Hello- I have reviewed the Council packet for the 2-8 meeting. I could be not using the software correctly, but in reference to Item D.1-Settlement with R. Gasca. I see no settlement document. Please let me know when it is uploaded in ample time for my review to inform my vote.

I'll ask that the clerk enter this communication into the record for transparency purposes.

Please know, that I have a long standing policy that I don't vote for agreements (including settlements) in which I have not seen the agreement as to be signed by Mayor or City Manager. Similarly, I believe that an attorney has a responsibility to make sure that clients are informed of binding decisions. Along these lines, the negotiated terms of an agreement should be available for viewing by a client (in this case the Council).

If negotiated terms are still being worked out and do not reach the level deemed of requiring Council approval (however I believe all litigation settlement matters are required to go before Council but DRT and I have a dispute regarding this), I request that I be provided written notice to any settlement and copied on any agreements.

thank you.
