Truckee River Vision Plan

Give us YOUR input and shape the Truckee River Vision Plan.

For the parks along the river, I'd like to see more bike racks. Some parks have many, some parks have one, some parks have none. For instance, the Oxbow Nature Study Area has a parking lot - disruptive for a "nature study" area - yet no bike racks, which could incentivize leaving the car at home.

As a resident on the edge of downtown, I think that the Whitewater Park is the most genius idea we've generated for the river corridor, and need to expand upon that downstream.

What We Heard: Public

What Amenities are Essential for a Thriving River Community?

- Parks & Open Spaces
- Nature Education & Observation
- Water Access Points

What Keeps You From Using the River?

- Cleanliness & Aesthetics
- Safety Concerns
- Lack of Trail Connectivity

Goals:

1

Create a Clean & Safe Riverfront

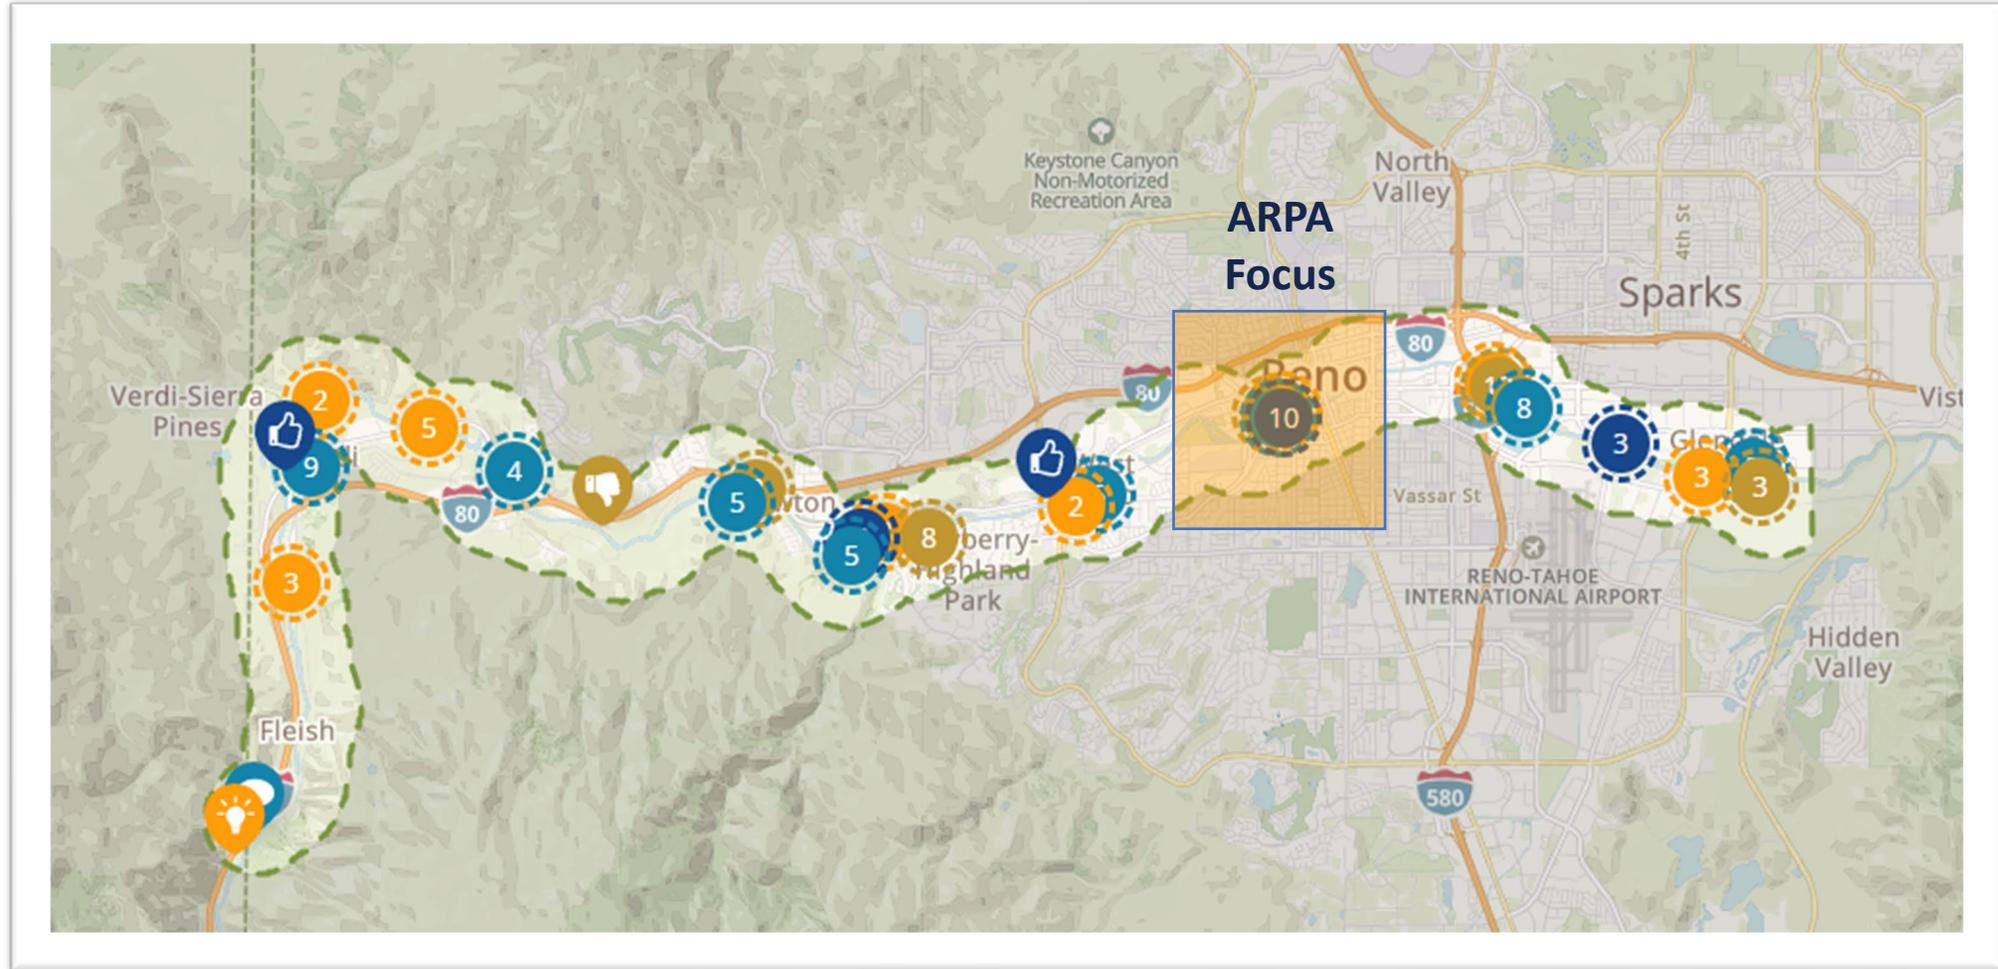

2

Create a Connected Riverfront with Easy Access to the River

3

Implement a Cohesive Plan for Consistency in Design & Long-Term Maintenance
