Your Comment Stead Blvd and N. Virginia st intersection. Would it be possible to get more street lights installed here? Maybe complete the sidewalk? Or maybe even ask RTC to start a route that runs from stead Blvd down N. Virginia st to Lemmon Dr? With the building of a dozen warehouses out here, pedestrians are now walking in the dark on the road to get to work.(It is so dark in the early am). It's simply scary and dangerous.

Agenda Item

Rancherra permit to destroy Arena

Please state if you are in favor or in opposition of the agenda item in which you are commenting:

In opposition

Your Comment

The Homes sold at Rancherra were sold to owners with the understanding they would have the arena, pastures, mansion etc as 'amenities' and already many pastures have turned into condos, blocking views, etc. So many huge old trees were destroyed. The developers have not been honest or forthright with anyone. I personally board my sweet old horse who has only one eye and has a cataract in the remaining eye at Rancherra. The community of horse folks has helped me through this journey and we all cannot imagine not having the arena at Rancherra.. people can ride out to Bartley ranch, and the owners can walk into the arena. Boarders will need to drive to Washoe or Carson city or Lemon valley to board their horses. I personally visit my horse daily, if not twice a day, and I wouldn't be able to do that if he was a great distance away. I would have to put him down. I hope hope you can hear the message that owners

were sold a home, and a lifestyle that included our arena.
Please deny the developer the request to demolish the
arena- the largest boarding arena in the state I would guess!
Thank you!

Agenda Item

Stormwater Utility Ordinance - Exempt Damonte Ranch

Please state if you are in favor or in opposition of the agenda item in which you are commenting:

In opposition

Your Comment

I believe it would be fair to exempt the homeowners located in Damonte Ranch from the proposed stormwater fee. Unlike anywhere else in the City, Damonte Ranch already mitigated stormwater flows through construction of regional facilities which Damonte Ranch homeowners pay to operate and maintain. There has already been documentation submitted which provides the extensive history of the facilities/infrastructure constructed and the requirement of Damonte Ranch homeowners to pay Damonte Ranch Drainage District Assessments. I respectfully request the city council to carefully consider the impact to homeowners in our area and make modifications to the ordinance to avoid requiring Damonte Ranch owners to pay double for stormwater services. Thank you very much.

Your Comment

I am re-sending what I sent earlier. There were some spelling and grammar errors in the first one:
I am currently a resident of Sun Valley, but I came from Reno and I intend to go back to Reno. I moved to Sun Valley because when living in a mobile home I had purchased in Reno Cascade Mobile Home Park as the condo I was renting was too noisy I needed to leave. At RCMHP the place next to me became too noisy. It turns out it was owned by the Manager and although he DIDN'T want to be noisy he was. I had actually purchased the place through a realtor although it was owned by Odette. Remember Odette's? I later ran into her while waiting for an appointment somewhere and do you know what she did? She apologized to me! She KNEW the realtor had overpriced it and she was sorry. She never took a step to reimburse me, and I never pressed her to do so, but it made

me understand that's a difference between worldly and Godly sorrow. Worldly sorrow just says "Sorry!" but no action is taken. Godly sorrow involves repentance. Why am I planning on moving back to Reno? It's because having to drive through Sun Valley on Sun Valley Blvd to get the student to UNR is unpleasant. The school and traffic lights that Washoe County employee Pete Etchart put into place at HRHOA without consulting an actual student made things unpleasant. It's time for a change. By the way, the realtor that did what he did to me made me understand that not all people are like me. I don't lie, cheat, steal, or twist the truth. I have a history of that and it still applies.

Your Comment	<p>As Artistic Director of the Northern Nevada Rural Concert Initiative and Conductor of the Northern Nevada String Serenade, its flagship orchestra, I would like to thank the City of Reno and the members of the Reno City Council for their ongoing support of the arts in our community! Speaking for our board of directors, musicians, and audience members, I would like to especially express our gratitude for the City of Reno - Reno Arts & Culture Commission Arts & Culture Project Grant given to our organization in 2022, which helped us fund two wonderful,</p>

free concerts for seniors, low-income families, differently-abled, and other members of our community who have limited access to inspirational professional orchestra performances.

Thank you for your support!

Sincerely,

Jane K. Brown

Subject: External - Rancharrah
To: duerrn@reno.gov <duerrn@reno.gov>

Dear Ms. Duerr.

I am not one to stop all development, cities do need to grow.

That said, I do have an issue when developers take advantage of their powerful position to the disadvantage of the community. There are many developments in Reno right now that are good examples.

If as has been stated that the original development of Rancharrah promised that those who purchased property on their development would enjoy green spaces, equestrian centers...etc., then it's incumbent on the developers to seek the permission from those who bought the property for further development before coming to the city for permits. To do otherwise may not be illegal, but certainly immoral and dishonest.

I also do not believe that the developer position that adding \$1.5 million dollar homes on the property is going to aid in resolving the housing shortage in Reno.

Best regards

John Elswick

City of Reno Letter CCL.pdf

39K

Dear Mayor Schieve and Council Members,

My name is Mary Winston and I have been a resident of the City of Reno since 1976. Before my retirement last year, I owned Reno's only Home Performance Business, providing energy assessments as a Nevada State licensed home energy auditor and contractor providing energy upgrades for existing homes. I am also a volunteer with the Citizens' Climate Lobby.

In the past, the City has demonstrated its support for energy efficiency by providing energy improvements to City buildings and facilities. I am urging you to expand on that support by joining [MayorsForElectrification.org](https://www.mayorsforelectrification.org), a non-profit promoting the electrification of our buildings as one of the quickest ways to wean ourselves from fossil fuels and create a more healthful environment.

I also encourage you to use City social media and other resources to share with City residents information about consumer incentives and tax credits offered by the federal government for energy saving improvements. Such incentives are found on [Go Electric Guide](#) and [IRA Savings Calculator](#). Tag Rewiring America (@rewiringamerica) on social media so they can respond to questions and provide additional information.

By joining the more than a hundred US mayors and other government officials participating in [MayorsforElectrification.org](https://www.mayorsforelectrification.org), our City will take a meaningful step toward a clean energy economy.

Thanks you.

Mary Winston

Your Comment	<p>To Reno City Council,</p> <p>My name is Melissa Taylor and I am the Executive Director of Reno Little Theater. Now in our 88th consecutive season, we are Nevada's longest-running community theater. This is thanks, in large part, to the generous support for the Reno Arts & Culture Commission through their Project Grants.</p> <p>Thanks to a \$4939 grant in support of our Education Program, RLT was able to serve nearly 2000 students and community members through its camps, classes, workshops and productions. As I wrap up the grant, it is so important to me to make sure you know of the impact of funds like this. Council members, this funding was and IS vital to our success and to our community - emotionally, socially, and economically. So, we thank you!</p> <p>With continued support from our city council and the Reno Arts and Culture Commission, Reno Little Theater will be able to maintain the task of meeting its mission to produce high-quality theatrical experiences that inspire, entertain, and strengthen our community through artistic engagement and collaboration. Future</p>

RACC funding will not only protect the legacy of this important local institution, but will also directly pay professional arts administrators, marketers, designers, writers, local artists, technicians, and more, resulting in the creation of many more innovative arts and culture events for our city and its children in 2023 and beyond. And as we know, a vibrant arts and culture community is not only vital to the health and well-being of the community- but will be a keystone in our community's economic recovery.

Again, I want to thank the Reno City Council for its commitment to this city and its people. And as someone whose family lives, works, and plays here, I would like to thank the Reno Arts & Culture Commission for the incredible work they do to highlight the ways in which the arts and culture sector make Reno an incredible place to do all three.

Sincerely,
Melissa Taylor
Executive Director
Reno Little Theater

I wholeheartedly support Mary Winston's call for the City to do what it can to encourage individuals and businesses to become more energy efficient and to electrify! The technology is available for us to do so and it is really about advocacy and education. Please consider what resources and partnerships might be used to encourage individuals and businesses to become more efficient and to electrify!

Your Comment

Dear Reno City Council:
One of the things that helps us find meaning and joy during these challenging times is the arts.
Now more than ever, we experience the power of the arts every day from our own homes – whether that be through the viewing of artwork, reading a book or poem, outdoor sculpture, or listening to some of our favorite music. The arts are helping us collectively survive and find meaning during this global pandemic.

Thank you for supporting public funding of the arts in your community. For 62 years, the University of Nevada, Reno's Performing Arts Series has provided exceptional arts programming to our community and region. The Project Grant received from the City of Reno Arts and Culture Commission (\$5,415) directly supported free and open to the public activities that connected new audiences with extraordinary artists from across the world.

During this grant cycle, the Performing Arts Series welcomed approximately 3,500 people to six performances and 9 free community and University residency activities.

This grant helped us:

- Reach 400+ K-12 students through free programming
- Provide 50 free tickets to Big Brothers and Big Sisters of Northern Nevada so that bigs and littles could attend the featured evening livestreamed performances.
- Inspire nearly 600 students and community members through a weeklong residency with the acclaimed Sweet Honey In The Rock
- Engage 400+ University of Nevada, Reno students during 5 University master classes and workshops with visiting artists.

Additional, the Arts & Culture Commission's Cultural Events Grant (\$5,534) that we received supported the 60th annual Reno Jazz Festival (RJF) free and open to the public Jam Session. This integral component of the Reno Jazz Festival was held on Friday, April 29, 2022 at Laughing Planet on N. Virginia St. We welcomed approx. 100 attendees including student and professional musicians to the jam session, which provides an important opportunity for all members of

the community to experience world class jazz. Six nationally and internationally recognized jazz musicians were hired to kick-off the jam session as the official house band. Together these musicians, alongside community musicians and students, performed a free improvisational show that captivated audiences well into the early hours of the morning. The event provided learning opportunities for young musicians about the process of improvisational jazz at an incredibly high level. It is a one-of-a-kind, 'real-life' educational experience that is central to the Festival's mission.

Public funding for the arts is critical when working to garner additional program support. Support from the City of Reno allows us to leverage additional funding to produce an impressive series of programs each year.

The arts also provide significant economic diversity and impact in our state and community. Typically, School of the Arts programs generate an estimated annual economic impact of \$1.2 million in our community. Additionally, School of the Arts programs contribute approximately \$120,000 to local and state governments and \$900,000 to household income. The grants we receive from the City of Reno help make this possible.

With your support we are able to share the power of the arts in our community, increase quality of life for the region, and inspire the future generation of leaders. Thank you for your dedication and continued support of the arts.

Sincerely,

Shoshana Zeldner

Program Manager, Special Events

School of the Arts
University of Nevada, Reno

Your Comment The city's proposed stormwater utility charge double-bills Damonte Ranch residents, who already pay the Damonte Ranch Drainage District for stormwater abatement. I pay \$37.50 each quarter for the district's services. I understand that the city wants to charge around \$165/year ON TOP OF what Damonte Ranch residents already pay the drainage district. Please exempt Damonte Ranch residents, businesses and the drainage district from stormwater-related fees for services that we already pay for, or have the city take over Damonte Ranch Drainage District and its

responsibilities in return for receiving the proposed tax payment from Damonte Ranch residents. Thank you.

We respectfully acknowledge and thank the Reno City Council for supporting the Nevada Gay Men's Chorus via the Arts & Culture Grants program. Through this generous funding, we were able to produce our 12th season finale Spring Concert "A New World-Breaking Free," which was centered around the reconnection of humanity after the COVID experience, and our 13th season kick-off Holiday extravaganza, "That Holiday Feeling," both performed and live-streamed from Nightingale Concert Hall at the University of Nevada. With this funding, we were able to elevate our performances to new levels, incorporate many local singers, professional musicians, and dancers into our performances and provide a more entertaining event for our audience members. Both concerts will soon be available to view without cost on our YouTube channel, and we invite you to plan for an evening of entertainment at a time that is convenient for you. This program would not have been possible without your faith in our group and our mission.

PLEASE STOP THE (former) HARRAH'S DEVELOPMENT!! We here in Reno and Sparks want as much open space as is humanly possible. Development has gotten out of hand and pretty soon this place will be as ugly as the Bay Area in California has become-which I ran away from to here after 66 years in the bay area. It has turned into a cesspool and apartments apartments apartments everywhere where where we used to shop they're all torn down to make way for super expensive condos and apartments. It's really sickening. And that's what the powers that be with money are going to make reno.

My name's Anita Patterson, I work for ESI Security. I had a post yesterday at the Reno Events Center. I had full view of the corner of lake and 4th Street. There's a lot of pedestrian traffic there and of course there are signs posted double finds in this area for 20 miles an hour. There were so many people, almost hit. So many people speeding over 20 very fast through there. That's just one issue. The other issue is driving home, I live south of the airport. From up there, where I was working and the Reno Events, and I don't drive fast and it's nighttime when I'm coming home. It's dark. It was 9 o'clock. There were several people walking across the street. Virgin, no, on kid, ski, dark clothes. You couldn't see them to. I'm driving slow and you can't see them til you're almost on top of them and they just walk across or not in the crosswalk and they're wearing black clothes. Maybe we need a public announcement for people to wear bright close at night or carry something light flashlight,

something white jacket with florescent. Something. I mean, this is like, you paid it yet. It's been a lot of them are just so out of it. Yeah, and then it would be the drivers fault but we need to do something about all that. Thank you for your time. Have a good day.

Hi. My name is Charlene marks and I am I'm calling on behalf of the 78. Lots that I'm calling on behalf of the town houses that are proposed to be built at Grand Point way and I am there. I invite you to the council, people to come and drive up, Shadow Park Drive, and drive up Grand Point Way and attempt to make a left turn onto man from Shadow Park Drive. You'll run into a conflict of traffic where it takes 225 minutes just to get off the street. And on to me and making a left turn. Between the little turnout Lane. The blind Corner curve when you pull up to the stop, sign at Shadow Park Drive heading north bound to make a left, turn westbound on to man. There is a even a blind spot in the curb and then as you proceed left, there is the bus stop. So the bus stops walking one lane of traffic. And then you have traffic coming into the middle, turn lane again to pull into Raley's and other traffic, pulling to the

right to pull on 2, Rob drive, with pedestrian Crossing including students. At each one of these interceptions in Corners, it specially on icy roads. It is very difficult to pull up from these roads to paste between the vehicles that are coming. And I invite you to come and travel this road to see what an impact would be for an extra 140 Vehicles, should be impacting these too late to blocks of Roads. If you can send you North Elm west bound on man down the hill between 7 and 7:20 a.m. or even 2:07 to 7:35. A.m. you will see the impact of all the traffic already heading to McQueen with people trying to make you turns at various locations to avoid long lines of traffic turning lanes that are backed up so far that they are blocking center lanes. Making a middle Lane in Maine, that doesn't even exist that you supposed to be eternally. And that blocks other people trying to pull off of Stone Valley, Road and Ambassador Drive. So it's already impacted and adding another 8240 Vehicles. Assuming 122 vehicles per property, that would be a huge impact not to mention. They're already building apartments over on Belmont and then and that traffic are ready. Call me. From the west and people needing to drop kids off at school less will really to the commotion. I challenge you to come on, icy roads at 7 o'clock in the morning and see how kit cars already sitting out on me on and how this

Your Comment

The members and Board of Directors of the Northern Nevada Rural Concert Initiative would like to offer our heartfelt thanks for the gracious award of our Arts and Culture 2022 Project Grant. You have helped us achieve our goal of bringing the highest quality live orchestral music to people of low income, seniors and their caregivers and other underserved populations at no cost. We could not do this without the generosity of the City of Reno Arts and Culture Commission.
