Hi, this is Robin Palmer, uh good morning mayor council member staff and attendees. I am a climate Advocate. I had signed up for uh general public comment. I didn't have an unmute button on my screen. So I didn't quite know what to do. That's why you didn't hear from me. Nonetheless. Thank you for approval of the resolution last week regarding docket 24- 02026 Nevada energies proposed increase in the basic service charge that is currently before the pucn. Thank you for listening to my energy Coalition members and for drafting a resolution so quickly. I know that you had really limited time to do that. The revised resolution did not oppose the basic service charge increase as we had discussed in our meetings. It was a compromise that was understandably quite favorable to Nevada Energy and 1 that novada energy supported in their public comment. I hope the puc and considers your opinions. I do not respect the process that resulted in the revised resolution. It seemed from his public comment that the Nevada Energy representative Ryan Bellows knew that the resolution had been revised whereas the public and my friends did not and I did not whereas not all council members even knew prior to agenda item D6 being opened. So I I think that whole process is problematic.

Thank you for listening to my comments. I hope that these are aired um, At the end of your meeting, and when public comment is opened again. Thank you. Bye. Bye.
