

Reno Police Department

Technology Presentation

ILP

RPD has a philosophy of community-oriented and intelligence-led policing (ILP)

ILP utilizes technology and analysis to most effectively identify trends and deploy resources.

RPD is seeking approval for three complimentary contracts that will further ILP, ensure alignment with regional partners, improve services to the community, and contribute to officer and public safety:

- Axon OSP7+
- Forensic Logic LLC (Coplink)
- Fusus LLC

AXON

AXON is the technology leader in body-worn cameras, Taser, and fleet cameras. AXON has numerous other software and hardware products that all operate on and integrate with the AXON ecosystem.

BODY WORN CAMERAS

- 2017 Nevada legislative mandate
- Improve officer safety
- Improve quality of evidence
- Associated with reduced use of force
- Reduce citizen complaints
- Reduce liability
- Increase transparency and community confidence
- Completely integrated in the Axon ecosystem
- New cameras at 30, 60, 90, and 120 months

TASER

- Reduces use of force
- Reduces injuries to suspects
- Reduces officer injuries
- Less lethal option
- Integrated with AXON ecosystem
- New Tasers in 5 years

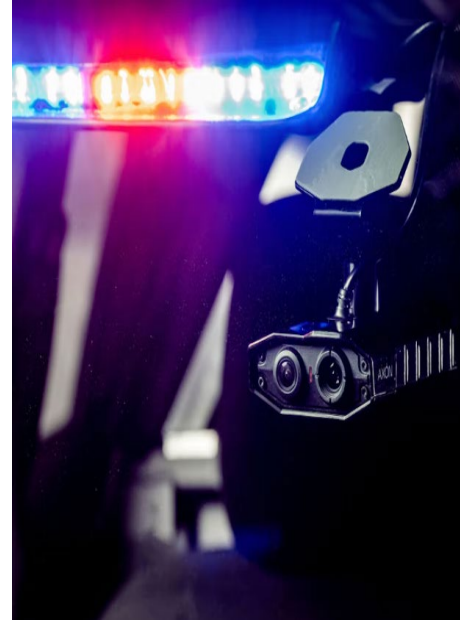

FLEET CAMERAS

Dash Cameras

- Reduce use of force
- Reduce liability
- Reduce civilian complaints
- Improve officer safety
- Increase transparency and community confidence
- Improve quality of evidence
- Completely integrated in the Axon ecosystem

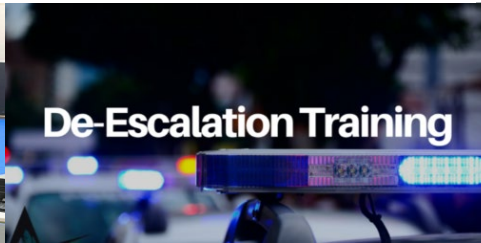

Reno Police Department

OSP 7+ ADDITIONS

- AXON Interview Room
- AXON Redaction Assistant
- AXON Auto-Transcribe
- AXON Respond For Devices+
- AXON Standards
- AXON Citizen One To One
- AXON Citizens For Communities
- AXON Virtual Reality
- Third Party Video Playback
- Unlimited Third party Storage

Reno Police Department

FUSUS

- Extracts live video feed from various cameras within our community and sends it to a single operating system and officers in the field.
- Acts as a digital evidence vault for investigators and is capable of integrating video with other data sources such as:
 - **CAD**
 - **Axon**
 - **Real-time officer geolocation**
 - **Registry map of cameras**
 - **Multi-media tip line for the public**

A limited number of feeds will include AI technology to identify relevant footage.

FUSUS PRO PACKAGE

- **FususONE**: Initial setup, access, and training of users to include up to 500 data points and 500 simultaneous public/private video feeds
- **FususOPS**: Implementation of smart phone application which provides viewing of live camera feeds and setting up and transmitting the location of teams for special events and critical incident management
- **FususANALYTICS**: Implementation of crime and incident heat mapping and analysis platform

COPLINK X

by Forensic Logic, LLC

Google for Cops

- COPLINK X is a powerful law enforcement search engine and information platform that enables law enforcement to search police databases from agencies across the U.S.
- CopLink will enhance situational awareness, improve officer and community safety, generate investigative leads, and improve clearance rates.
