

# **Stop thinking of McCarran as a freeway and turn it into a greeway**

- **Use roundabouts to eliminate platoons, decreasing congestion by creating continuous flow**
- **Increase level of service without the need to widen the road**
- **Save the trees and green space and use them for bikes/scooters**
- **Create multimodality compatible with the area which calms traffic and keeps the area small, inviting and affluent, but still makes connections to necessary commercial venues east of site.**
