Re: Barrier Rail Donation to City of Reno

To whom it may concern.

Martin Harris Construction would like to donate free of charge (15) plastic fillable "Jersey Barriers" to the City of Reno, as a courtesy for the staging area we were permitted to occupy for the better part of 3 years.

Due to this consideration Martin Harris Construction was able to move about more efficiently resulting in a quicker project turnaround.

It's not often that we as a company are able to give a heartfelt Thank You! to a client that has been more than generous with their resources, fair in their business dealings and professional in all things Big and small.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Charles Nahorniak', is written over a horizontal line.
