June 21, 2024

There were no errors found with the 2024 Primary Election Results. Following up on our commitment, our office has been auditing our entire Election throughout this whole week leading up to the Canvass of the Vote. During this, my staff had found multiple ballots with a cured signature prior to June 17th that were not pulled to be counted. We then went and verified the nature of these ballots and checked their records to ensure it was challenged and cured correctly. These ballots entailed valid votes that must be counted. Because of this, my staff scanned in their votes to be uploaded later in the night.

It is worth stating that no results are final until the Board of County Commissioners canvasses the vote, and our staff has worked tirelessly to ensure our presentation to the Board is complete and accurate.

Sincerely,

A handwritten signature in blue ink that reads "Cari Ann Burgess".

Cari Ann Burgess
Interim Registrar of Voters
