

STAFF REPORT

Date: August 10, 2022

To: Mayor and City Council

Thru: Doug Thornley, City Manager

Subject: Staff Report (For Possible Action): Approval of Construction Services Agreement with J-U-B Engineers, Inc., for the Dry Creek Restoration Project in an amount not to exceed \$281,684. (Sewer Fund)

From: Theresa Jones

Department: Utility Services

Summary: J-U-B Engineers, Inc., will provide performance-monitoring, construction and permit compliance, surveying, inspection and materials testing for the Dry Creek Restoration Project. The project stabilizes 1900 linear feet of Dry Creek within the Reno Tahoe Airport. This section of the Dry Creek is the City's responsibility to maintain. Staff recommends Council approve the agreement with J-U-B Engineers, Inc., in an amount not to exceed \$281,684 (Sewer Fund).

Alignment with Strategic Plan: Infrastructure, Climate Change, and Environmental Sustainability

Previous Council Action: July 24, 2019 – Council approved an Agreement with Dyer Engineering Consultants, Inc., for the Dry Creek Restoration Project design in the amount not to exceed \$292,523.25.

Discussion: Approximately 1900 feet of Dry Creek that runs along the southeast corner of the Reno Tahoe Airport eroded during flood events in early 2017, threatening the airport security fencing along the eastern edge of the Reno Tahoe Airport. Construction of channel stabilization measures is needed to prevent the failure of the airport's security fencing. This section of the Dry Creek is the City's responsibility to maintain. This Agreement will provide construction management services such as construction oversight, surveying, inspection, permit compliance and materials testing.

Financial Implications: Funding for this project will be provided from the Sewer Fund as identified in the FY22/23 Capital Improvement Program.

Legal Implications: Legal review completed for compliance with City procedures and Nevada law.

Recommendation: Staff recommends Council approval of the Construction Services Agreement with J-U-B Engineers, Inc., for the Dry Creek Restoration Project in an amount not exceed \$281,684 (Sewer Fund) and authorize the Mayor to sign.

Proposed Motion: I move to approve staff recommendation.
