Dear Mayor Schieve and Council Members,

This item on the agenda is interesting for a lot of reasons. It refers to the Mortensen Garson Overlay District, however it is difficult to understand if there is any plan for other developers besides Toll Brothers to participate at a later time in the cost to construct water system improvements.

Will there be any other opportunities for public to comment or observe the negotiations between the City of Reno and Toll Brothers? Is there a possibility the assessment district boundaries might be expanded to include other proposed developments?

I know dealing with the required water system improvements in the Verdi area is not an easy issue to resolve, and I appreciate the Council's efforts to devise a funding plan for TMWA improvements.
