Comments	I live nearby and use this route everyday. I am happy to see this vacant lot finally developed. I know Starbuck will do a great job.

Comments	A Starbucks would be a wonderful addition to the neighborhood. Reno High School students would flock there, and my wife and I, who have lived in this neighborhood for 46 years, would love it too, being regular Starbucks customers.

Comments	Do you honestly and truly think it is a smart idea to place a Starbucks DIRECTLY across the street from a high school? Morning traffic will be made worse, you will increase problems with student attendance, and safety issues with kids y safely crossing the street. Not to mention that a Starbucks is already less than ONE MILE away from this parcel. Not to mention a second Starbucks on the other side of the freeway entrance. I doubt the city of Reno truly needs THREE Starbucks within a one mile radius. Not to mention yet another Starbucks o my two miles away. Plus, the Roost Coffee shop doesn't need a big box retailer crowding it out of business. Please don't let corporate greed harm a high school.
