## In support of the Moana Aquatics Center Solar Project

1 message

---

**Bari Levinson** <barilevinson111@gmail.com>

Wed, Apr 26, 2023 at 3:04 PM

To: Publiccomment@reno.gov

City of Reno officials: I am a resident of Reno, and a big supporter of solar energy. I have solar on my own roof. Unfortunately this is not an option for the many people who do not own their own homes. I feel strongly that the benefits of solar energy should be afforded to those less privileged. This will also help in our transition away from electricity derived from fossil fuels.

I am therefore in strong support of the Moana Aquatics Center Solar Project and urge you to support this project.

Sincerely,  
Bari Levinson MD  
Sierra Club Member and Co-Chair of Legislative Committee

**Your Comment**

Hello, my name is Corey mattimore, owner of the series LLC "American skateboarder" am here today Requesting a Skatepark fund branch in community parks and recreation division. Services to improve skatepark condition, raise funds, utilize project as a way to create in new emerging communities, skateboard park gardens, skateboard trails along approved areas, community outreach. Skateboarding has been and always will be a place of universality where you are accepted for taking the challenge between self and the skateboard and wanting to master it.

With the community growing there already are so many new skate-able spots for skaters. Other cities like Minneapolis have approved for their 20+ skateable zones of all sizes thru their city. Cityofskate.org is where that is at.

Also the tony hawk foundation will match any donations to a non profit. I have community organizing experience and have a community organizing certificate with F.L.O.C. From 2015. I'm really not a partisan focused person, I'm focused on the people in my culture since a kid... skateboarding.

I get along with every group of skateboarders here too and even create custom skateboard grip tape art by cutting them with my 3D Laser cutter. The content is on my Tiktok @americanskateboarder and I already have a huge footprint on there.

Trails for skateboarders, places with just a mini ramp, all kinds of detailed things that the skateboarders would want in the city of Reno.

I have mentioned this to Mayor Hillary Schieve and she had asked me if there was anything else we needed at the Believe Plaza and that this is an excellent idea to bring up to city council.

My neighbor Tom who owns the non profit "Cookies for kindness" and said he would help with the Tony Hawk fund. Idlewild needs to be updated with a new park somewhere next to it or at the park. It would be cool to also make a skatepark trail somewhere down along the area. Also with being able to oversee the project we can ensure that if we cast a vote on park designs that we will commit to what the vote was for.

consider the las Brisas park for updates too. We were given choice to pick design a, b , or c and after the votes were casted thru social media marketed to the public we didn't get the winning design, and a bunch of cemented rocks where there could be more things.

With the vast amount of people here into board sports, these projects could even benefit the snow community too. Let's say we make a skatepark trail that is on a slight downhill. Now the snow skateboarders and ski sports are out utilizing the same designs.

On google, Nevada is #6 top state to search the keyword "skateboarding" Thank you for your time and I really look forward to making more gravity with improving the skateboard experience.

<b>Your Comment</b>	The "Glow Plaza", owned by Jacobs Entertainment, has several tall lights which shine overnight directly into the nearby apartment's windows. No longer can residents enjoy their home and the night sky. The lights are so bright that even with heavy curtains they shine through. I'm not sure if Jacobs is attempting to drive out the residents, but it is clear they have no concern for the community and its quality of life.

Hi there.

I'm not sure if this is something for the City Council meeting. Planning Commission doesn't have this project scheduled for any public hearing.

Hi ,

Thank you for contacting Reno Direct. Your comments will be sent to the Reno City Council for review and will be part of the official record at the next Reno City Council meeting.

\*Please note, public comment may be submitted in advance through the online public comment form found at Reno.Gov/PublicComment, by sending an email to [publiccomment@reno.gov](mailto:publiccomment@reno.gov), or by leaving a voicemail at 775-393-4499. Comments received prior to 4:00 p.m. on the day preceding the meeting will be transcribed, provided to City Council for review, and entered into the record. Comments received after 4:00 pm on the day preceding the meeting will be provided to City Council for review prior to adjournment, and entered into the record.

Take care!

---

Look at how bad Reno is becoming with crime murder and people crashing and killing each other thanks Hillary for making our town into this dangerous and destructive and unsafe place by continuously approving all this construction.

Thank you &amp; Have a good day.

Best regards,

- Marco Angeli

**Your Comment**

On May 1, 2023, the City completed an extraordinarily short-sighted conversion of Reno Direct to a "new platform" to report services requests, simultaneously blocking on-line access to all outstanding/closed service requests submitted prior to May 1, 2023 (I am referring to my own prior service requests only). A Reno Direct representative just informed me that the only way to gain access to all details of my prior service requests is to submit a Public Record Request to the City Clerk. This transition serves not only to make it much more difficult for the public to readily review prior service requests, it also adds additional, totally unnecessary workload on the already overburdened City Clerk's office. Total "FAIL" to the City of Reno on this one.

regulation of PFOS in April 2016. Consumer and industrial uses of PFAS-containing products can also end up releasing PFAS into landfills and into municipal wastewater, where it may accumulate undetected in biosolids which are typically treated by land application.

*2 MG = 2,570,823,568*

*7 Billion 570 million miles*

## Industrial Sources

KEY **A** Atmospheric Deposition **D** Diffusion/Dispersion/Advection **I** Infiltration **T** Transformation of precursors (abiotic/biotic)  
 Figure 1. Conceptual Site Model for PFAS industrial sites<sup>[1]</sup>. Adapted from figure by L. Trozzolo, TRC, used with permission.

PFAS are used in many industrial and consumer applications, which may have released PFAS into the environment and impacted drinking water supplies in many areas of the United States<sup>[10]</sup>. Both in the United States (US) and abroad, primary manufacturing facilities produce PFAS and secondary manufacturing facilities use PFAS to produce goods. Environmental release mechanisms associated with these facilities include air emission and dispersion, spills, and disposal of manufacturing wastes and wastewater. Potential impacts to air, soil, sediment, surface water, stormwater, and groundwater are present not only at primary release points but potentially over the surrounding area<sup>[11]</sup>, as illustrated in Figure 1. Some of the potential primary and secondary sources of PFAS releases to the environment are listed here<sup>[1]</sup>:

- **Textiles and leather:** Factory or consumer applied coating to repel water, oil, and stains. Applications include protective clothing and outerwear, umbrellas, tents, sails, architectural materials, carpets, and upholstery<sup>[12][13][14][15][16][17][18][19][20][21][22][23][24][25][26][27]</sup>. *URBAN outfitters*
- **Paper products:** Surface coatings to repel grease and moisture. Uses include non-food paper packaging (for example, cardboard, carbonless forms, masking papers) and food-contact materials (for example, pizza boxes, fast food wrappers, microwave popcorn bags, baking papers, pet food bags)<sup>[12][8][13][15][18][22][23][26][28]</sup>. *RDonnelly / BURROWS / Bitemaid*
- **Metal Plating & Etching:** Corrosion prevention, mechanical wear reduction, aesthetic enhancement, surfactant, wetting agent/fume suppressant for chrome, copper, nickel and tin electroplating, and post-plating cleaner<sup>[29][30][8][16][31][23][32][2][33]</sup>. *RDonnelly / Air Conditioning American Hot Water Heater*
- **Wire Manufacturing:** Coating and insulation<sup>[8][34][35]</sup>. *Alexion*
- **Industrial Surfactants, Resins, Molds, Plastics:** Manufacture of plastics and fluoropolymers, rubber, and compression mold release coatings; plumbing fluxing agents; fluoroplastic coatings, composite resins, and flame retardant for polycarbonate<sup>[8][36][15][37][16][38][34][22][24][26][39]</sup>. *ALL mentioned Chemon* *CalVanzed Force Manufacture*
