Subject: Service Agreement Proposal

Dear Chief Soto,

Fusus is honored that the Reno Police Department is considering our organization to support its community safety initiatives by providing a platform to view public and community video sources for incident situational awareness and investigations.

Fusus will provide a video and data collaboration platform to expedite intelligence gathering and efficiency of response to situations as they unfold throughout the community. Further, the platform is tied to a community-facing website portal for video camera registry, providing a tool for identifying the location of cameras in proximity to incidents, as well as a means for efficient outreach to collect recorded video and image files from camera owners both public and private.
