

Development Review Public Comment

The public comment form has a new entry from the public.

Case Number	LDC25-00022
Position	In Opposition
Comments	Data centers are energy intensive and generate significant waste. City Officials need to stop treating Stead and the North Valleys like the warehouse of Reno. There should be more things that keep the residents interested in staying in the area. A movie theater, a grocery store, a community center. Data center jobs will be replaced by AI. This can literally go anywhere else.
