 501(c)(3) nonprofit state humanities council partner of the National Endowment for the Humanities, I would like to thank the City of Reno for supporting Nevada Humanities with an Arts & Culture Grant from the City of Reno Arts & Culture Commission in the amount of \$6,215.00 for a series of community events that featured screenings and discussions of the Nevada Humanities produced documentary film A Black Springs Homecoming: Finding History. A Black Springs Homecoming: Finding History tells the story of Black Springs—a small, largely African American neighborhood six miles north of downtown Reno—and the ability of its residents to establish an enduring sense of community in the face of widespread racial discrimination and

economic hardship. With this support, Nevada Humanities produced nine community events in Reno, NV, that included screenings of the film followed by a panel discussion which featured local historians and Black Springs residents talking about the community and their experiences. Sharing this important and little known local history with a broad audience would not have been possible without this support. We extend our gratitude for - and appreciation of - the important work of the City of Reno Arts & Culture Commission. Thank you. - Christina Barr, Executive Director, Nevada Humanities

If no, enter comments below:

This ordinance is a waste of taxpayers money and is not going to help the root of the issue, the housing crisis. A study conducted in Charlotte, NC found that the city saved \$2.4 million over the course of a year after implementing a Housing First program. Three months in jail cost the same a single year of supportive housing. There are clearly better, less expensive options available for the city council to put into effect.

https://www.youtube.com/watch?v=I_gUZ8DD91A The face of YOUR leadership in government... Shame on YOUR leadership. .

Position:

In opposition

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

Elected "leaders" of Reno government employee culture, The culture of ANY organization is set by leadership. That's YOU. Why did YOU create an environment where the chief of police, let alone any employee, would think that this behavior will be allowed? Why do YOU encourage such behavior? These cops, in YOUR government culture, thought that making up a new constitution is appropriate. Why does YOUR government culture make employees think this way? Why does Nance feel like her job is to embarrass Reno? Why don't you have contact information on the website? Failure after failure.... I saw YOUR employees representing the tyrannical culture of your administration on

YouTube today. https://www.youtube.com/watch?v=I_gUZ8DD91A I am not interested in being harrassed, intimidated, violently attacked and my rights violated by YOUR obviously incompetent employees. YOUR employees coverup for deeds that they don't even know about. They pre-emptively violate rights. YOU put YOUR employees on the street with guns and badges. What is wrong with YOUR city? I've added YOUR city to our unsafe to travel to or through list. I will not submit my family to the presence of armed thugs are that report to YOU. I usually encourage you change direction of YOUR administration's culture and very publicly clean house before the next election and before the average citizen takes notice too, but YOUR chief has already destroyed your reputation and legacy all on your own. Targeting citizens rather than actually investigating a specific crime is prohibited by the constitution in multiple ways, yet YOUR allow this to happen to YOUR citizens. Tyrant cop and everyone between he and you need to be dismissed now. Failure to do so obviously means that YOU support the abuse of YOUR constituents by YOUR employees under your support of civil rights violations. Any tourist will want to video what they see. Why does YOUR police chief hate YOUR citizens and tourist money? Eventually, each of you will leave your office, losing your special status and YOUR family will be at the mercy of the tyrannical government that YOU are creating. Didn't think that far forward? Traveling and spending money anywhere else, Tom

Planning Commission Public Comment

The public comment form has a new entry from the public.

Planning Commission Meeting Date	2025-01-28
Agenda Item or Case Number	F1. F2. And F6.
Position	In Opposition
Comments	<p>This is an absolute disgrace! Criminalized homelessness has no upside for anyone other than for-profit prison systems. We should be more concerned with helping marginalized communities and not hurting them further. There are ways to do this that are budget friendly; for instance, churches shouldn't receive tax exempt status without helping with this cause. The money that would be used to enact this abhorrent idea also could be reappropriated to house (tiny houses/studio apartments even) the homeless rather than jail them. Be on the right side of history. This isn't the way to end homelessness in Reno. This is just a way for you to not have to look at it.</p>

As someone who commuted from this area, I am currently retired and able to go out during business hours, my opinion is against building this development for a number of reasons. First and foremost, amount of traffic that is already using this area, depending on the direction and time you head out, it is 5 minutes or more added to commute, adding additional housing will make it more so. The reality, locals are using the back streets rather than the freeway and South McCarran is already full, needing better infrastructure this area is not meant to handle all the traffic. Racing a second issue, cars racing up and down South McCarran, at a very fast pace (in both directions) there have been numerous accidents, the development goes in and the odds of more accidents, injury and deaths rise as well.

Noise level is already high in this area, with the police department and fire department nearby, regular (more) more noise. Please reconsider, this is an older area of Reno, with history and cannot support this development, unless there is more infrastructure to support.

Yes

Overturn the Mater Academy Approval

From Leah Bussard <ldanielson1988@everyactioncustom.com>

Date Fri 2/7/2025 4:42 PM

To Public Comment - CC <PublicComment@reno.gov>

Dear Reno City Council,

Please overturn the approval of a new charter school facility in the North Valleys, as it will harm the operations of the Washoe County School District, compromise student and educator safety, and is out of alignment with the Reno Master Plan.

Trivest Land Company proposes building a campus to house a 1500-seat charter school next to WCSD's Alice Smith Elementary School. Approval of this charter facility in this location is poor planning and is especially concerning given the separate and unequal dynamics between charter schools and neighborhood public schools. Locating such a large charter facility directly next to an at-risk school like Alice Smith will have the effect of siphoning away students with the most engaged parents, leaving students with greater needs and fewer resources. Our neighborhood public schools are responsible for educating the vast majority of our kids, particularly the most vulnerable. Meanwhile, development of this large charter will disrupt WCSD's 2020-2039 Facilities Plan and the collective efforts of this community to faithfully implement WC-1, including new WCSD schools in North Valleys. All the WCSD schools in the North Valleys are operating under capacity and a large new charter in the area could force WCSD to close an elementary school.

Traffic in this area already is a serious problem. This project will only make matters worse and is out of line with the Safe Routes to Schools Program. Numerous comments from those in the area have pointed out problems during drop-off and pick-up already. This includes U-turns in the middle of the street, double parking, and driving through parking lots to avoid intersections. The addition of nearly 2000 vehicle trips per day will put the safety of educators, students, and their families at greater risk. Alternatives like bicycling should usually be encouraged, but promoting bicycling to school at this location while also increasing vehicle congestion will put even more student lives at risk.

The Reno Master Plan calls on the City to work with WCSD to support their education programs and collaborate with the district in planning for the design and location of new public schools. This is in direct contrast to the process Trivest Land Company and Mater Academy of Northern Nevada undertook for their new facility. Significant input from the community input was not solicited, and comments from WCSD were largely ignored. Following your own guidance in the master plan, we ask that you consider how this project will negatively impact both public safety and WCSD. Please overturn the approval of Trivest Land Company's proposal for a new school facility and ask the project sponsor to work with WCSD and the community on any future plans.

Thank you.

Sincerely,

2/10/25, 9:52 AM

I would like to petition the city to add speed bumps/ tables to 7th street on the main straight ways. Suggested location within the 25mph zone: one or two between intersection Beldon way west and Downey Ave west, then maybe another set after Downey Ave west and Ibis LN. Due to recent accidents and the amount of speeding tickets issued in these locations I believe physical speed barriers are needed.

I am absolutely appalled at the Reno City Council's inhumane vote to adopt ordinances F1 and 6. In voting thusly, Reno criminalized existing outdoors (no sitting, sleeping or lying in public spaces) and brought us back to Dickensian London. This act reminds me of this scene in Charles Dickens' A Christmas Carol: "Are there no prisons, no workhouses?...Those who are badly off must go there." "Many can't go there; and many would rather die." "If they would rather die," said Scrooge, "they had better do it, and decrease the surplus population." Furthermore, today (January 28, 2025), federal funding was cut for local organizations like Safe Embrace, that house and protect victims of domestic violence. Together with the City Council's vote on January 22nd, these acts effectively make it illegal to

leave your abusive partner. Is this what we're after? Is this who we want to be? I, for one, do not wish this to be the kind of place I live. Knowing that my unhoused and at-risk neighbors are criminalized for being unhoused and at-risk does not make me feel safer. The Reno City Council can do better than this. Sincerely, Martha Growdon Resident of Ward 2, Reno NV

Public Comment for Planning Commission Mtg 2/5

From Mattie Casey - Marks <mcmrider99@gmail.com>

Date Wed 2/5/2025 4:35 PM

To Public Comment - CC <PublicComment@reno.gov>

Hello,

I have registered for public comment via Zoom at the City of Reno Planning Commission meeting taking place tonight. I am hopeful I will be able to give my comment myself, but just in case I am unable to I am also sending it here as a backup. See below.

My name is Mattie Casey. I've lived in Reno for 20 years, and this is my first ever public comment. I am speaking today because recent local, national, and global events have made me realize that if I want to live somewhere that is respectful and kind to its people and the land they live on, I have no choice but to become more vocal; whether it be with my family and friends, in online spaces, or by making a comment in front of my local officials. So as my first public step into the foray of Reno's many pressing issues, I would like to voice my strong, unwavering support for Commissioner Beccera's proposal of a data center moratorium.

To proceed with the permitting and construction of data centers in Nevada without appropriately thorough consideration would pose great detriment to the land and the people that we so desperately need to protect. I want to be clear, I wholeheartedly recognize and respect the potential benefits of data centers. I might not love the idea of another big concrete building in the world, but I can still understand the appeal and necessity of bringing data centers to Nevada. I appreciate the potential of increased job opportunity and more fiscal assets/resources; I respect the goal of adapting to be a more tech-forward city in an increasingly technologically-focused world.

But I urge you to consider that as it stands, these advantages would come at great cost. Our land, which is not an "empty desert" but rather a stunning example of vibrant and resilient life, deserves consideration. Our demand for clean water and efficient energy—along with related allocation processes—would increase greatly, and that deserves consideration. Our peaceful communities that would be polluted by increased light, noise, and traffic, deserve consideration. Our city's backbone, the people who would live near these centers, build them, and work in them, deserve consideration.

I believe we can and will move forward with data center permitting and construction. My hope is that we ONLY do so when we have exhausted all avenues to ensure our people, plants, animals—the core pillars of these beautiful Nevadan communities we love and live in—are best protected from negative outcomes. I thank you for your time, thoughts, and energy.

Be well.

Sidewalks for the public

From Notifications SN <Notifications@reno.gov>

Date Mon 2/10/2025 8:10 AM

To Public Comment - CC <PublicComment@reno.gov>

Good morning,

We received this email at Reno Direct, which appears to be best suited for public comment. Please see below.

Thank you,

On Saturday 08, February 11:28:54 AM PST, 'esp1013872@gmail.com' wrote:

Good morning it is a fine Saturday here in Reno.

I'm gonna have to point out some things to you that are becoming a nuisance in the streets.

We understand that there's a lot of mentally disabled people in the downtown Reno, who live at motels.

Unfortunately, we're gonna have to read this massive amount of people who have mental issues in someday in the future, whether that be correct corrective measures or parenting.

The sheer amount of older people who have mental issues who seem to think they need service animals is staggering.

The animals they get aren't trained and from there it becomes a mess.

We have tons of owners of animals you don't know how to train their dogs because they don't know how to live themselves and the end result is this.

When I walked down the sidewalks downtown around the motels, there's such an extraordinary amount of dog poop everywhere. It's actually scary.

It's on the stamped sidewalks. It's on the side of the sidewalks. It's on the street. It's in the driveways. There is poop and urine everywhere.

How many days how many weeks how many months how many years have these people been doing this?

It's starting to take a toll.

These are the things that this country needs to fix right now in cities like this that are completely isolated from what's going on in the real world.

You cannot be letting these people run business businesses, and motels and apartment complexes who are absolutely the worst type of person ever.

If they are extremely overweight, sloppy, don't know how to speak over talk interrupt don't have an education or a past have some type of faulty issues. You cannot let them run these businesses.

If you can imagine the amount of animals in a small space here in downtown and then try and think about where they all go to the bathroom and then think about all the times they go to the bathroom then just think about what's gonna happen to the streets if this continues here after a year after year.

I'm going to the silver legacy right now to see what's going on with the Super Bowl.

Who knows what's going on with the car and these three casinos but somebody needs to tell them that the casinos are straight up trash.

There is no vibe there's no atmosphere you got some Rinky dinky recliners, looking at a big screen with popcorn and cigarette butts and shit everywhere.

No matter if their casino owners or not make them get their act together. I can't even film in these places because everywhere I look there's shit as much as you think. Your cities is beautiful. There are way too many issues here.

Juss sayin

none.

Position:

In Favor

Are they speaking in person?

No, I am submitting a written comment only.

If no, enter comments below:

I encourage the three governmental entities--city of Reno, City of Sparks, and Washoe County--to collaborate with each other and the Regional Planning Commission to establish policy on requirements for data center development, with considerations for safety, limited employment opportunities, climate/sustainability, and overall benefit to our region.

ACKNOWLEDGEMENTS:

With 80 percent of nevada being federal lands it is a good idea to push thru the red tape and streamline the a.d.u.aka extra tiny home in back yard of each lot in city county and state .

Please comprise create a packet easily available online and in person at the building department. Please refer to other cities best Adu practices, to accomplish this . California allows this Adu life . Due to limited housing.

The owners will benefit with rentable tiny home 🏠 in rear of each lot

Washoe county thou under 5 civil lawsuits will need the new tax revenue from Adu life . Professionalism training requested all govt agencies.

Please create this program as city and county both sadly employees created a new tax aka civil lawsuits 5 of which are active tax payer reliant in washoe county court . Avoid costly non disclosure civil payout agreements , in all govt agencies .

The govt agencies are advised requested to train all their employees on professional treatment of the public in all divisions to avoid all tax payer paid civil lawsuit judgments, avoidance, To retain efficient tax use .

Please feel free to publicly read my view on overdue a.d.u. life , and n.d.a civil lawsuits avoidances.

Thank you

Vince Alan vb, conservator
