Regarding the change in the Golden Valley Map:

I am very concerned about this change allowing many more large tractor trailer trucks using N. Virginia St depending on the types of businesses. At this point in time the majority of the trucks are north of Golden Valley Road, which is away from the residential area.

We already have a railroad spur which feeds the Stead warehouse area.

There is also, on that corner, a much used bus stop for Route 7 of the Virginia St corridor.

Thank you,

Phyllis Young
