Hi, my name is Rachel McCoy MCC. Ohh. Why for the record? Who signed last week? I have been terrorized by the homeless Community, 15. After a doctor's appointment at Sweetwater payment, sign on Elm Street across the street from Saint Mary's. I was medicated for nerve ablation, which are very painful and needs to homeless people for asking for me, for money than they asked, if I was a cop. And they also called me very foul language. And I felt very threatened for my life. I had to run into the surgery center. To get help. I don't feel as though I should be. Accosted by homeless people. Well, I'm going to my doctor's appointment, why are my doctor is paying so much money for their Suites in the City of Reno and paying for their license Kroger's. When nobody's being protected second today. I have a seat on Hillcrest Drive in the license massage therapist. I paid money for my city of this city of Reno business license. I was accosted by a homeless person inside my parking lot Reno police was called, he called me foul language, almost reached into my car, trying to grab my dog. I don't feel as though I'm protected by the City of Reno. Adult, it's uncalled for and I don't appreciate it. I'm wondering what the city kids of council is doing for the private citizens and the business owners. That's my public complaint for the day. Asking you guys to do something before, more women get hurt. Thank you. My phone. Number is 775-223-8913. Thank you. Bye.

April 12 2023 Reno City Council Meeting Public Comment

dvdtitz@gmail.com <dvdtitz@gmail.com>
To: Publiccomment@reno.gov

Tue, Apr 11, 2023 at 9:46 PM

Dear Reno City Council,

I am planning to make the attached comment at tomorrow's City Council Meeting. I just wanted this to be in the record. Thank you.

Dave Titzel

City Council Talk_2-20230412.docx

50K

April 12, 2023

Mayor Schieve and Reno City Council:

I'm David Titzel, a volunteer with [Citizens' Climate Lobby](#) (CCL), Reno-Sparks Chapter. I'm speaking to you today to encourage the City of Reno to participate in an important federal grant opportunity. Time is short – by April 28 each city must submit its Notice of Intent to Participate (NOIP). The program is EPA's [Climate Pollution Reduction Grants](#) (CPRG), which “supports the development and deployment of technologies and solutions that will reduce GHGs and harmful air pollution, as well as transition America to a clean energy economy that benefits all Americans.”

These initial grants are modest: \$1M for each of the nation's [67 largest Metropolitan Statistical Areas](#) (MSA). But they're noncompetitive (guaranteed), and are important because they will prepare each state to compete or be competitive for subsequent competitive grants, such as these:

- \$27B: Greenhouse Gas Reduction Fund
- \$3B: Environmental and Climate Justice Block Grants
- \$5B: Climate Pollution Reduction Grants
- \$3.2B: Neighborhood Access and Equity Grant Program
- \$1B: Clean Heavy-Duty Vehicles (Class 6&7)
- \$3B: Grants to Reduce Air Pollution at Ports

These planning grants support each MSA developing an application and a plan to reduce climate pollution. Since most MSAs include numerous cities and even counties, the specific approach will vary between MSAs. It will likely leverage existing councils of governments or similar regional coordinating frameworks. EPA has held several preparatory webinars ([recordings and slides available here](#)), and on March 1, 2023 issued Climate Pollution Reduction Grant [CPRG program guidance](#).

I applaud the City of Reno for its past work in addressing climate change. However, we cannot let up in our response to the devastating impacts that will befall our community, our country and the world if we fail to take steps now to limit GHG emissions warming our planet. I encourage the City to work with others in our MSA to submit a Notice of Intent to Participate before the April 30, 2023 deadline for the noncompetitive planning grants, followed by applications and work plans approximately a month later. Notices of funding opportunity are expected later in 2023, with applications for the \$4.6B in competitive grants due in 2024Q1.

The Reno CCL chapter stands ready to support the City of Reno and other eligible entities within the state to help contribute to the grant application. And our national volunteer [Electrification Action Team](#) has offered to provide informational calls if those would be helpful.

Sincerely,

David Titzel
Reno-Sparks Chapter Volunteer
Constituent of City of Reno, Ward 2

Your Comment

Good Morning, My name is Taissa Lytchenko and I am the Vice President of the Graduate Student Association at the The University of Nevada, Reno. We would like to thank City of Reno, and Council Representative Naomi Duerr for the generous donation to our upcoming event on April 22nd 2023 from 12-5PM. We are hosting Unity in Diversity on Earth Day, and are thrilled to invite all of you to our event to enjoy performances, discussion with UNR and community groups, raffles, vendors and more! Our philosophy of Unity in Diversity (UiD) emphasizes that unity is not about assimilation but instead a critical and conscious effort to promote mindfulness, understanding, and compassion among individuals and communities. We strongly believe that thinking critically about differences enhances the lives of individuals and communities and drives us to new ideas, technologies, and perspectives. We are so grateful for your support of this event!! And thank you kindly for your service to our city. We hope to see you there.

Item D4: Placemaking

1 message

Thomas Albright <tpalbright@gmail.com>

Wed, Apr 12, 2023 at 9:14 AM

To: PublicComment@reno.gov

Hello, my name is Thomas Albright, PhD. and this comment pertains to item D4: Placemaking Study.

I'm a City of Reno resident along with the rest of my family of four. I also work in the city limits and have children in the district. Three of us drive cars on a regular basis. Four of us use bikes or scooters on a regular basis to get around. We pay taxes and, as such, subsidize car travel and storage on streets maintained by the city, the county, and the state.

I am writing to express my support for accepting the placemaking report. However, **the implementation should not be supported unless a Center Street Cycle Track is included.** This option was promised to us years ago, has been studied extensively and found to be the clear favorite over alternatives, and is needed NOW.

We know that the Virginia Street Pilot project boosted ridership as it made many people more comfortable and safe riding their bikes downtown who otherwise wouldn't. However, the Center Street option will allow safe and connected biking in a way that is more sustainable for the community and its businesses. The evidence is clear that downtowns that prioritize people over speeding cars and empty cars are more attractive and better for more businesses (Volker and Handy, 2021, *Transportation Reviews*).

It is also an urgent question of safety. We have one of the higher pedestrian and bicyclist fatality rates in the country and it has spiked in recent years. Many UNR students and employees want to ride their bikes to work but are fearful about crossing through the current downtown. The current Center Street configuration as a three-lane one way street is not only unnecessary

for traffic demands but it produces unsafe conditions for motorists, bikes, and pedestrians alike by encouraging speeding.

For our safety, our health, and for the economic vitality of downtown, I urge you to support the Center Street Cycletrack for our community's future.

Thank you,
Thomas Albright, PhD.

topic MPH rental rates new record and huge exodus of Seniors and Fixed Incomes
My rent is up to 1045 the highest in Northern Nevada. We were never notified this park was ever for sale nor sold. We got a letter 12/15 from the new Property Management. There is no new lease yet which is halting any new tennants coming in and preventing us from knowing it. I looked up the homes for sale. Doesn't take a genius to see that we are being taken for a ride but to those in this community that doesn't research and since the news can't handle this thank heavens for RGJ and Our Town Reno for actually having the guts to air this. Yes I am aware of SB 275 and yes I know we want to grow to bring in new blood and income with jobs but at what costs for folks like me that invested and that with no tranparency of what is happening is downright wrong. On tax day we will have a VP come in. From where no clue. Do I know the owners? No we at my park were never told. We got a pizza party. Corporate speak of getting your belt on its going to get rough.
