Subject: Our City

Hello, I'm a Reno native and have lived here all my life. I'm a senior citizen so I'm not young.:) My family and I are saddened by the way our beautiful Reno and surrounding areas are. There are so many apartments now, the wildlife is endangered, the traffic, and the downsizing of lots for homes. It's very maddening when we live in our beautiful homes and developers come and want to build as many homes as they can for the money on small lots, plus some aren't quality built homes and this brings the value of our homes down. Our council should really be caring and smart because we are going to be just like California and their large cities. It's so sad. It's already too late to fix these messes. We hope that our city leaders will take this seriously and make big differences for the better of our people, wildlife and Reno.
