Comments for Innovation:

I have a drive for advancing our organization's objectives and delivering tangible benefits.

The implementation of digital signatures will be a game-changer for the City of Reno, revolutionizing our document management processes and paving the way for greater efficiency, accuracy, and productivity. Developing the policy and procedure for this technology not only streamlined workflows but also reduced paper usage and minimized errors, resulting in significant time and cost savings for our organization.

The efforts to evaluate and improve records management at the Reno Police Department by implementing strategic enhancements has successfully reduced Public Records Requests (PRRs) and turnaround times, leading to greater operational efficiency and improved service delivery. These recommended solutions not only alleviated administrative burdens but also enhanced transparency and accountability at the Reno Police Department.

Looking ahead to the upcoming year, I am excited about the initiatives on the horizon, including collaboration with City Manager's Office (Parking Enforcement and Maintenance & Operations) on the launch of a comprehensive parking software. We are working on a Public Records Request system revision and enhancement. As well as, streamlined processes for boards and commissions members and liaisons. My vision and proactive approach to these initiatives promise to bring about transformative change and position our organization for continued success.

I am proud to have an innovative spirit and look forward to continuing to lead the Clerk's Office towards even greater achievements in the future.

This has contributed significantly to maintaining positive relationships with the public and enhancing the organization's reputation.

General Comments:

In a brief narrative, please describe:

What are you most pleased with in your performance?

I am most pleased with the following aspects of my performance:

1. **Launching New Processes:** Successfully spearheading the launch of the digital signature process has been a significant accomplishment. The meticulous planning, coordination with cross-functional teams and organizations, and attention to detail throughout the development and implementation process have resulted in a seamless rollout. This achievement not only enhances our organization's technological capabilities but also contributes to operational efficiency and customer satisfaction.
2. **Developing Internal and External Relationships:** Building and nurturing strong relationships, both internally and externally, has been a cornerstone of my performance. By fostering open communication, collaboration, and mutual trust within the team, we have cultivated a supportive and productive work environment. Additionally, establishing and maintaining positive relationships with external stakeholders has been instrumental in driving growth and expanding my network.
3. **Self-Care:** Prioritizing self-care and maintaining a healthy work-life balance has been essential for sustaining high performance and overall well-being. Through effective time management, setting boundaries, and engaging in activities that promote rejuvenation, I have been able to maintain resilience in the face of challenges. This commitment to self-care not only benefits my personal health and happiness but also enhances my productivity and effectiveness in the workplace.

These achievements reflect my dedication, skills, and commitment to excellence. I am proud of the progress made in these areas and look forward to continuing to contribute positively to the success of our team and organization. What areas for growth would you like to see? Please provide specific suggestions on how you may improve the areas for growth?

I see the following opportunities for continued growth:

1. **Time Management:** Improvement of my time management skills will enhance productivity. While I have made strides in prioritizing tasks and meeting deadlines, there is still room for improvement in optimizing workflow and allocating time effectively to various responsibilities. Developing strategies such as setting realistic goals, utilizing time-blocking techniques, and minimizing distractions will help me better manage my time and accomplish tasks more efficiently.
2. **Room for Error:** Recognizing the inevitability of human error, I acknowledge the need to cultivate a mindset that embraces mistakes as opportunities for learning and growth. While striving for excellence is commendable, it's essential to understand that setbacks and failures are inherent parts of the journey. By fostering a culture of resilience and adaptability, I can better navigate challenges, bounce back from setbacks, and continually improve performance.
3. **Patience:** In a fast-paced work environment, it's easy to feel pressured to deliver results quickly and become frustrated when progress is not immediate. By practicing patience, I can approach challenges with a calm and composed demeanor, allowing for thoughtful decision-making and effective problem-solving. Developing patience will not only enhance my ability to handle stress but also foster stronger relationships with colleagues and stakeholders.

Council:

- Professional, respectful and dependable.
 - The cross-training of her staff has been pushed all the way from the managers to the temporary employees. With a small team, 2 employees being out for one day can cause a halt in operation if all employees are not cross-trained. She has done a great job ensuring internal and external customers are helped in a timely fashion.

 - I am thankful for Ms. Huntsman and her leadership. She has grown professionally. She is a compassionate human and the work she does bridges every department at the City.

What areas for growth would you like to see? Please provide specific suggestions on how the City Clerk may improve the areas for growth?

External Stakeholders:

- To foster strong relationships with the legislative body and the Nevada League of Cities, the City Clerk, (Mikki), can undertake several proactive and strategic initiatives:

Engagement and Communication

1. *Regular Meetings and Updates:* Schedule regular meetings with local legislators and representatives from the Nevada League of Cities. This ensures ongoing dialogue and keeps both parties informed about current initiatives, challenges, and opportunities. Provide periodic updates through newsletters or briefings that highlight key developments, legislative changes, and important events related to city governance.
2. *Legislative Advocacy:* Actively participate in legislative sessions and committee meetings. This presence can help build rapport with legislators and demonstrate the City Clerk's commitment to engaging with legislative processes. Prepare and present testimony on behalf of the city during legislative hearings to advocate for or against proposed bills that affect municipal governance.

Collaboration and Partnership

3. *Joint Projects and Initiatives:* Collaborate with the Nevada League of Cities on joint projects or initiatives that benefit multiple municipalities. This could include research projects, policy development, or shared services that promote efficiency and innovation. Participate in working groups or task forces established by the League to address common issues facing cities across Nevada.
4. *Training and Professional Development:* Host or co-host training sessions, workshops, or conferences with the Nevada League of Cities focused on municipal best practices, legislative updates, and governance strategies. This fosters knowledge sharing and strengthens professional networks. Encourage staff participation in League-sponsored training programs to build expertise and establish professional relationships with peers from other cities.
5. *Community Engagement:* Facilitate forums or town hall meetings that include legislative representatives and League officials to discuss issues relevant to the community. This promotes transparency and shows a collaborative approach to governance. Leverage social media and other communication platforms to highlight collaborative efforts and engage with the broader community on legislative and municipal matters.

Building Trust and Mutual Understanding

6. *Transparent Communication:* Maintain open and transparent communication channels with legislators and League representatives. Share data, reports, and insights that can aid in their decision-making processes. Respond promptly and effectively to inquiries from legislative offices and the League, demonstrating reliability and professionalism.
7. *Mutual Support and Advocacy:* Advocate for legislative and policy changes that support the interests of municipalities in collaboration with the Nevada League of Cities. Unified advocacy efforts can be more impactful and demonstrate a strong municipal coalition. Support the League's initiatives and events by attending, sponsoring, or promoting their activities within the city and beyond.

By implementing these strategies, the City Clerk can strengthen relationships with the legislative body and the Nevada League of Cities, leading to more effective governance, enhanced collaboration, and a unified approach to addressing the needs and challenges of the community.

- I think over the next year Mikki has the opportunity for growth in her role as President of NMCA and working to expand membership across the state. NMCA has the ability to have a strong legislative voice and I think Mikki has what it takes to ensure that happens.
-

Internal Stakeholders:

- *I would like to see more one on one's with Mikki. I think this year she has been inundated with work so she has not been able to make time for each staff member. But I would like to see more individual time.*
- *I am of the opinion that fostering patience towards staff members presents an avenue for growth. Upon careful observation, it has become apparent that certain ideas or suggestions are often met with dismissiveness, inadvertently causing others to feel undervalued and disregarded.*
- *Mikki shines in all areas. The only growth I see needed for her are what will naturally occur as her tenure in the position lengthens.*
- *N/A*
- *Mikki has expressed interest in developing her networking skills. She has made progress in this area but I would love to see her continue to develop in this area as it will open more opportunities for her.*
- *I believe in change to help us do better this department is going throw-out the change to do better in all aspects*
- *I would like to see Mikki delegate her work more. It can often feel like her final opinion is needed on every decision, which is inefficient and more time consuming for her than needed. I look forward to seeing her empower her future Chief Deputy to help carry some of the load.*
- *Staying apprised of and adopting latest technologies.*
- *n/a*
- *Be more assertive when necessary and continue to become more confident in the role.*
- *She could be a little more consistent in attending volleyball commitments.*
- *N/A*
- *I would like to see her wins and teams wins highlighted more. How to bring to light the work they are accomplishing on a day to day.*
- *I think there may be room for growth in growing a better understanding of the City's technology and systems so technical issues aren't as much as a roadblock*
- *None*
- *Please continue to message the other departments regarding deficiencies in the Clerk's world. Sometimes, we just don't know what we don't know.*

Council:

- *I do not see the day-to-day operations, but I appreciate the seamless transition between her team from the dais during meetings.*
- *I do not have any feedback at this time.*
- *Any assistance with maintaining the comment clock during council meetings is welcome.*

Please provide any additional feedback not previously captured.
