Hi my name is Angel Placencia from Hug high school and I'm here to speak about Road work—the bane of our daily commute, the cause of endless delays and confusing roads and lanes that are put to a halt. But let's pause and consider the bigger picture. Road work isn't merely an inconvenience; it's a necessity.

Yes, it disrupts our routines, causing traffic snarls and rerouted paths. However, it's an essential investment in our infrastructure. It's about repairing deteriorating roads, enhancing safety measures, and accommodating a growing population's needs.

Imagine driving on a road filled with potholes, risking damage to vehicles and compromising safety. Road work aims to rectify these issues, creating smoother, safer routes for everyone.

Critics argue it's time-consuming and expensive. Yet, neglecting road maintenance could lead to far costlier consequences—increased accidents, vehicle damage, and a decline in overall accessibility.

Road work isn't just about asphalt and machinery; it's about progress and development. It's an investment in our communities, fostering economic growth and enabling smoother transportation for businesses and individuals alike.

Therefore, while it inconveniences us in the short term, it's a vital step toward a better future. Let's appreciate road work for what it is—an essential undertaking that ensures our roads remain safe, efficient, and capable of supporting our evolving society.

Thank you.

Good morning, everyone my name is Betsy Arana. Today, I want to talk about an issue that affects many of us: housing affordability in Reno, Nevada. As we all know, finding an affordable place to live can be quite a challenge these days.

So, why are houses so expensive in Reno? Well, there are a few reasons. Firstly, the growing population and economic development in the area have increased the demand for housing. With more people looking for homes, the supply becomes limited, driving up prices.

Moreover, real estate investment has soared in Reno, with a focus on higher-end properties. While this brings development and opportunities, it also contributes to the rising prices, making it even harder for people to find affordable housing.

There are ways we can improve housing affordability. One key solution is to encourage the construction of more affordable housing units. By providing incentives to developers or partnering with them, we can increase the supply of homes that are within reach for more people.

Another approach is to protect existing affordable housing units. We can implement policies that prevent the conversion of these units into higher-priced properties. This way, we preserve affordability in certain neighborhoods and prevent the displacement of lower-income residents.

By providing a helping hand, we empower individuals and families to achieve their dream of owning a home., we can create a more inclusive and affordable housing market in Reno, Nevada. Together, let's work towards a future where everyone has a place, they can call home. Thank you!

## Parking Enforcement Matter in Reno

To Whom It May Concern:

As a researcher, private investigator and constituent, I have a question as to when, why, and why not that the Reno Police Department (RPD) ceased enforcement of parking violations. The cessation is especially troublesome as parking matters contribute to disorder and urban blight. In my dealings with and research into Parking Enforcement, it has been my experience that the agency cannot manage the volume of parking complaints. I recently lodged a public records request with the City of Reno, another request through Reno Direct, and a direct email to RPD at [askrd@reno.gov](mailto:askrd@reno.gov). The substance of the requests was when RPD eliminated parking enforcement from their purview. After a few weeks, the only response thus far is from public records referring me directly to parking enforcement outside the public records request system. With the city's expansion, RPD should resume this duty, proactively enforce parking, and respond to parking complaints directly from Reno Direct. Lastly, perhaps the city should reconsider disbanding the Parking Enforcement unit, reassigning the employees, and placing parking regulation solely under the auspices of the RPD—as a matter of more efficient and cost-effective use of city resources.

Good morning, my name is Erica Hernández, I am a high school student and today I come here to talk about mental health.

Mental health is a very important issue that affects many people around the world. Since we all have emotional ups and downs at some point in our lives, it is essential to take care of our mental health to have a full and balanced life.

This involves having good self-esteem, managing stress in a healthy way, having healthy relationships, and being able to face and overcome life's challenges. It is normal to have moments of sadness, anxiety or worry, but when these feelings become overwhelming and affect our daily lives, it is important to seek help.

It is crucial to banish the stigma associated with mental health problems and promote empathy and understanding. We all deserve support and compassion when facing emotional difficulties.

These are some things that can help us take care of our mental health

- Maintain social connections
- Look for activities that you are passionate about
- Set healthy limits and above all learn to say no

If you or someone you know is struggling with mental health, I encourage you to seek professional help, talk to trusted friends or family, and practice self-care.

That's all and thank you for your attention.

Change in culture

good morning city council members my name is estrella ceja from hug high school and today I want to talk about the lack of Hispanic culture events. I wanna start by saying that half of nevada population is Hispanic and there are so many groups that get recondition such as the lgbtq community there population is about 5.5% and they get a pride festival with the streets shut down food music and performers. I have come to tell you that people need more recognition in there culture and came to give you suggestions on how to do that. I believe that a great way to show the appreciation to the Hispanic culture would be to shut down a street for a parade with lots of food vendors and music and a great time to do this would be the first weekend of the first Monday of October . This time is important and a great time to do it becuse it is Hispanic heritage month. Such a festival could showcase Hispanic music, dance, art, and delicious food, allowing everyone to learn, appreciate, and enjoy the heritage of the hispanic culture. It would also provide a platform for local businesses and artists to showcase their talents and strengthen the local economy. organizing this festival for Hispanics, we send a powerful message of acceptance and respect. It will also show kids that their culture is important and appreciated as well as boost tourism and local places .it can demonstrate value and celebrate the contributions of all members of our community let's embrace diversity and create a festival that celebrates the beauty of Hispanic culture. so with everything said thank you for your time and I hope you take my idea into consideration.

We received this email at Reno Direct. We did submit a request to the Clean and Safe team to help address the homeless and debris concerns, but thought that some of the content would also be suited for public comment. Please see below.

Thank you!

3:00 Sunday afternoon the plaza areas are mostly occupied by homeless people which isn't much different than any other day of the week except that they know on the weekend there's not going to be much law enforcement around. That also isn't very different than any other day of the week. RPD needs to get out of their cars and actually walk the streets and the plazas. What happened to officers walking their Beats? I'd say bring back the ones on bicycles but they ride around with blinders on. It's easy duty for them.

The plaza areas and the sidewalks along 1st Street from Virginia Street to Arlington Avenue are disgustingly filthy and many areas smell like a urinal. Many of the small businesses have closed up because it's so disgusting and the conditions run customers away. Junkies started having issues with the homeless as soon as they opened. They don't have these kinds of issues in Midtown because resources are focused there.

The Christmas decorations in the Believe Plaza are getting better each year with the exception of one glaring piece. The Santa hat on the Believe sign is old and dirty and faded. It's been used for many years and it shows it. Can whoever is in charge or whoever's putting it up not see how bad it looks? If the city really can't afford to buy a new one then don't put it up at all. It's embarrassing.

Thank you for your time.

I think the neon light district is good for the west end, and doesn't interfere with a view or too much light in a down town corridor

**Hello. I'm a retired veteran here in the North Valley area, and I've called the Reno direct line twice and the local fire department out here in North Valleys. We have an American flag at the corner of State Boulevard and silver lake that is torn to shreds and hanging only by one of us Fasteners. I think that it's imperative that you folks look at this and honor our flag. It's embarrassing to see that when I pull into steady hanging by a thread and rest to pieces and only one Fasteners holding the flag. So it's not even flapping in the wind. It's almost embarrassing. I would really like it if you folks would address this issue as soon as possible. Have a good day. Thank you.**

**Hi, my question is on Spokane Street in between 6th and 4th across from the Ramada. All these motor homes that are parked out here on the street and have been parked out here. Nothing's being done about them. It really brings down the neighborhood. We're trying to improve the neighborhood. You need to get some help in the city council. Maybe you know or such as maybe we're just a tater tot in the world is steak fries as far as the city council is concerned but it looks bad. We're trying to improve the area and nobody else is wanting to do anything about it since when did did a public Street become a drop off point for people to live in their motor homes. They've been here since before Hot August Nights nothing's being done. I've called into Regal direct nothing's being done. So I know you don't want to do anything. I know you're trying to turn Reno into San Francisco East. So that's what you're trying to do. That's what is your plan. Have a good day.**

**Hi, this is Duane Cummings. 105 Blair Place. I called in yesterday about a car that I think is illegally parked and it's been sitting there for since early Saturday morning hasn't been moved. It's kind of an inconvenience for the neighborhood. It's tough to get parking and he's had issues before and he's parked conveniently or inconveniently. So no one can park it in the area except the way he is or so consideration. Yes, that's 10 50. That's 1005 your place Reno, Nevada and it's just it's just about your situation. He knows the rules. He's been cited for loans. I'm curious about all the gas cans. He seems to fill up about every Saturday and it seems like it's I'm just amazing that it's probably Well, you figured out what are usually comes in on Saturday most construction sites and close to me. There's a lot of gas coming out of that area and to the cars and I'm also wondering about his home owners building permit. I think it started in 2018 and there's no procedure to finish homeowners the home. I think it's for evasive taxes purposes. Anyway, I'm not a crybaby we get along really fine. There's some issues there and let's not blow this thing up out of proportion. Thank you very much. It's Duane Cummings 1005 Love Lane, Reno, Nevada, and I just like to see if we could get his car. So bite by the three days parking limit. Thank you. Have a great day.**

**Hello, Reno, Direct. I hope you all are having the most greatest day of your life. I really hope you are. fortunately There's some citizens out there that aren't having the best day because bird scooters are blocking the sidewalk so they can't get to where they're going today. I remove them scooter from a sidewalk and then worked all day got off work and noticed the scooter was right back on the same side Walker had moved it in the morning. Which means There are a lot of people out there that do not care. About people who need to use those sidewalks because they're disabled or elderly and they're just trying to get to where they're going in a timely manner. So I don't really know what else to say to you Reno direction or Reno bureaucracy. It's really sad that you are so shitty at your job that you're allowing this company to block the sidewalk, which is the legal. It is also illegal to put those hooters on and he sidewalk example, if a homeless person say 4 to have a grocery cart full of their stuff on a sidewalk blocking it I guarantee you that the cops would come and brutal eyes that human. What per some reason we're going to let some for profit company screw over the rights? Of your citizens and this company isn't even in Nevada. So the money and stay in Nevada. So why are we doing business with them and we're trying to pump up, Nevada? era from Nebraska or some craziness They don't even know about our city and they don't care about our city and it's obvious that you as our L might feel the same way. I'm really disgusted by you. I really hope you guys don't show gone any turkey this week. That would be a crying shame. Let's get those scooters off the sidewalks and stop being a jerk to the disabled and the elderly. You know, it's a it's a really really. reasonable request So if you have a problem with this and you would like to attack me like leaders have done before give me a call. I'm not hiding who I am. You guys are the ones hiding you're the ones who have never return the call once never returned an email once in the 5 years that I've been trying to communicate with the leadership never once on any topic because you guys stuck at your jobs. I'm sorry if you take offense to that, but when you don't respond one time to a constituent. The phone calls concerns that shows how sucky you are.**

**You're the one that built the record not me you could have just responded but you didn't so I don't know what to say to people except you're really failing at your job. Your failing Nevada is your failing taxpayers. You're not making of Adda or Reno a great place to live. It is becoming a worse place to live the longer. I live here and it's under your leadership that this is happening more crime more childrens sex trafficking. That's that's the worst part about it all or math more heroin. big dog anyways I'm really disappointed in you and I will do all that I can to let the public know exactly who you are. So good luck trying to fake it cuz I'm going to care. Hello back and let them see your Wolf's skin under the lambskin cuz you're trying to disguise yourself and you guys are rules. wolf wolf Get the scooters off the sidewalk you horrible I. Please don't take offense and please don't ask me for speaking the fax to you. You know what it says in the Bible the wicked take the truth to be hard and that's what I'm experiencing with you all. So maybe you should go read your Bible and learn to be Christians and learn how to take care of a community and learn how to love. Stop loving money so much and get back to loving humans. You'll be a lot have to here cuz money is not going to love you back. So what's up?**

**Hello, Reno, Direct. I am calling to let you all know that there are several. Bird scooters on 1st and 2nd Street between Arlington and Keystone blocking sidewalks. One of them is even parked on a handicap ramp. Or the ramp built to get onto the sidewalk from the street blocking that's portion. So Please give bird scooter a call and thank them for abusing the elderly and the disabled and anyone else trying to get to where they're going on the sidewalk like to thank bird scooter for their criminal act of blocking sidewalks and abusing people, you know that such an amazing service. They're doing for our community, you know, blocking sidewalks every single day and making it harder for certain humans to get to where they're going. We just want to extend our gratitude in our love to bird scooters and those who support bird scooters. We love you so much. We see all of the chaos that you're creating on our streets and we just want to thank you from the bottom of our hearts for abusing the disabled abusing the elderly and abusing anyone else who may need to down the sidewalk on hindered So yeah, thank you City of Reno for continually for over a year showing us this continual behavior of blocking sidewalks and also being implicit in this abuse. We just want to thank you from the bottom of our hearts. **Hello, Reno direct here is a message for the Reno city council. My name is Lucas. You can call me at 775-354-6867. I just wanted to update the city council today on the fact that I am personally moving scooters off of sidewalk that they are blocking on a daily basis still trying to protect the disabled and the elderly from the abuse that your leadership is a putting up on our community. You all have done nothing to address this except make some phone calls and tell me live or maybe they were good intentions that you couldn't follow through with. I don't know. I'm just over here on the other side of it trying to figure it all out. But what I see on a daily basis is sidewalks blocked, especially in Midtown and downtown and now they're placing scooters in alleys and against dumpsters. So it looks like all these scooters have been abandon it really as a special touch to our math Alcoholic City, you know if that's what you're going for. I'm not sure if that's what you're going for. But it really kind of connect that really nicely. So if you're not going for that, maybe you should have start addressing these bird scooters making our city look like crap and just imagine what it's going to look like when they're all covered in snow and ice. Yeah, and by the way, did you remove those scooters from the river yet? Cuz I keep seeing them like good God. How long are we going to let them do the grade and pull up the truckie? You know, I thought we was keep Tahoe Blue and keep the truckie beautiful. Well with a couple scooters rotting away in the water that ain't going to happen. So anyways, I'm still out here trying to do my best to help people. I hope that you guys can start doing that as well and get in touch with these Birds scooter company CEOs and let him know. We no longer want their services anymore. Plus we'd rather have better bus system that can give everybody who pays taxes**

**Mobility instead of just the people who can ride those scooters. It's disgusting. I personally have one hand and I cannot read them and I am completely offended by the city black. Specked and diligence for the disabled Community. Nevada is already number one in doing nothing for the disabled. So I guess you guys are trying to keep keep that true to form. Anyways, if you guys want to talk about this and have you come down and show you the hundreds of pictures that I have a scooters blocking sidewalks. I'd be happy to do a PowerPoint presentation for you and explain to you the intricacies of the Americans with Disabilities Act and how you are abusing these specific populations. I'm more than happy to point it out and pontificate it for you. Let me know 775-354-6867. I'd be happy to dumb it down if you're you know didn't go to college as well. So either way I got your messages and I'm ready to deliver them to you as a group so we can start to make Reno safe and great for the labeled and the elderly instead of just able people or two handed people or two legged people who can ride those dumb scooters. Yes, I believe they are dumb. I'm sorry if you do not trying to offend you. I'm that's just my personal opinion. It's Donna way to provide better Mobility for your citizens. It is a Band-Aid on a big issue because the City of Reno has failed dramatically in their management to bring in the necessary money to fix the city make education better. All those things you have failed and I've lived here for like 1520 years and I've watched you fail the entire time I've lived here. So anyway, it's will last An Education First in Math person alcoholics first in child sex trafficking. Maybe we could start being first and something positive. I Willy, please let me know how I can help 775-354-6867 because I'm getting tired of moving these scooter store you thank you. You'll have a wonderful day. Let's make Reno amazing.**

Yeah, it's really nice at your views me or high school and your college students to do the recordings for you for your city hall meeting and answering or forwarding all of the calls that would normally go to City Hall or someone there in charge to their call center. Maybe that's why nothing's been done about the water running behind midtown motel for the last 6 years off and on and the poisoning that's been going on around here through the liquor, but at license retail establishments and Surround Sound and the speakers that have been position strategically around midtown motel and behind midtown motel and the fact that you people have been wearing it for quite sometime now try 6 years or maybe even longer. I don't know. That the the lack of attention the negligence on the law enforcement it come out to make a report and to do it legally and honestly when there's already been a report made those either wasn't enough evidence will I don't really see that you people need that much evidence when it's been right under your nose now. It's right over your head. And it's been going on all over California. And the person that they're doing this to has made a police report has asked for help to LA California moved in Nevada in hopes to get away from it. And what are you be able to for the right price and a new Facebook for your Citi allow these people because the general public two people it's not that important and if this is Glen lesson that the people for the United States of America can learn is that all the way from California at the all the way to Nevada you people there supposed to be running the city in the state and allow these people to manipulate the area and use it. Is there a little live streaming talk YouTube hashtag, whatever it is. They decide they want to do because of the money that they've provide for your Citi your police department and The education department and whatever else I've had nothing but medical malpractice dental malpractice. There's all kinds of evidence. There's all kinds of witnesses and you people just tend to ignore it because of who these people are you people are not these people are dangerous. These people are Esther. It's in society. You need to address the situation not look the other way. You still getting your news you're getting your new city. You're getting a new infrastructure. Everything that you got you're wanting they do this All Over California everywhere certain people were living all these things and nobody would do anything about it want to stand up to the plate and being all American citizens for the United States of America. And so the people you people partner with thank you.
