

## STAFF REPORT

---

**Date:** April 12, 2023

**To:** Mayor and City Council

**Thru:** Doug Thornley, City Manager

**Subject:** Staff Report (For Possible Action): Resolution Accepting Streets – Silver Dollar Estates Infrastructure, SIT19-00008/FNL19-00007, including Silver Dollar Lane and Trading Post Road

**From:** Michael Mischel, Engineering Manager, Development Services

---

**Summary:** For Council adoption is a resolution accepting the street sections offered for dedication by the Official Plat of Silver Dollar Lane and Trading Post Road. The public improvements constructed by D.R. Horton, Inc. have been reviewed and approved by staff and may now be accepted by resolution. Staff recommends Council adoption of the attached resolution.

**Background:** At the time of final map approval, the City rejected the offer of the streets. State law provides the City the ability to reject the dedication offer with the offer remaining open until such time as the streets are constructed to City standards. The City did in fact reject the dedication offer in its signature block on the map's title sheet. Upon completion, the City can adopt a resolution accepting the streets without further action by the developer.

**Discussion:** The Owner, D.R. Horton, Inc, has constructed the public infrastructure including the utilities and streets and is requesting the City accept these streets. The construction was completed according to the requirements of Chapter VI of the City of Reno Public Works Design Manual and verified by the Engineer of Record (EOR), Summit Engineering Corporation on March 16, 2023.

**Financial Implications:** The City will be responsible for future repairs and maintenance as well as any replacements of all accepted streets. The subject streets will be added to the street inventory.

**Legal Implications:** Legal review completed for compliance with City procedures and Nevada Law.
