Hello,

We are residents of West Meadows in Verdi and believe it is necessary to have the power line underground for wildfire danger as well as to keep our views of the surrounding mountains in tact.

Please add our comments to the notes on this project, thank you!

Subject: Opposed to LDC24-00015

Hello,

As a homeowner in Verdi I wanted to chime regarding the LDC24-00015 NV Energy Utility Corridor.

I am deeply opposed to the proposed NV Energy Utility Corridor. This project threatens to scar our pristine landscapes, disrupt fragile ecosystems, and displace local communities. The potential environmental damage from construction and operation of this corridor is simply unacceptable. Furthermore, this project prioritizes corporate profits over the well-being of our environment and the people who call Nevada home. We must invest in renewable energy solutions that are sustainable and do not compromise the natural beauty of our state.

Thank you in advance for your consideration,

Sarah Steele
