**Background:**

Staff is planning various improvements to Wilkinson Park including the installation of a new dog park and the replacement of the playground with the conversion from fibar to pour-in-place safety surface. The playground will replace the existing unit located on the west side of the park, adjacent to the restroom building along Belgrave Avenue. The playground was installed in the 1999 and is well past its useful life.

Staff solicited community input via an online bilingual survey that was posted on site at the playground and on the City's website. The survey collected 206 responses indicating the top desired playground features were swings, slides and climbers. This feedback informed the playground selection and the selected equipment incorporates all these features. The proposed playground equipment includes:

- Play structure for ages 2-5
- Play structure for ages 5-12
- Freestanding swing set

The installation of the playground will be included in a bid that staff is planning to solicit in June and bring forward for Council approval at the August 13, 2025 Council Meeting. Staff estimates the project will be completed by fall 2025.

### **Financial Implications:**
