- D.7 ***SUPPLEMENTAL SUPPORTING MATERIALS -*** Staff Report (For Possible Action): Presentation and potential acceptance of the Downtown Reno Partnership's FY 2026 Downtown Reno Business Improvement District Operating Plan, Budget, and Annual Assessment Rate Adjustment.

THIS ITEM WAS HEARD AFTER AGENDA ITEM D.4.

Bryan McArdle, City of Reno Revitalization Manager, introduced the partnership representative to give the update.

Vice Mayor Taylor gave the following disclosure:

Madam Mayor, fellow city council members and Madam Clerk, I am disclosing that I serve on the board of directors of the Downtown Reno Business Improvement District (the "DRP"), a non-profit designated by City Council to implement a "clean and safe" program of safety ambassadors and maintenance workers throughout downtown Reno. Item D.7 involves the potential acceptance of the DRP's FY 2026 Downtown Reno Business Improvement District Operating Plan, Budget, and Annual Assessment Rate Adjustment.

On this matter I have sought guidance from the City Attorney's Office. The City Council appointed me to the DRP board of directors. As a director, I have a per se commitment in a private capacity to the interests of the DRP pursuant to NRS 281A.065(6). In addition, I am a BID ratepayer, and I have a pecuniary interest in the assessment.

The DRP provides "clean and safe" services that would otherwise fall to the City to provide. Because the DRP's interests, goals and operations closely align with the City's interests, goals and operations, my commitment in a private capacity to the interests of the DRP would not clearly and materially affect the independence of judgment of a reasonable person in my position.

While I have a pecuniary interest in the assessment, the resulting benefit or detriment accruing to me will not be greater than that accruing to any other member of the BID in a similar rate tier. The fact that I am a ratepayer will not impact my ability to impartially review and render a decision upon these Agenda Items.

Madam Clerk, please lodge this disclosure on the record. I will be participating on this item. Thank you.

COUNCIL MEMBER MARTINEZ PRESENT AT 10:45 AM

COUNCIL MEMBER REESE ABSENT AT 10:49 AM
COUNCIL MEMBER REESE PRESENT AT 10:51 AM

E Ordinances - Introduction (Other Ordinance, Introduction items may be found under the following agenda sections: Public Hearings, and/or Standard Department Items.)

- E.1 Ordinance Introduction Bill No. ____ (For Possible Action): An Ordinance amending the Reno Municipal Code Title 12, “Public Works and Utilities,” Chapter 12.16 “Sewer Service,” article II, section 12.16.155, titled “Sewer Connection Fee Credit Policy,” to delete the expiration date for connection fee credits, amending Section 12.16.420 titled “Sewer User Fees When Vacant, Fire Damaged, or Demolished” and amending Section 12.16.430 titled “Termination of Charges” to remove the provisions regarding demolished properties, together with other matters properly relating thereto.

THIS ITEM WAS HEARD AFTER AGENDA ITEM D.6.

COUNCIL MEMBER ANDERSON ABSENT AT 3:56 PM
 COUNCIL MEMBER ANDERSON PRESENT AT 3:57 PM

Council Member Duerr stated she would prefer not to consider this today. Usually when we are amending ordinances we have established a policy of getting a presentation about why the ordinance change is needed and what is contemplated in the change. We did not have that for this. The ordinance we have is good and well-intentioned. In speaking with staff earlier today it was mentioned there is a case that is having a problem meeting the current ordinance. Usually that is where a waiver or a variance can come into play instead of changing an entire ordinance to satisfy one group or one development. Having an expiration date on a credit should be incentive to spur development. She stated that she does not want to vote no on this but she does not know enough about it and would at least like a briefing with staff to better understand it and the potential unintended consequences.

Ashley Turney, City of Reno Assistant City Manager, answered questions from Council Member Reese and explained the proposed change would be a tool to help spur development as it relates to housing. In staff’s analysis, the current policy with expiring credits has not spurred the outcome for development that was originally intended. She also explained that a waiver would not be a possibility for one particular project because their credits have expired and the current ordinance does not allow spot instances.

Ms. Turney confirmed for Vice Mayor Taylor that this is a policy decision

that encourages property owners to clean up blighted property while incentivizing development specifically for the downtown core.

Council Member Ebert agreed with Council Member Duerr that the current policy is something that can be used as a tool to motivate people to move forward with development. She referred to discussions in the past about the cost of doing business and stated this is an example of the cost of doing business. She also does not necessarily want to vote no on this but needs more information on potential impacts.

Council Member Duerr clarified that she supports all the tools in the toolbox that support development and discussed the need to follow the process for ordinance development in order to fully understand the implications. She also referred to a past request to extend credits for 20 years and noted that City Council did not agree to that but instead extended them to only five years.

Discussion on the motion:

Council Member Ebert stated they should not be changing things for one or two developments. She does not know if the developments are in an RDA area and if there are other tools available that could help them. The current ordinance is a good way to motivate developers and she does not know what the motivation is for this change. From the point of the cost of doing business, she does not think this is a wise move in a business sense.

Bill No. 7295 was referred for a second reading and adoption.

It was moved by Devon Reese, seconded by Miguel Martinez, to refer.

Mayor Schieve discussed a joint meeting that will be put on an agenda fairly soon with City Council, Planning Commission, and stakeholders to put in standards and benchmarks regarding data centers.

Council Member Reese discussed his interest in having that joint meeting in order to have conversations with accurate information about protecting the environment and other concerns.

Mr. Gordon answered questions from Council Member Reese regarding economic impacts and an abatement process through the state.

Council Member Ebert expressed appreciation for the changes the applicant has made and suggested looking into using native vegetation for the landscaping. She asked the applicant if there is any possibility of using air cooling.

Dylan Russ, Appellant Representative, confirmed they did analyze the use of mechanical cooling and he explained the increased power consumption that would require.

Council Member Duerr expressed appreciation for the changes the applicant has made and discussed the importance of holding the joint meeting to enact a reasonable and more comprehensive framework for evaluating data centers.

Council Member Anderson referred to public comments expressing concern that ordinary citizens will be paying for the infrastructure for NV Energy service to the data center and asked for confirmation on what is actually happening.

Mr. Gordon confirmed that the applicant is paying 100% of the cost for any needed improvements at the Peavine Substation and the infrastructure from the Substation to the property.

Council Member Duerr explained that a substation moves power, it does not make power. What the public is talking about is the need to make more power and when NV Energy has to build another power station, that cost does fall to the rate payers. She expressed concerns regarding the use of water for evaporative cooling and discussed the need for appropriate standards for solar use. She will support this application while voicing her protest to where they are today.

Council Member Ebert stated that considering the size of this data center and their willingness to put in plumbing to use effluent in the future, it is better to use water than air cooling in this situation. She will support this data center because they have a certain set of parameters they have to operate around here.

Mr. Gordon confirmed for Council Member Ebert that they will work with the Urban Forester on vegetation that is most appropriate for the landscaping.

It was moved by Meghan Ebert, seconded by Naomi Duerr, to affirm the appeal, reverse the Planning Commission decision, and modify the conditions of the conditional use permit to include the additional sustainable design conditions provided in the presentation and to use native vegetation where possible.
