Your Comment

Please protect Reno from dangerous 2nd hand smoke. If you can't smoke in public how do you plan to eliminate fumes from Cannabis Smoking Lounges Not to mention increased alcohol and cannabis DUIs around these lounges will increase the need for more police how do you plan to pay for that Will the city be liable for injury and deaths incurred by the cannabis lounges in our neighborhood Did you know statistics show a 30percent increase in cannabis DUI deaths in 2021 Finally if California prop 64 can't control illegal cannabis in California what makes you think Nevada is prepared to eliminate the illegal cannabis read [latimes.com/brokenpromises](https://www.latimes.com/brokenpromises) it warns you our City council that California has not been able to create the legal market as promised.

Re: Restoring Spacing Requirements for Cannabis Establishments

Dear Councilmember Taylor:

We are contacting you as one of the licensed cannabis dispensaries in the City of Reno to provide our comments on the consideration of agenda item C.2 which addresses the locational requirements for cannabis uses in Title 18 of the Reno Municipal Code. Deep Roots Harvest is in favor restoring the 2,500 foot spacing requirement between cannabis establishments and is pleased that the Reno City Planning Commission and the City's professional planning staff recommend a restoration of that spacing requirement.

It appears that the removal of the spacing requirement may have been an oversight as it was recommended by outside consultants in an effort to streamline the code in the zoning code rewrite and have it mirror the spacing requirements currently in state law. However, the City of Reno looked at this issue when it originally adopted the spacing requirement and had its reasons for adopting such a requirement which are still valid today. The City was concerned about an overconcentration of cannabis establishments in one area, most notably, the Downtown area, and the potential negative effects of allowing an overconcentration of such establishments. Those concerns of creating a vibrant mix of uses in the Downtown area still have merit as the City expands its downtown to reach out to the University and provide more than nighttime and entertainment uses in the core of the City. Likewise, it is a legitimate goal to prevent an overconcentration of such establishments in any part of the City.

We were pleased to hear positive comments about restoring the 2,500 foot spacing requirement during the City Council's recent meeting discussing cannabis lounges, pickup and drive-throughs, and expanded hours for dispensaries. It appears that Council remains aware of the reasons for the adoption of the 2,500 foot spacing requirement in the first place and the desire to prevent an overconcentration of cannabis establishments in any part of the City.

Lastly, when all of the currently licensed cannabis dispensaries applied for their business licenses, they had to adhere to the 2,500 foot spacing requirement between cannabis establishments. It is a basic fairness issue to have all cannabis establishments meet the same criteria that has been applied to the existing licensees.

Thank you for considering our comments and please do not hesitate to contact us if you have any questions regarding this matter.

Respectfully,

A handwritten signature in blue ink, appearing to read 'K. Capurro', with a long horizontal flourish extending to the right.

Hello, this is Patricia Price AdWords. I am calling in reference to the Kent cannabis lounges that are the potential to be allowed within the city limits of Reno. My argument against these lounges are, I have personal experience in the past. We're marijuana, was a gateway drug to Stronger. Uses of other compounds like acid. As a result of that, I watched former family member become addicted to marijuana, which progressed to alcohol, which progressed to acid use this recipe changed his his way of thinking I also have questions about whether or not you guys can can guarantee the purity of the marijuana that is used in the loudest. What's to stop anybody from leasing it with something worse, like PCP LSD, or even fit in all all of these, which can cause serious? I could Tropic effects in the person's brain. The last thing I would like to know is who's going to be liable or any deaths caused by a person or persons that are driving, you legally, under the influence of such marijuana and or least marijuana that they drive down the street and end up. Hitting a child hitting another adult hitting another car. Painting a light post and all of these potentially ending in death. Who's going to be liable for that? Is that going to be the city? Or is that going to be the establishment in which they were partaking in this marijuana? What are you guys going to do to ensure that these people do not leave? These lounges still high, it is been known and it is a recorded fact that marijuana can and we'll stay in a person's blood system, and it will continue to affect our way of thinking for up to 24 hours. It will stay in the blood and the hair and the skin for up to 9 months. What can we do? What kind of insurances are we going to get from you as the city council that protocols and restrictions will be put in place? Love you so much. This is the end of my time.
