Interests & Experiences

Education or training relevant to the board or commission to which you are applying:

University of Nevada Reno: College of Science - Chemical engineering sophomore year completed
Parcel, NRS and NAC laws, city mapping system, city lighting and construction Ordinances, property laws, HOA design committees, Board meetings and procedures, Architectural and structural background. I have worked with a sign company and my designed signs have been installed in many businesses throughout Reno/Sparks. Adobe knowledge. Graphic design.

Explain briefly why you would like to be appointed to this board or commission.

I know I will fit into this Board perfectly as a local artist (view my website under construction at rklart.com) myself and someone who has been a Nevada resident most of my life and a Reno resident for the last 15 years when I arrived in 2007 to attend the University of Nevada Reno for Engineering. My previous employment experience has allowed me to really develop my skills as a designer whether its practical visual art, Graphic Design or concepts for illuminated storefront signs. My current position with my employer involves working with many HOA Boards. These Boards have Architectural, design and landscape Committees. With each micro-community and development in the Reno metro area, I am rewarded with protecting the aesthetics each project utilizes in its overall appearance from home colors, drought tolerant landscaping, etc. On a personal level, I have had art shows and displays in the past hosted by business owners in the downtown/midtown districts. My artistic nature and professional knowledge of where Reno is headed in terms of style and direction will prove itself beneficial through my contributions to this Board and I look forward to witnessing what we can achieve for our city.
