Slope stakes will be set begin and end of typical sections of sloping, 50' station increments, angle points, grade breaks, beginning, midpoint, and end of curves. Surveyor will coordinate with the Contractor's foreman to determine the preferred offset distances for the slope stakes. Stakes will be graded to the nearest one tenth of a foot of the proposed finished grade elevations and delineate distance to cross sectional features such as catch points, hinge points, slope toe, and grade breaks. Cut sheets of set survey marks will be provided for the contractor's use and reference. Surveyor will provide up to four (4) construction control/benchmarks set adjacent to the project site for use during construction and grading operations.

This task assumes the following:

- Surveyor assumes a total of 3 trips to the site will be needed to complete the staking. Additional trips to the site requested by the contractor will be billed separately on a time and material basis.
- No pre-construction, as-built surveys, or earthwork volume calculations will be required as part of this project. Surveyor assumes contractor will note deviations from plan dimensions and elevations based on measurements from control stakes set on the ground. Any pre or post construction surveys requested by the client will be billed separately on a time and material basis.

### **TASK 6. RECORD DRAWINGS**

Consultant will provide record drawings for the completed project. Electronic drawings, in PDF format (22" x 34"), on diskette will be provided to the City. Consultant will review the Contractor's and City's construction redlines and incorporate into the record drawings. Any stakes destroyed during construction that require re-staking or additional stakes requested outside this scope will be set at the fixed trip charge outlined under Task 2

## **TASK 7. CONSTRUCTION CONTINGENCY**

The Construction Contingency is specifically for additional out-of-scope tasks, additional effort, and/or time extensions, as may be required, which are unidentifiable at this time. This work shall be added at the sole discretion of the City, for fees negotiated on a case-by-case basis. Work will be performed on a time and materials basis in accordance with Atkins fee schedule.
