Explain briefly why you would like to be appointed to this board or commission.

Motivated to see the City of Reno fulfill its potential. I would like to see Reno keep its smartest and brightest young adults here rather than seeing them move out of the area for quality jobs/careers. These folks often want to come back to Reno some 10 to 15 years later for our quality of life; let's develop an economic environment here that provides those career opportunities so that they do not have to leave us. All of the ingredients are here to make this objective a reality. We can become a center for innovation leading to start-up formation leading to more 100k plus jobs that will keep our children here. I have no personal financial gain to be had, I am retired with the time to devote to community involvement. My wife and I moved to Reno 10 years ago from the Bay Area, this is now home. Several of our children followed us here, and work for companies out of the area and telecommute. I would like to see them become more a part of this community by working here. Since moving here, my wife and I have worked to be active in community organizations. This started by me in working as a fund raiser for the Cares Campus, a small group of us were successful in raising just over \$1m from private donations. This led to my introduction to HOPES of Northern NV and an invitation to join their Board. I am currently the Board Sec. and worked to raise the \$38m to fund our new clinic on 4th street; I will join the Board of Trustees of the Museum of Art in January and am on the Advisory Board at the Business School at UNR. My wife is on the Board of Big Brothers and Sisters, the Montreux Club and Horsemanship for Heroes which is a start-up 501(c)(3) dedicated to therapeutic benefits for Vets and First Responders working with horses.

Relevant Education or Training

I began my career in public accounting and became a CPA. Many of my clients were in real estate which led to my interest in the industry. After leaving public accounting I became a small independent developer in the San Francisco East Bay area. I built several spec SFHs in the community of Piedmont and completed a 10 unit condo project in the City of Pleasant Hill, the project was in a redevelopment area. We benefited from a mortgage pool financing that effectively gave us below market mortgage rates; this was accomplished via a bond offering. Later I became a project manager for Southern Pacific Dev Co. and sub of the Southern Pacific Railroad. While there I worked on the master plan and development of former railroad operating properties in the cities of Livermore and Tracy. Both cities had a deteriorating historic downtown area now miles away from the freeways where new development was occurring. In Livermore we attracted Safeway as a major tenant in a neighborhood center development. Post these years in the real estate industry I got involved in the Silicon Valley Tech scene and developed the leading firm in executive search placing CFO's in start-ups preparing to go public. (my entry into technology was with the firm of Coopers and Lybrand/PwC in the San Jose region where I led a practice focused on executive search and organization development) Later I formed my own firm and during this part of my career I placed 21 CFO's who went on to take their company public via an IPO.
