This is my daily walk up the road from my house. One of the best local gems - in about 3 minutes you feel like you are in the Wild West. Today it was heartbreaking to come back and see this sign posted....I get that money speaks but please please make it mandatory to preserve the public trail access up the canyon and most importantly water access for our wild horses who are the true homeowners of this land. If (💰 only if) these mansions "need" to be built on the hillside please ensure this complete natural habitat that makes Nevada home is preserved 🌵

Very Sincerely,
Mark Schmitz
