1.0 POLICY

It is the policy of the City of Reno, Nevada and the Redevelopment Agency of the City of Reno, Nevada to invest funds in a manner, which will provide a market rate of return while meeting the daily cash flow demands of the entity and conforming to all state and local statutes governing the investment of public funds.

The purpose of this Investment Policy is to establish the investment objectives, delegation of authority, standards of prudence, eligible investments and transactions, internal controls, reporting requirements and custodial procedures necessary for the prudent management and investment of the funds of the City of Reno.

2.1 SCOPE

This investment policy applies to all financial assets of the City of Reno, Nevada and the Redevelopment Agency of the City of Reno, Nevada. These funds are accounted for in the City's Comprehensive Annual Financial Report and include:

- General Fund
- Special Revenue Fund
- Debt Service Fund
- Capital Projects Fund
- Enterprise Fund
- Internal Service Fund
- Trust and Agency Fund
- Redevelopment Agency Funds
- Any new fund created by the State Legislature and/or the Council or Agency Board, unless specifically exempted by the specific legislative body.
- It should be noted that all funds with the exception of debt-related reserves are pooled. Other non-pooled accounts may be established by the Finance Director when it is deemed advisable to segregate a specific type of investment.
- Included in the pooled accounts are the following Bank Accounts; the Police Special Investigative account, IAFF insurance account, and the City of Reno insurance account.
- Deferred Compensation. The City offers its employees a deferred compensation plan created in accordance with IRS Code Section 457. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are solely the property and rights of the City, subject only to the claims of the City's general creditors. The City does not administer the plans nor has no liability for losses under the plan but does have the duty of due care.
- Defined Benefit Pension Plan. The City of Reno is a public employer participating in the Public Employees Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer program. The method of determining the total pension obligations is governed under GASB

Statement No. 5 Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Governmental Employers. The plan does not make separate rate measurements of assets and pension benefit obligations for individual employers. The City of Reno does not administer the Defined Benefit Pension Plan.

3.0 STANDARDS OF CARE

3.1 Prudence: The standard of care, per NRS355.145, to be used in the investment program will be the following “prudent person” standard, as hereafter quoted, and will be applied while conducting all investment transactions:

“The City Investment Officer shall exercise the judgment and care, under the circumstances then prevailing, which a person of prudence, discretion and intelligence exercised in the management of his/her own affairs, not in regard to speculation, but in regard to the investment of his/her money, considering the probable income as well as the probable safety of his/her capital.”

Authorized investment officers and staff who act in accordance with this policy and written procedures in the management of City money, and who exercise the proper due diligence will have no personal responsibility for an individual security’s credit risk or market price changes, provided that deviations from expectations are reported and preventative action is taken to control adverse developments.

4.0 OBJECTIVES

The primary objectives, in priority order, of the City of Reno and the Redevelopment Agency of the City of Reno investment activities shall be:

4.1 Safety: Safety of principal is the foremost objective of the investment program. The City and the Redevelopment Agency shall insure the safety of its invested idle funds by limiting credit and interest rate risks. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, diversification is required in order to ensure that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

4.2 Liquidity: The City's investment portfolio should be structured in a manner which will provide securities that mature at the same time as cash is needed to meet anticipated demands. Additionally, since not all possible liquidity demands can be anticipated, the portfolio shall consist largely of securities with active secondary or resale markets. The specific percentage mix of different investment instruments and maturities is described in Sections 8 and 9. The City's investment portfolio should maintain sufficient liquidity to meet cash flow needs. The City's investments should be monitored on a daily basis to anticipate and respond appropriately to any significant reduction of credit worthiness of any of the depositories.

4.3 Return on Investment: The rate of return on the City's investment portfolio is of secondary importance compared to the safety and liquidity objectives described in 4.1 and 4.2. Investments are limited to high quality securities expressly permitted in section 8.0. The City's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the City's investment risk constraints and cash flow characteristics of the portfolio.

5.0 DELEGATION OF AUTHORITY

Management responsibility for the investment program is hereby delegated to the Finance Director, who shall provide explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as delegated by the Finance Director.

5.1 Responsibilities of the City Council and the Agency Board

Additionally, the City may enter into an agreement with an external investment advisor for investment management services related to the City's portfolio.

5.4 Responsibilities of the Investment Officer.

The Investment Officer reports to the Finance Director and has the management responsibility for investing all public funds belonging to or under the control of the City and Redevelopment Agency in accordance with principles of sound treasury management and in accordance with applicable laws and ordinances, as outlined in this Investment Policy.

5.4.1 The Investment Officer shall establish written procedures for the operation of the investment program consistent with this investment policy. Procedures should be established to include safekeeping, master repurchase agreements, wire transfer agreements, collateral/depository agreements and banking service contracts. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established.

5.4.2 The Investment Officer is charged with ensuring that the Investment Policy is implemented and shall be reviewed to ensure its consistency with respect to the overall objectives of safety, liquidity and yield, and is relevant to current laws and financial trends. Proposed amendments to the Policy shall be prepared by the Investment Officer. After approval by the Finance Director, and incorporating recommendations by the Financial Advisory Board, they shall be forwarded to the City Council for consideration and adoption.

5.4.3 Policy Exceptions: While this policy prescribes various maximums, minimums and other relatively arbitrary numerical limits, it is intended primarily to be a management tool. If the Investment Officer determines that an exception to one of the Policy's numerical limits is in the best interest of the City, and is otherwise consistent with the Investment Policy, such exception is permitted. Whenever an exception to this Policy is made, that fact shall be reported to the

Finance Director and the City Manager. Similarly, when Policy guidelines are breached inadvertently, that fact shall be reported to the City Manager and the City Council.

6.0 ETHICS AND CONFLICTS OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. The Investment Officer shall disclose to the Finance Director any material financial interest in financial institutions that conduct business within this jurisdiction. The Investment Officer shall further disclose any large personal financial/investment positions that could be related to the performance of the City of Reno, Nevada and/or the Redevelopment Agency of the City of Reno, Nevada portfolio. Employees and officers shall subordinate their personal investment transactions to those of this jurisdiction, particularly with regard to the timing of purchases and sales.
