Wild Horse Fencing

1 message

Kelly Hyatt <wildmustangkelly@gmail.com> Mon, Oct 10, 2022 at 1:50 PM
To: publiccomment@reno.gov

Hello, My Name is Kelly Hyatt,
I live on Toll Road off Geiger Grade South Reno. I work with the Wild Horse Connection as a diversionary feed/ water person as well as I help move the off the roads and yards in the toll/geiger area. I feed at an approved private property about 4 miles up from the intersection of Geiger and Toll (Equestrian). The road goes directly up into the Geiger Grade canyon. The wild mustangs can come down Toll road from the hills behind the toll road houses and even on roads that connect back to Pleasant Valley. We currently have over 100 horses that "mostly" stay up at our feed station, although a few times a week they just have to come down to get some grass and apples. We also have about 30 "stragglers" who have ended up in the streets and are crossing Geiger grade almost every night , on to Equestrian into the Curti Ranch development. That development opens up onto Veterans Parkway. While I am thrilled that you are considering a fencing project as well as an eventual under/overpass for the wildlife, I implore you to take notice that this project must be done NOW, not in two or more years. The initial fencing must be done now to alleviate the problem of over 100 horses crossing Geiger grade at 2am. This is a small project that will yield enormous benefits as soon as the fence and cattle guards are installed. While a fence all along the Geiger grade would be a benefit in stopping horses from crossing that major road, it will not alleviate the horses being on Toll road and so therefore i ask that you immediately begin approval on the proposed fence that Wild Horse Connection has presented, this is the same fence line that horse advocates have asked for since at least 2013 and it is the best way to keep horses from getting into the highways, local roads and homes/ developments that they are in right now!!! We must have fences to

protect the public and the horses. I feed every day (during feed season) twice a day and I provide water year round. I work a full time job in addition to at least 6 hours a day (3 before and 3 after) to help keep the public and the horses safe. I am grateful for the WHC that I am able to do diversionary feeding and I am grateful that you are looking into fencing. But it must be done sooner than later as I do not want a person to be killed when 30 , 50 , 80 or 100 horses are crossing the roadways in search of food or treats such as apples. the horses know that the apples are here now that harvest season is upon us and also there are still people who insist on providing water and food for the horses down in the developments of Curtie Ranch, the Foothills, Via Biancia MH park as well as in the homes all along Toll road and Kiviatt, Pinon and more, the fence will stop all of that immediately and then the WHC and other groups associated with them can focus solely on range management rather than moving horses off the roadways to protect them and the public. The proposed fence goes along a few private properties and some BLM parcels, and it would be much less expensive to "close up" the existing fence lines with new "range fence" and put in a few cattle guards then to fence 8 miles of Geiger Grade right now. Thank you for your support -- please see the photos of the horses and the MAP!

I'm pretty sure I'm wasting my breath here. I have been asking for a little extra please press on it, quite Clear, Acre and Scottsdale. I'm old. I've almost got hit 3 times trying to get into my car, that's parked on the street. What do I call the governor? The president. Somebody needs to pay attention year.

Good morning. My name is Jerry Medford city council. You know that I was removed from City Hall council meeting on May 18th. I've I've waited 4 months to get a meeting with Mary, I believe Carl Hall, his driver's seat on it, her attorney and finally, on the 27th of September, I was able to meet with the mayor. Now, our, our truck was quite long but in, in the middle of it and they said that if I am looking well for any kind of damages, The Voice a settlement, I thought talking to her that's what we was going to transpire but she would address or bring it to the city council and they would vote on it. I wish you didn't Courage the mayor to follow up on on her suggestion and I would like to appear at that at that prior to that boat to plead my own case because the mayor and Carl would not accept. I see my my medical damages that I've incurred. Since may change know what they want to talk further except to drop me away from the podium where I've been expressing this and and offer me a way out. My issue, maybe helping me with me, the Housing Authority, as a Mary suggested, or helping me with the 2nd Annual. I'll see you fucking roll party. I know more was there to Blackmail the mayor as it. It seemed like she was driving me but I'm not using his words likely. I'm not going to see that. It was a bride, but it was a little way. I just want to appear before you, please city council for you to be able to eject a break regardless of what you hear from Carl Hall. Listen, to me and both that something is in order and assess the situation and proper a proper settlement, yes, it does. Involve money. And I'm not asking for anything more than I deserve. I'll let you determine that. I tried to negotiate that with the mayor. We didn't get to that point. I feel terrible about this said, I have to proceed this way, but I appeal to City Council Members, please please separate your cellphone, call home and be able to, I know he's returning your conscience, be your guide so you can get a hold of me at 775-358-4818. If she's always please encourage Amir to give me a call and tell me when that meeting is going to happen. Have yourself a great day. Thanks for all you do for the

Hello. My name is Kelly Hyatt. I live on Toll Road in South Reno and I work with the Wildhorse connection has a diversion Airy feeder and horse mover and I've been doing this for a very long time and I take care of and keep of over 100 horses off the road along with the team of girls. We are out all the time during the day. Sometimes at night trying to keep the horses off the roads to prevent accidents from either horses are people getting killed the intersection of toll road and Geiger great. As one of the most dangerous areas that is unfinished. At this particular moment and we cannot wait two or three years for fencing 5th. In 2015, a proposal was presented to Finch. From the basically the Gravel Pit coming from Hidden Valley, 22, toll road, and then continuing on from toll road down into Pleasant Valley or back towards 395. I know that the proposal is on now and that you have maps of it and I would respectfully request that that proposal be accepted and worked on immediately. It's a very small project for a, very large impact that will protect people. If you just Finn's, Geiger grades, in the horses, will still be able to get down on 2 toll road and also into all over the house is there. Although I do look forward to eventually having an underpass up on Geiger grade, the immediate need is the original fence proposal that

will keep the horses from coming down into the houses in the foothill area and on the toll road area, Crossing back and forth over Geiger which they do every day. I have plenty of videos and photos and I'm more than happy to send them to you. I would physically be at this meeting today. However, I cannot do that, considering I have to go up and feed the horses at 5:30 every single day. To make sure that they don't come down onto the road and cause Havoc with the neighborhood again, the hit by cars and hopefully not kill a person or themselves. Please do not continue to delay this project again, it's extremely important and it is a very small project considering the very large impact of that. It will make my address is 355, Taurus, Circle Reno, Nevada, 89521 and my phone number is 775-530-7741. Thank you.

Hello, my name is Wendy Thomason and I live in Reno, Nevada. And I had wanted to be there in person, but due to unforeseen events with work, I'm unable to do so, please don't think my lack of appearing in person takes away from the emotion and priority that I'm giving to this on September 11th. 2022. It was the weekend of the air races. Nothing Airways. It said balloon recent I'm sorry that hot air balloon races I was woken up. Saturday night going into Sunday morning at half past midnight. Bye feeling tired and racing cars. Very loud. Off of I live off of the West half acre area. I called the non emergency police dispatch to report it as it was continuing for a while. Unable to fall back asleep. I went to get some work done at my office, which is located over by the Reno Target shopping center off of Sierra, Center Parkway, where I encountered hundreds of teenager groups about in the parking, lot of the need to feed. in every 9 Target parking lot under the teenagers grouped about Cars with Greeley tires, cards around here with Anna Parkway. We think there was underage, drinking these kids had school. We're leaving present for I need at least at least an hour. They were all very comfortable. I called the emergency 911 at that point to report that I had called the non emergency number and this is where they were actually located and that it looks very dangerous. When all of a sudden I was approached by two teenage kids on both sides of my car pouring beer, kicking my car smashed and of snatching my windows, they tried to get into my car. Thankfully my doors are locked. I do feel that I would have been salted have they've been able to get into the car the place did eventually show up after cars. Floodlight case study Might my, my part was spray painted. It was horrible. I do now that this is in somewhat being address, I would like to think I'm council member. When we do our 4, I was pleasantly surprised to find out that she was already addressing that issue in South Reno. I see that judges Hopefully, these cars can stay in pounded longer. If charges would take this more seriously, if the police would take this more seriously and did the appropriate amount of concern towards this issue, if you know,
